ROBT. 1REDELL, JR., Edite ALLENTOWN, PA., SEPT. 20, 1871. REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL: COL. DAVID STANTON, of Beaver County.
FOR SURVEYOR GENERAL:

COL. ROBERT B. BEATH, REPUBLICAN COUNTY TICKET. AssociATE JUDGE, Charles S. Bush, Allen-

Assembly, Reuben A. Boyer, Catasauqua J. B. Mauser, Slatington. DISTRICT ATTORNEY, W. D. Luckenbach,

Allentown. SHERIFF, John Snyder, Whitehall. TREASURER, B. J. Hagenbuch, Allentown. RECORDER, Joseph Hecker, Allentown. COMMISSIONER, Hiram Balliet, North

DIRECTOR OF THE POOR, David Danner, Millerstown.

AUDITOR, John Hottenstein, Salisbury. TRUSTEES, Dr. T. C. Yeager, Allentown

James Singmaster, Millerstown SYSTEM OF THOUGHT.

We are especially pleased to observe among our different educational interests that the Allentown Female College has for her object the dissemination of truth among her large number of pupils now in attendance. As such we find it embodled and, so to speak, hid in the various sciences, which are daily taught within the Institution. These in point of importances are made to occupy their proper subordinate, legitimate sphere. The mind in grapling truth as such, in its various forms, equires, it is supposed, the necessary disci pline in order to think correctly according to the truth. In dealing with truth it is eventually made to think logically and thus prepared to seperate truth from error and lay a proper estimate on its force. The sciences, it seems, are properly graded in the system of thought and made to occupy their proper relation in the mind and idea of the pupil. This proper relation makes all science subordinate itself to truth, as it holds itself in the absolute and ultimate source of all TRUTH. Accordingly a system of thought can be sound and tenable only when it places itself properly in subordination to ultimate TRUTH, as it holds itself in the objective, which is external and unchangeable throughout the endless ages of time; and reigns in and over things material

as well as spiritual. With this admirable system of thought forproperly understood, a full knowledge of all the sciences even Geology, will do no violence to the reception of the revealed Word. The human mind thus disciplined must necessarily square up and accommodate itself to TRUTH, revealed to us through the Scriptures. This system brings our knowledge to as through it through the instrumentality of faith, have we a proper idea of education in its ground

and pervading the Allentown Female College. sectarious character either to be found in it.

THE CALIFORNIA AND MAINE ELECTIONS. The result of the California election proves

to have been more of a Republican victory and in a special manner favors the laborer and than the earlier reports indicated. The Re- and farmer. lican principles. The election was contested more than State elections usually are upon National issues, and the result shows that California does not believe in the claims set forth by modern Democracy. The Republican platform endorsed the administration of Presi-Francisco Bulletin shows how the election was looked at at home, and will be suggestive to our readers. The Bulletin says:

upt legislation in regard to state lands, ery of property holders in San Francisco. ropperty of property holders in San Francisco, multiplication here of costly and inefficient commissions, conversion of our fire department into a party machine, attempt to demoralize the police in like manner, abuses in the mode of work on the state capitol, and generally the disposition shown to make state and local government a mere party convenience. Beyond all this the democracy were distructed on national issues. The street of the state capitol and the richest mines of coal and iron in the world, now buried uselessly in the ground?

Sept. 9. A Veteran Protectionist. lence. Beyond all this the democracy were distrusted on national issues. The sincerity of their new departure is doubted. Their infaults—and republicans are the first to ex-se and condemn them—is the party of na-nal ideas and aspirations, of liberality and

nothing more to insure substantial victory.

THE Illustrated Christian Weekly, published of his life. by the American Tract Society at New York, is a fine paper and shows improvement with each successive issue. Its illustrations are excellent, and its reading matter is unexceptionwe hope that the Weekly will have the success which its merits so richly deserve.

THE PENNSYLVANIA CAMPAIGN. To the Editor of the Tribune.

Sin: Many Democrats seem disposed to concentrate their party strength against Proection, and abandon all other conflicting questions. This is the best issue that can arise for us Republicans. In accordance with their new plan of action, the Democrats at the Pennsylvania Convention declared, in their seventh esolution, "the existing system of taxation and finance is ruinous in its effects upon the aboring, producing, mining, and manufactur. ing interests of the people, and is the fruitful ource of hard times, personal indebtedness, and individual bankruptcy." All this is said in face of the manifest fact that the country was never more prosperous than it now is

nder the present Protective policy. This Pennsylvania anti tariff resolution has been generally adopted by the Democratic party throughout the country, and often in stronger terms. Should we not, therefore, accept at once this challenge, and adopt measure to secure success in the conflict? When it is notorious that the Free-Trade Leagues, foreign manufacturers, their agents, and their Democratic allies here, are raising and expending millions to purchase our public men, subsidize our press, and are-circulating hundreds of thousands of Free-Trade newspapers among echanics, farmers, and laboring men, adopt

the people, why shall not our manufacturers, measures to raise money and subscribe for as many copies of the Tribune and other tariff papers of extensive circulation to counteract falsehood, and secure American industry against its insidious enemies? Thus alone can the country be saved from the disastrous effects which have always followed the adoption of the Free-Trade policy. Let us meet their false assumptions by facts drawn from official records, to some of which permit me briefly to advert.

1. It appears that, although Congress has repealed most of the internal revenue taxes, and reduced the duties on 75 articles, and declared 200 more to be free of duty, the revenue will not be materially reduced, because it is honestly collected, and the people are enabled under our Protective policy to buy and consume, more largely than before, foreign goods.

2. To show the fallacy of the Free Trade
assumption, that the "duty on a given article
increases the price of all that is made and consumed at home," let the incontrovertible fact
be stated that never was a Protective duty levied upon any article that we can manufacture
of assessments colied upon any article that we can manufacture ied upon any article that we can manufacture at home to the extent of our own wants, that it did not in the end, by increasing as the plainting is informed and beit did not in the end, by increasing competition and supply, reduce the price of such artiele. Even many articles in the Tariff list are now sold by us in the foreign markets of the world to the extent of millions annually. The fact that Protective duties have always in the cibly impressed on the mind of the pupil and end reduced prices, and never increased them. may be safely asserted and proved, as it often has been on the floor of Congress, and never

refuted. This being true, ought not the advo-

cates of Free Trade, upon their own theory of low prices, to go for Protection ? 3. The Free Traders assert that Protective duties are levied to favor "monopolists" at the As we receive the truth, which after expense of farmers and laboring men, while all covers all science, and properly apprehend just the reverse of this is true. The object and effect of Protective duties is to increase manufacturing establishments in the country, thereby creating competition, the only thing which We have been enabled to gather these few can destroy monopoly. Now, I ask Free thoughts from the outcroppings on different Traders, does it favor "monopolists" to build sioners of Taxes and Assessments, for the occasions, which so far as we have learned, up rival factories in their neighborhood, therecomprise the system of thought underlying by increasing wages by increasing the demand for labor, and enhancing the price of raw ma-It seems to be sound and in our opinion will terials, agricultural produce, and all that forms bear investigation. There is nothing of a the subsistence of labor, by increasing the conswer to this, and that will be in the affirma-

tion of a United States Senator to succeed in the present campaign, I find myself should be entrusted with power—and estimat-Senator Cole. They have also elected Mr. Booth Governor by about six thousand material forms and the senator Cole. Before closing, however, permit me to call your attention to one effect resulting from the control of the population at 40,000,000, for convenience, and because that is no greater ratio of call your attention to one effect resulting from the control of the population at 40,000,000, for convenience, and because that is no greater ratio of call your attention to one effect resulting from the control of the population at 40,000,000, for convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and because that is no greater ratio of the convenience, and the convenience of the convenien footh Governor by about six thousand majority, and in every respect the election proves to have been a complete vindication of Repubthat is \$2 per tun on 184,000 tuns imported the expenditures of the nation during any year during the current year, and a loss to the con- of the war, though at times more than a milsumers of \$920,000, being an increase of 5 | lion of men were under arms. per cent, in the price of Pig Iron caused by dent Grant, and the fact that heavy gains were the check which this reduction of \$2 per tun made in every part of the State upon this plat. caused in the home supply, amounting toform shows that California may safely be gether to a loss of \$1,288,000 to the Treasury counted for the Republicans in the next Presi- and the consumers of Pig Iron, irrespective of dential election. An extract from the San the loss entailed by buying an increased quantity abroad of what can be procured in abunfrom the Treasury report, show clearly the "Aside from the platforms, the two parties were judged by the people according to their respective records, instincts and tendencies."

In Bullian says.

In Bullian says.

In Jurious effect of a Free Trade policy, so far as it was adopted by last Congress? Instead of reducing, had Congress increased the duty only resource, and so many as fifteen thouseless. were judged by the people according to their respective records, instincts and tendencies. The democracy having been in power for four years are vulnerable to attack by reason of much bad legislation, including the creation of many new offices, the increase of salaries and fees for partisan purposes, the compulsory support of party organs, the breach of the constitution by the passage of a lottery bill, down on railroad tracks passing over the

Democratic Presidential nomination do not office hunters among them. The Mennonites of their new departure is doubted. Their intentions with reference to the public debt are suspected to be tainted with repudiation. Their opposition to the settlement made with Great Britain inspires fair that they would rashly provoke a foreign war; while their truckling to the mod spirit at home, as in New York, creates a dread that civil tumult and proscription would follow their accession to power. For these reasons, and we think to power. For these reasons, and we think we have not exaggerated the extent to which they affect public opinion, a very large portion of covered the same and th they affect public opinion, a very large portion of our people thought it would be unfortunate for the Democracy to carry California in for the Democracy to carry California in September, since the moral effect of their selections in other glates, and to decide their vote at the Presidential election in 1872. So far as appears at present, the continuance of the national government in republican hards is a necessity. The republican party, with all its faults—and republicans are the first to expose and condens them—is the party of national condens the correspondent in the co the platform adopted by the Wisconsin Democracy, and really hopes for and desires the and who had been advised of the time of his clection of ex-Senator Doolittle to the gubernatorial chair. DEMOCRATIC MANAGEMENT. As the Democratic party is again before the country asking the people to trust it with power, though thus far without much success, t would be well for the people to look into the record of that party in New York, where the Democracy has had full sway for two years and a half. We give the facts taken from the sworn statements before Judge Barnard's Court, which have not been controverted by the city authorities, and upon which

the Court has granted an injunction.

Making together a total of... 50,628,830 80

Making together a total of ... 113,657,258 51 said city and county when the defendant, Hall, became Mayor, as shown above, \$50,-628,830.80.

ing the two and a half years of the present Mayoralty, \$63,028,427.71.

And from the gen 5,830,657 35

showing the average expenditure and cost of the government of the city and county during per cent upon the fixed valuation of the estates, | their secret from that source. real and personal, subject to taxation in the said county, the fixed valuation of said estates being, according to the report of the Commis present year, (1871,) \$1,075,000,000.

So much is known. What the floating and to-day : unsettled claims may amount to, no man can say. Allowing the city and county of New U.S. 5's of 1881...

York to contain one million of people, which is considerable more than the actual population of 55... sumption thereof? There can be only one and is considerable more than the actual population, and we have an expenditure of more tive. THE NEW HAVEN

IMPROVED LOW-PRESSURE

STEAM-HEATING APPARATUS

Those who have used it are unanimous in their testi-mony that it requires less attention, produces no dust, saves more coal and heats more theroughly than any other heating apparatus, and such improvements have been made in their radiators that they are great additions to the ornamentation of fine dwellings, and are beautiful substitutes for mantels.

We refer to a few of the many who now have this apparatus in use: "-John Whoo!", Lawis A. Lukous, Dr. J. F. Fold, Conschabetes, Kathan Scholid, Charles Noble, Bon. William Scholid, Charles H. Stilleson, William Scholid, Charles H. Stilleson, William Scholid, Charles H. Stilleson, William Jr. E. B. P. Obe, Nortletown.

The Patigue of Washing Day no Longer Dread d, but Economy, Efficiency, and Olean Clidhing, Sure, Economy, Egister, and them the longer breaded, but In calling mobile and greater than the machine, a few of the law damped gradients of the washing much they set invested, but there out the problem, most simple in construction, most estip operated. Actifultien younger-board of few hours practice, can thoroughly younger-board of few hours practice, can thoroughly younger-board of the work and of a better quality, then there are to the law of VEGETABLE SICILIAN RENEWER.

ONNINE PERON. ITS CURE AND
ITS PREVENTITIVE, BY J. B. SCHENCK, M. D.
May ya human beling has passed away, for whose death
are was no other reason than the nextect of known and
disputably proven means of cure. Those near and dear
family and friends and sleeping the dreamless slumber nlly and friends are sleeping the dreamless slumber which, had they calmly adopted.
JOSEPH H. SCHENCK'S SIMPLE TREATENT, valled themselves of his wonderful effections meds, they would not have fallen.
Schenck has in his own case proved that wherever but vitality running, that vitality by his medicine had rections for their no. Is quickeened into health-Agricultural & Mechanics' Institute.

in this statement there is nothing presumptions. To the faith of the livially is made not presentiation that is not a thousand those substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple on the unduling. Its philosophy retrieves the standard of the control of the properties of consumption originate in dyspepsia and a functionally disordered liver. With this condition the broughtia those "sympathize" with the stomach. They respond to the marbific action of the liver. Here there comes the culumnting result, and the setting in, with all the deserting the composed of one of Nature's not lest gitta—the Podophillum Pellatum. They possess all the blood-searching, after after properties of calounel, but unlike catomat, they

county, the Supervisors of the county, in action, soft, whitish, and free from grit. A cost cordance with the provisions of the statutes enacted in that behalf, (Laws of 1860, chaps. 875 and 876, and Laws of 1870, chaps. 382 and 383.) levied and raised during each of the years leading and the states by law subject to taxation within said county, for the support of the city and county of State taxes for each of said years, as follows:

A HORSE! A HORSE!! MY KINGDOM FOR A HORSE.--Shakspeare

PREVENTS Contraction of the back Sinew, commonly called Knee Sprung, &c.

From the BOOK OF JOB, Chapter xxxix.

19 Hast, thou, given the horse strength? hast thou 23 Tho quiver rattleth against him, the glittering spear and the shield. 21 He paweth in the valley, and rejeiceth in his strength; the goeth on to meet the armed men.
22 He may be goeth on to meet the armed men.
23 He may be goeth on to meet the armed men.
24 He walloweth the farmed of the trumpet.
25 He may be goeth on to meet the armed men. 20 Can'st thou make him afreid as a grasshopper ! the strength (be goeth on to meet the armed mea.

22 He macketh at fear, and is not affrighted ; neither the battle after off, the thunder of the captains and turneth be back from the sword.

Afor all years practical experience with heres, in staging, teaming, &c., I have learned that more horses have on crippled by Institution to the furthum all off or dispasses combined. After many experiments I have found the accretion to the form of the present the intendent is a property of the other and the form of M. C. BOYER,
