The Mehigh Register. No paper discontinued until all arcarages ar

paid, except at the option of the publishers. Our subscribers who do not receive their paper. regularly will confer a great favor upon us by

sending word to this office. Subscribers about removing will please send u their old address as well as the new.

NOTICE .- Within a short time we have sent out a large number of bills for subscription. Many of them have received prompt attention, for which we return thanks, and we would be very happy to return thanks to the balance of those who have received our bills. The amount in each case is small, but in the aggregate the amount is large and our friends will confer a favor by giving the matter their prompt attention.

THE country papers have just discovered that the law fixing the weight of a ton of coal at 3240 bs affects the dealers in Philadelphia only.

Ir the districts throughout the county had made the same proportionate Republican gains since 1869 as Coplay has done, the Republican majority in the county on the State ticket would be 1199.

Among the largest corn growers in this State is William Cameron, Esq., of Union county, who has 810 acres of corn on his different farms, that will average 120 bushels of cars to the acre, making 37,200 bushels.

SERIOUS AFFRAY .- We are informed that two men, named Rochford and Duffy had a quarrel in O'Brien's saloon, at Catasauqua, Friday evening, resulting in the shooting of Rochford by Duffy, the ball passing through the neck and coming out through the back part of his head. It is supposed that the wound will prove fatal.

Second street, Sixth Ward, was arraigned before Alderman Good, yesterday afternoon, on oath of Samuel Smith, cigarmaker, charging him with abusing his son, who is a cripple. On hearing the case was dismissed and the Alderman took means to send the boy, who is weak-minded, to the Poor House.

MAJORITIES IN THE COUNTY.

ional Convent Judge Fry. Assemblyman Woolever. Fetter. District Attorney Sowden. Sheriff Fanst. Jecorder Camp. Freasurer Heller. Jommissioner Ballici (Rep) Director of the Poor, Hartzell. Rupp. Weil.

WE have good authority for saying that in case the nomination for Congress, next year, is conceded to this county, C. W. Cooper, Esq., Cashler of the Allentown National Bank, will be a candidate for nomination on the Democratic acket. We have also heard the name of Col. M. H. Horn, Cashler of the Catasauqua National Bank, mentioned in this connection, but it is not known whether Col. Horn would consent to have his name used or not.

THE Norristown Daily Herald comes to us enlarged, with a new head and new dress. It does not present an improved appearance because the Herald heretofore was one of the handsome-t dailles published. We had a weakness for the old head and regret to see it supplanted by a text. Mr. Wills' ideas of what a newspaper should be in appearance as well as contents, are not surpassed by ose of any other journalist in the State, but we think he has made a mistake in changing the style of the head.

MEANNESS.-A man in the First Ward met a friend, who he asked whether he had seen anything of them. "Yes," was the reply, " and gion. if you give me a dollar I will tell you where they are !" The owner of the pigs thought the demand | tion, and adds that since the interview the ground a little steep and refused to give it, but offered to treat the crowd, but the other objected to this, ough he concluded to take twenty-five cents. The quarter was paid and the owner was shown

to his pigs, which were in the rear of the friend's shebang.

RELIGIOUS.-At the Lehigh Iron Company's Furnace, Sunday, the attendance exceded the accommodations. The congregation was addressed in a most graphic manner by Dr. Clemens, of this city, from First Chron. 28c, 9v : "A father's advice to a youthful king.". the charities of this noble institution, we were unable to do so. We can assure the community that Allen Commandery has contributed with its usual liberality. May it have many imitators.

A HUNDRED AND FIFTY men(?) were found a Montgomery county to vote the sham Temperince ticket. The Temperance organizations of Lehigh county are among the most energetic and powerful in the State, but we are happy to say that not one of the members of that order here could

be found who was green enough or knave enough to advocate the tleket set up at Harrisburg by some irresponsible parties who cared more for the bribes of Democratic politicians than for the cause of Lemperance.

Nicolls, the General Superintendent of the Reading Railroad, has been interviewed by the editor of the Hamburg Press in relation to the projected coal schute in that borough. The Superintendent in reply to the questions states that "when the schutes would be completed, Hamburg would be a headquarters for many cars, and shops would be required to repair them and build new ones, which vill give employment to many men. ALL RIGHT .- T. B. Leisenring, agent for the Andes Insurance Company of Cincinnati, has received the following :--

CLIFTON, OHIO, October 9, 1014 o'clock. CLIFTON, OHIO, October 9, 10½ o'clock. I have, to-night, carefully examined all Chicago insurance in the Andes Insurance Company, of Cluchnatl. We shall authorize our adjuster to draw on us at sight for every correct claim as rap-idly as adjusted. Our losses by this great calami-ty are a very considerable figure, but nothing to erippie us. The hour of duty is upon us, and we shall meet it in the lion-hearted manner that the occasion requires. Nevertholess I fully expect, in addition to surmounting this serious obstacte, to pay the stockholders of the Andes Insurance Com-many a comfortable dividend next July.

pany a comfortable dividend next July. Respectfully, J. B. BENNETT, Pres't.

The following is the vote of some of the towns we have heard from :

Allentown.... Norristown.... Bethlehem.... South Bethleh It will be seen by the above that the vote of Allentown exceeds that of Easton and South Easton combined by 456 votes. It is estimated that about 500 of our voters did not attend the election. In ristown the Temperance candidate for Burgess polled 38 votes and in Harrisburg their candidute for Auditor General had 159 votes.

THEATRICALS .- "FRITZ, OUR COUSIN GER-MAN,"-Joe Emmet will play at the Opera House in the above play, on Tuesday evening, October 24th. The play and the player are strangers to Allentown, but Thos. Kean, of the Buffalo Courier, recommends them in the following words, and he knows : " The great success of Mr. Joe Emmetas Fritz, in Charles Gayler's new play, continues without interruption at the Academy of Music, and his audiences increase with each succeeding

night. Last evening the assemblage was very arge, and was liberally made up of our most fastidious theatre-goers. The dress circle was filled, as was the second circle; and the gallery-gods were out in countless numbers. Now, when an author or star presents a play which affords fun for the dress circle and the gallery alike, his pros-perity is assured. The toughest problem for the playwright is how to please the people with cultivated tastes without utterly ignoring the gods, or how to entertain the latter without offending the former. The gamin, who does his last dime on the play of the evening, and watches eagerly from his perch near the ceiling for the stunning points, is just as sensitive in regards to his rights as Milady in her sliks down stairs ; and unless a respectable compromise is effected, the popularity of play or a star is one-sided. Messrs. Gayler and Emmet bring the extremes upon common ground for two hours and a half each evening. As a whole, we know of no such combination of fun and sensationalism on the stage. Mr. Emmet, as Fritz, is the most perfect delineator of German character that we have ever seen on our boards, or anywhere else, for that matter. His dialect is capital and almost without a flaw, and his humor is of a most positively contagious character. He does some excellent acting in the first act, and in the third ; but it is in the second act that he shines brightest. This may very properly be termed a screaming act, for from the beginning to the end of it the audience are kept in an almost unbroken uproar. This act embraces his character imperonations, and these are funny beyond description His song to his boy, in his third act, " O Sneider ! How You Yos ?" is very neat ; and his entire performance is free from those objectionable qualities

which so often mar humorous characters. Mr. amet has a ringing, musical voice, a fino sense Mait is nominal, at \$1.10@1.80. of time and tune, plenty of vitality, and not a little of the Jeffersonian caste. Ills trial scene is fully equal to the court scene in which Solon Shingle appears in pursuit of his " barrel of apple-sase," appears in pursuit of his "barrel of apple-sars," and, taken altogether in his specialty, we cannot hut regard him without a rival.

this life in Ruhe & Weikel's Hall about a week ago. We take pleasure in informing Frank that Yeager Post, No. 13 G. A. R., or "the poor little fellow," has grown to be robust and vigorous and has every prospect of surviving not only the Democrat but all our enemics. It is true that we have been robbed of \$314.45 by Frank's bosom friend ;

but we have still been abundantly able to meet all indebtedness promptly, and to relieve the most pressing wants of those who applied to us for as datance. We have not disposed of our furniture

to raise means to pay debts, but to accept the generous offer of three comrades, of a handsomely furnished room for meetings without rent, thus enabling us to largely increase the charity fund. The Post numbers sixty-five members in good standing and has suffered but little from the empity of the Democrat. For further information con cerning the standing of Yeager Post, we refer the the G. INCENDIARISM IN EASTON.-Shortly before 12 o'clock, Wednesday night, flames were discovred issuing from the two-story frame building be

longing to and occupied by the firm of Becker, Hilliard & Co. as a store house. The dwellings adjoining the building were saved. The building, ogether with the entire contents, consisting of a arge quantity of nails, plaster, cement, agricultural implements, grind stones. &c., was entirely consumed. The firm estimate their loss as follows : On stock, \$4,000 ; insured for \$1,625 in the Northampton Mutual Insurance Company; on building \$600 ; insured for \$375, in the same company. About \$500 worth of furniture, belonging to Mr. Frank Reeder, stored in the building and

on which there was no insurance, was destroyed. The building adjoining, to the cast, occupied by Mr. Good, and belonging to Mr. Gregor Unser, was damaged by fire and water to the amount of \$70 ; fully insured. The dwelling on the southcast corner of Pine and Sitgreaves streets, occu

pied by Mr. Ruff, and owned by Mr. Joseph Herster. was damaged by fire to the amount of \$125; fully insured. The kitchen and fence of Mr. II. A. Sage, on Sitgreaves street, was slightly dam aged by fice. The fire was undoubtedly the work of an incendiary, as no fire was used about the ouilding.

PHILADELPHIA MARKETS.-FLOUR AND MEAL .- The Flour market, since our last, has been quiet, but, with limited receipts and very moderate stocks, holders have been unable to r alize full prices.
