CHARLES O'CONNOR'S VIEWS. The statutes which gave to this body of men its yast powers were procured from Legislatures in which their chief sat as a law maker. It is boasted by some as a proof of his cleverness, indignantly asserted by others as manifesting his wickedness, and conceded by all that these statutes were mainly procured by bribing our State Legislators with moneys rifled from the public Treasury. The precise cost of a vote in the horrible shambles where they were thus purchased is almost as well known as the prices current of merchandise. One Senator's vote was of course as valuable as the votes of four Assemblymen. He has now, however had the decency to withdraw his candidacy. as it was fitting that a wholesale thief should do. Mr. O'Connor's letter has had a great effect among the better portion of the Yew York Democrats, and there is good reason to be lieve that the domination of the Tammany Ring in New York politics is near its end. At any rate the leading Democrats are deserting Tweed and his associates, and this is a mos encouraging feature of the present movement against Tammany. Horatio Seymour ha aken the Assembly nomination which Mr. O'Connor was obliged to decline, and this is a significant fact. He will be elected, and he will give his influence in favor of honest legis lation and against Tammany corruption.

THE NINETEENTH SENATORIAL DISTRICT.

We learn from a correspondent that the return judge in the Mineteenth Senatorial district, who refused to sign Mr. Weakley's certificate of election, has been kidnapped, and is now secreted in parts where it will be impossible to find him to sign the necessary papers declaring that Weakley has a majority of the votes cast for Senator at the late election. John Emminger is the judge who is now secreted, H. G. Skiles having signed Mr. Weaklev's certificate.

It is scarcely necessary for us to say that the moving cause for this secreting of Emminger, is one of foul corruption and outrage. In the case of the Fourth district, the Speaker of the Senate factiously refuses to issue his warrant of election, the object being to prevent the people, a Republican majority, from electing Senator to fill the vacancy created by the death of the late Benator Connell-and in the Nineteenth district, a Democratic return judge s spirited away to prevent his signing Mr. Weakley's certificate of election. Both acts are revolutionary, impelled by a deliberate purpose to defy and defeat the will of a ma-

In view of these facts, unless the Democracy retrace their steps and comply with the spirit of the Constitution and the letter of the law, it would be entirely justifiable for the Republicans of the Senate to prevent the presence of a quorum of that body until the Democracy are brought to their senses, and consent to do what is right.

Hoffman of New York has concluded to "go It alone," and he has appointed the 23d. As the President has appointed the National Thanksgiving on the 30th the happy New Yorkers will stand a chance of having two 1850. Thanksgiving Days. In view of the blows which the Tammany Ring has lately received the people of New York ought to have a whole Hoffman had an eye to that fact in his appointment.

THE Luzerne County Republicans are really in carnest in their advocacy of William W. Ketchum's claims for our next gubernatorial record of Luzerne county as a reason why the next Governor of Pennsylvania should come from Luzerne, and they point with equal con-Adence to the record of Mr. Ketchum as de cerving the highest honors of the party of which he is a conspicuous member. THE AUTHORITY FOR A CONSTI-

TUTIONAL CONVENTION, The question has been raised whether the regislature has authority to call a convention of revision even after the sauction of a popul inggiven by the constitutions of the Comomvealth. Most State constitutions of recent adoption contain clauses providing for the asemblage of conventions for the purpose of a general revision under certain specified circum-

stances. The constitution of Pennsylvania contain no such provision, though it gives express authority for the adoption of separate amendments upon the approval of two successive Legislatures and ratification by popular vote. constitution or revise the old.

There is, however, the strongest precedent as well as the sanction of reason and of the Declaration of Independence, for conceding to to the delivery of the decision in the hoose, regardless of constitutions, which are deliberate and solemn manner.

Judge John A. Jamison, of Chicago, an able | adjourned term. turist and legal writer, says upon this head: 'That whenever a constitution needs revision convention is indispensably necessary; and if there is contained in the constitution no provision for such a body, the calling of one s in my judgment directly within the scope of the ordinary legislative power, and that power the usurpation has been so often committed, with the general acquiescence, that it is now too late to question it as such. It must be laid down as among the established prerogatives of our General Assemblies that the constitution being silent, whenever they deem vise the fundamental law."

Twenty-five State conventions have been called within the history of this country without any express constitutional authority They were as follows: Those of Georgia, January 4, 1789, May 4, 1789, and 1838; South Carolina, 1790; New Hampshire, 1791; New York, 1801, 1812, and 1846; Connecticut, Which carried the name of Tammanec.
