## HALES VEGETABLE SICILIA VALUES OF THE VEGETABLE SICILIAN HAIR RENEWER

Eve , yea increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY or FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes. the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HAIR DRESSING ever used, nomical HARE DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the Best Prepa-

RATION for its intended purposes."

Sald by all Druggists, and Dealers in Medicines.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by the present of the course of the cou all Druggists. Price Fifty Cents.

serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of hie restored to its healthy activity. Internal organs which become clogged and singagish are cleansed by Apper's Pills, and stimulated into action. Thus inciplent disease is changed into health, the value of which change, when reckoned on the va-t multitudes with endoyit, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unlampaired for any length of time, so that they are ever fresh, and perfectly reliable.
