and baldness often, though not always.

cured by its use. Nothing can restore the hair where the follicles are de-

stroyed, or the glands atrophied and

decayed; but such as remain can be saved by this application, and stimu-

lated into activity, so that a new-growth of hair is produced. Instead

of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the

scalp arrests and prevents the forma-tion of dandruff, which is often so un-

cleanly and offensive. Free from those

deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING,

nothing else can be found so desirable.

Containing neither oil nor dye, it does not soil white cambric, and yet lasts

which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original gloss and freshness of youth. Thin hair is thickened, falling hair checked,

For Diseases of the Threat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitts, Asthma, and Consumption.

more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, the Chemut Pectorach will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publically known, so remarkable as hardly to be believed, were they not proven beyond dispute As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves ununumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, it neglected. Tenvinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Chenay Pettoral, is invaluable; for, by its timely use, multi-tude-ware rescued from premature graves, and saved to the love and affection centred on them. It acts specifity and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitts, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently relief upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected. PREPARED BY
