

The Lehigh Register

ROBT. IRELAND, Jr., Editor ALLENTOWN, PA., FEB. 14, 1872.

\$80,000. For the past few weeks the Auditors of the County of Lehigh have been engaged in examining the accounts of the County.

THE TRIBUNE blames the administration because the British Lord got his back up over the Alabama claims. We judge from this that, if we are unfortunate enough to have war, the Tribune will take the same position that it

THE MINERS' JOURNAL opposes the repeal of the mining laws. It says that the miners will be made to work in their own veins, and that the State will be benefited by the increase of the tax on the mineral.

THE MERCHANTS OF ENGLAND and the utter uncertainty of the existing peace between that country and the United States, are the cause of the Free Traders attempting to place in dependence upon that country for manufactured articles.

NEW YORK STATE has a man who still uses the old three cent postage stamps. It appears to be a strange fancy indeed, but it is stranger still how he manages to procure them, as they have been out of date so long and it is not usual for a man to buy such stamps at

THE CUSTOM HOUSE investigation at New York still drags its slow length along, but those persons who expected to find the Grand inquisitor convicted of gross corruption, do not get much comfort. The evidence clearly shows that there has been a good deal of wickedness and rottenness in the New York custom house management, but there has probably been no time within the last twenty years when an equally thorough investigation would have revealed so much of the present condition of affairs.

DEATH OF SENATOR EVANS. Henry S. Evans, Esq., editor of the West Chester Village Record, and one of the sitting members of the State Senate, died in 1870 to represent Delaware, Chester, and Mont

EDUCATIONAL. In the State Senate, on Tuesday, Mr. Davis (Democrat), of Berks, introduced a bill for the purpose of regulating the schools of the Commonwealth, reference to which was made in our issue of yesterday.

LINCOLN'S BIRTH-DAY. The men of to-day may not recognize the importance of celebrating the anniversary of the immortal Lincoln, but in years to come the 12th of February will be looked upon as an occasion as much to be celebrated as Washington's birthday. Washington was the father of our country, but it is very doubtful if any other than Lincoln would have showed the fine ability, the rare common sense, the moderation, sound judgment and noble character that carried our country successfully through the war of the Rebellion.

THE TRIBUNE says the Prince of Wales is covered in the attendance of four Doctors of Medicine— which shows that the Tribune doesn't believe much in the usefulness of gentlemen of that profession.

THE PACIFIC RAILROAD blockade has grown formidable, and sickness prevails on the trains. Vice President Adams has declined to enter the Presidential canvass.

THE PITTSBURGH Commercial has been publishing powerful articles against the apparent desire of the Legislature to tax corporations to death. It says that the running expenses of the government are very heavy, and that the railroads, after all, make the people who use their roads foot the bills.

CONGRESSIONAL. MONDAY, Feb. 5.—On the expiration of the morning hour in the United States Senate the morning bill, as usual, came up as unfinished business before the Grand Jury, and upon this evidence of fraud \$11 is held to bail for trial and prosecution on civil suits to recover the stolen money.

THE CAUSE AND CURE OF CONSUMPTION. The cause of consumption is a disease of the lungs, and is caused by a germ which enters the system through the air. The cure is to be found in a system of treatment which will destroy the germ and strengthen the system.
