gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair consequently prevent baldness. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It cladlenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early mol usperceive lattack of Pulmonary Affections, which are easily met at thest, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it.
