SHAM DEMOCRACY.

The delegates elected by the Democracy Lehigh county to represent them in County Convention seem to have been, as a general thing, totally unfit to perform the work which devolved upon them. In some instances we know of men selected who have no reputation for intelligence and were, in the hands of the Ring men, mere puppets, to vote just the way the strings were pulled.

Especially did they appear to be ignorant o the grave importance of the Constitutional on, which is to alter and amend the Constitution of the State in such a manner as will promote or impede the industrial interests of the State, and will reform or continue those abuses which are a crying shame in our State legislation. The Convention had it in its power to select a delegate to that Convention who, by reason of his being Reporter of the Supreme Court for many years, and from his extensive study of the subject, knows the de fects in our State Constitution and understands the needs of the people. He is a gentleman who has some sense of honor, is of incorrup tible integrity and could not be bought to serve the purposes of the vultures who will hover over that Convention. We refer to Hon. Robert E. Wright. He was defeated and the Convention selected - EDWARD

In the Legislature the Democracy have had a Representative, in the person of Adam Woolever, Esq., who had the reputation of being one of the most honest members of that body. He has been tried and found true to the interests of his constituents, yet this model body of delegates refused to keep him there It is true the v selected two gentlemen. Messrs. Steckel and Hausman, who stand high in the community, but when they had a Represen tative they knew they could trust it would have been the part of wisdom to have kep him there. Before the election occurs Mr. Ruhe ought to give the public a statement, in one column of which should be given the fees allowed by law in the cases which have passed through his hands and in an adjoining column should be given the fees actually charged and received. After the footing up of these column the people could see what he received and what he had a right to charge, and then they could judge for themselves whether he is the right man for the position.

found an office which they threw out to conciliate the Liberals, and J. Winslow Wood, a lawyer, was nominated for Auditor. Who ever heard of a lawyer running for County Auditor? Perhaps it would be beneath the dignity of a Democratic lawyer, but this nom ination shows that all the "brains and de cency of the Republican party," which the Liberals are accredited with taking over to the Democracy, are worth exactly sixty dollars a year. We had a good opinion of Mr. Wood when he was a Republican. We looked upon him as a gentleman of refinement, ability and praise for executing successfully one of the education, and connected him with some such position as State Senator or Congressman, either of which positions we knew he would man, in whom every civilized nation has an fill with credit to himself and with honor to absorbing interest. The feeling of aff ction his constituents, but the Democracy rate him entertained for the great Scotchman, amounts among their lowest and give this chief Liberal the position of County Auditor. THE Tribune jumps at the conclusion that President Grant has gone back on the promised Civil Service Reform by removing Gen. Banks' brother from the New York Custom House. The Tribune does not wait to ascertain whether there are good reasons for making the change, and we regret to say that such is the changed character of that paper that it would not state them if it knew them. But Mr. Greeley's paper, at best, is not the one to talk about Civil Service Reform. Already its chief has declared, in effect, that he will make appointments to office, not upon the capability of the applicants, but upon satisfact ory evidence of the amount of service they performed an assisting to "raise a roof over his head," as he styles it. This early violation upon that platform, shows how little faith we should place in the pledges of the less brilliant lights who have never bore the reputation for honesty that has covered up the true phases

LIKE the old confederates, the Democrats obbed the cradle and the grave Thursdaynight, to fill up their ranks and to make a show that would help to counteract that overpowering men with gray bairs and boys scarcely out of their swaddling clothes. The transparencles were gloomy and meaningless, and those who carried banners in '64 and '68, with the favor ite inscription "This is a White Man's Government." " The war is a Failure." etc., etc., last night bore the name of "Honest Horace." We noticed an old" White Man's Club" whose members asserted on a transparency that they could not be bought by Brinish gold, evidently hugging the deluding hallucination that they had not sold themselves for something a great deal less substantial. On the platform from which the orators "spouted" we noticed a number of Union prisoners, no doubt cap tured by guerrillas in disguise, and patiently waiting for the armics of Grant to squelch the old enemy and release them from their detested bondage.

IT now appears that the charge of Henry Wilson's Know-Nothingism is based upon that fact that he was at one time a member of the American party. The greater number of members of that party were not members of the Know Nothing order, just as the greater number of those who belonged to the Republican party during the war were not members of the secret order known as the Union Leigue. It is a great compliment to the purity of character and wise statesmanship of Henry Wil-Somebody having seen a contractor taking son that his opponents can find nothing against him in the past eighteen years and are compelled to trump up the false charge that he was a Know-Nothing in 1854.
