Instead of fooling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the bair from turning gray or falling off, and consequently prevent baldness. BUCKALEW'S FRIENDS IN CAN-

The October election is to decide whether the State government, as an entirety, is to re-main in the hands of Republicans or be sur-rendered into the keeping of the Democratic party. It is to indicate something more than a preference for one set of candidates before any other set, because in such a contest mere personal considerations sink into comparative unsignificance. The candidates fairly repre-sent the principles of the parties whose stand ands they bear. The Democratic candidate for Governor exactly typifics the spirit of the D mocracy, which sympathised with rebellion and omitte I nothing during the war that could embarass the Federal and State government. Publicly and privately, Mr. Buckalew went through that period in our history protesting against every important war measure. His Democracy was the Democracy of James Buchanan and Jeremiah S. Black, and it has not changed. He still believes that the subjection of the south by force was unconstitutional. He holds to the ultra State-rights doctrines which made rebellion possible. His highest idea of patriotism is strict subservience to party behest. His devotion to party is so profound that he cannot be better than mbarass the Federal and State government.

THE ISSUE IN THE STATE.

und that he cannot be better than party. He has occasionally shown symptoms of impulses above the Democratic grade, but these symptoms have been it imply repressed. Under most favorable circumstances he car not be expected to favor any improvement of the policy which had become chronic with his party prior to its national downfall, and continues chronic with his party where it has

cal sway.
The creation of the debt of this Common The creation of the debt of this Commonwealth was mainly the work of the Democratic party. The reduction of that debt has been the work of the Republican party. When the Republicans took the helm the debt was about forly millions. Had the war for national lite not been forced upon the country by the Democratic party, the debt would have been reductively and the second that the se

derive purry, the debt would have been reduced every nearly one-half, so that not more than twenty millions would remain to be paid to day. The policy of paying debts is, in a public sense, peculiarly Republican. The policy of contracting debts is as peculiarly Democratical Charles of parents. ic. Thus, in an era of profound peace, the national debt rose from about thirty millions in 1857 to about sixty-five millions in 1860. That is to say, under the financial policy of the administration of James Bu-chanan the debt of the nation rather more than doubled. In the eyes of Mr. Buckaley Mr. Buchanan was the embodiment of Dem ocratic statesmanship. If permitted to con-trol State finances, he would probably take up Democratic policy where Mr. Buchanan left it. He is an imitator, not an originator. He can only wo k after Democratic models The prople know whether they have had enough of that sort of financial management or not. If they have not had enough of it or not. If they have not had enough they should vote for Mr. Buckalew. they have had enough, or too much, of it, they will vote for General Hartran fo. And if the people favor the employment of legislative appropriations to further the political ambition of any man, they should by all cal ambition of any man, they should by all uneans vote for Mr. Buckalew. If he did not bargain for the support of a faction of the Republican party in his management of the Menual Control of the Me

They seem to be blind or ignorant of the fact that organization is neces pronounced untrue by the Legislative investigating Committee. We give the testimony of R. D. P. The whole brood of charges came direct from Evans and are not supported by a single particle of the stimony.

Pettsville, Sept. 7.—This morning, in the Criminal Court of Schuylkill county, in the trial of Joseph Brown, a boy eighteen years of age, for the murder, in Petruary last, in Washington township, this county, of Daniel S. The trial commenced on Tuesday of last week, and has continued ten days, during which time voluminous evilence of a circumstantial character has been adduced and wasof that the jury required but little time in making up their mind, having been out of the box but fifty minutes.

During the entire trial the prisoner maintained the utimest indifference, and appeared to be totally oblivious to what was going on because when a warded by the Treasury the contents and contents of the court of the box but fifty minutes.

NOT GUILTY.

It is not our custom to speak of men or neasures in ambiguous phrase. Thus from Buckalew has publicly admitted that he conferred with the Rebet Agents in Canada. That he went to Canada as a Committee from the United S ates Senat. That Jerry Black was authorized to confer with them by special permission of our Government, and he informed Buckalew that he might talk to them. This unblemished repute for upright dealing, both as a citizen and as an efficer of the common-wealth. We have such over and over again, that General Hartmott is a more whom the s Buckalew's own version of his interview is buckatew's own version of the interview with these traitors. He admits that he had no authority except from Jerry Black, Buconan's Actorney General, who gave, as his opinion, that he, Buchanan, posess d no powpeople may safely trust, and one who in they may well delight to honor. We chain to com-prehend the meaning of plain Anglo Saxon er to coerce the Rebel States. The question anthrolly arises, why did Bu-kalew, without direct permission, desire to have an interview refront coeffect the Rebel States. The question naturally arises, why did Bu-kalow, without direct primission, desire to have an interview with these traitors? That is the question No loyal man would seek such an interview Ho says it took place in presence of his wife. Just the person of all others that would not expose any treasonable conversation that might take place.

The following testimony taken during the trial of the assassins of Abraham Lincoln, which we find in the Hasrlsburgh Telegraph, shows the character of the persons with whom

shows the character of the persons with who indorsement of the public and private character of a man negative commendation. It may be pardoned for urging this view of that out-ter because of late it has taken to advocating men for place who have very bad reputations for honor and honesty. The enormity of Buckalews treason can only be measured by the atrocious designs of the rebels he skulked to Canada to see and consult, and it would seem that their crimes are grosser and more fiendish the more light we get upon them.
