THOSE who are not party bound can find a more acceptable candidate for Congress than James S. Biery, Esq. Although not a member of any Temperance organization, he is temperate and correct in all his habits. His reputation stands high in this county and, it elected, will do honor to the Sixth District. His character is a bright contrast to that of

SEND IN THE RETURNS. We hope our friends throughout the county will use every endeavor to send us the returns as soon after the election as possible. We want, particularly, the vote for Governor and Auditor General, Congressman and Congressmen-at-Large.

## POLL EVERY VOTE.

We urge upon our friends to get out every Republican vote next week. If we do this the Democratic majority will be cut down very considerably. It may not give us any advantage in the county now, but it will re sult to our advantage in the future. The smallness of the Democratic majority will depend entirely upon how well we get out our vote. We have at least 5,500 Republicans who ought to vote our ticket next week. If we get all of these to the polls, the Democratic majority will not be over one thousand. Is account with me was of a perfectly private not this worth working for ?

Hor this working for ? Horace GREELEY said, at Allentown, that \$476,000 is more than a *thousand men* can carn by years of honest labor. Divide the sum by one thousand and it will give \$476 to sum by one thousand and it will give \$476 to each man, an amount, Greeley says, it 'will take years of honest labor for a man to carn. Greeley might consider \$160 or \$119 a year good wages for men to support families upon under such an administration as he would give us, but under Grant our laboring men get more than that. We mention this assertion of Greeley merely as a sample of the wild and irresponsible statements he makes. Surely, no man of judgment can say he is a fit candidate for President.

HON. EPHRAIM L. ACKER is out in a circu lar addressed to the Democratic voters of Lehigh county. Unfortunately for our M. C., he wrote the circular himself and its language does not, therefore, bear the impress of that intelligence and ability which we naturally connect with a Member of Congress. One point he overlooked-that is, the Tariff question. He refers to the purity of his record. Well, it may be pure, but that is not enough. Ephraim was not depended upon as a Protective Tariff man in the last Congress and there fore cannot receive the suffrages of sensible people in Lehigh county. He has told us he s not a Free Frader. Men of this class are liable to split hairs on this question. According to this definition of the term, perhaps he is not a Free Trader, but as we understand it he is. Acker favors a Tariff, to be sure-a Tariff for Revenue, and we all know that a Tariff which will yield the greatest revenue will be one which will be so adjusted as to increase importations. He is now and always has been opposed to that system of Protection, which he has falsely asserted, robs the Southern planters and the Western agriculturists, to put money in the pockets of the monopolists of the Middle and Eastern States. We prefer Mr Biery, who stands upon the Tariff question as did Henry Clay-advocating Protection as a National policy-one that will build up manufactures, encourage agriculture. giving plenty of work and good pay to labor.

In confirmation of this I subjoin the follow ing certificates of officers of banks, where my signature is lodged, and other persons who are well acquarted with it: We, the undersigned, tamibar for a number of years with the signature of Cuarles T. Yerkes, Jr., have duly examined the photographic copy of an alldavit purporting to be used by him before. Hartrantt's account was kept under the title of J. F. Hartranft, there was no mystery about never benefitted by the transfer of State funds, as the Press has also charged. Here we have for National interference and National protecthe certificate of Yerkes, and the letter of the originated by Paine, and spread before the public by Forney. We have in addition the certificate signed by prominent bankers and brokers disproving the genuineness of the sig. nature to what is known as the Yerkes affidavit. Can the people any longer doubt that Forney is the rogue and that he is now in an

underhand manner working to defeat Grant ? We think this effectually disproves all the slanders against Hartranft, which have had their foundation upon this forged affidavitand false statements of Yerkes' book accounts. But we have one more word to say. There appears to be a wide-spread impression that Yerkes was convicted for using State funds. This is not so. The charged was based upon the use of Philadelphia city funds and violating a law that applies to Philadelphia alone. His recommendation for purdon was signed by the jurymen who convicted him, by the Judges who passed sentence upon him, and

by a long list of some of the most promi nent men in Philadelphia. LOOK OUT for frauds. A party that can forge an affidavit to make capital against an opponent, is capable of doing anything that is ing men and enriching the whole country. vilo-and mean.
