ANNUALS FOR WINTER FLOWERING. There are some annuals that are used for winterflowering and answer admirably for the bouquet maker. Of these, of course the Mignonette	There are some annuals that are used for winter flowering and answer admirably for the bouquet maker.	1
1 Matter its all arms	Of the sea	
but fragrant character.	stands prominent. Not for its showy.	

the width of the front table, usually three feet or so-and say one foot wide by nine inches deep. These should be provided with holes in the bottom for drainage, partially filled with coarse material for the same purpose, then the balance filled to within an inch or two of the top with good ordinary soil. Sow the seed thinly; the end of this month is a good time for the first batch. Keep partially shaded and moist until the plants are well up, then thin out the young plants to three inches asunder. Keep them out of the reen-house as long as possible and when put in, see that they are pretty close to the

They may also be grown nicely in four-inch pots-allowing not over three many do not like but one plant in a pot. The object should be to

keep them stocky.
The Large, or Giant, Mignonette is the best for the purpose, as it keeps a respectable size very much longer than the old kind, while it is every whit as sweet.

Either keep the flowers cut, or, If they are not all wanted, see that the plants do not grow seed, as by so doing they flower much less freely. It is never worth while to save seed at the expense of flower during the winter months, as it is so easy to raise all the seed required in the gar-

Sweet Alyssum, is another valuable plant for winter, and may be treated either as an annual or pereni.el. This flower, although small, ermes in capitally for edging around the bouquet and may be easily had the year round, and is quite fragrant. This may also be sown now if the gorden contains no plants-but if it does all that will be required will be to lift as many plants as desired just before frost sets in.

White Candytuft, is also easily obtained for winter; is very showy, and where many cutflowers are wanted should not be neglected. It may be treated same as Mignonette, and if kept from seeding will flower a considerable length of time.

For a large quantity of these three plants, just turn a portion of a front table to their use by making it into a box nine inches deep and planting into it as in the open ground. They would all come off in time to fill up with bedding plants in the spring. The Prairie Farmer.

tumn is here; the landscape wears the sere and yellow hues, blended with red and green, the more brilliant for the contrast. But for the sighing winds and the chill that is in the air, and the drifts of leaves that are swept across the view, one might take October for the gayest month of the twelve. And it is gay. Why should the falling of the leaf inspire sad thoughts? All things grow old as do garments, and like them they -are changed with the season, or in their appointed time. If we change with them it should be as the buds mature on the trees, to burstinto leaf in the spring, or as the fruits and seeds ripen for the Master's use, or as the bulbs wrap up the vital germ which will rise into a new and beautiful life when the spring time comes. This is the season of abundance, when men and beast prepare for the coming winter. The days are growing shorter, and long evenings invite to reading, study, and meditation. The experiences of the summer, the results of the harvest, the memorandums and recollections of what was seen at the fairs, furnish topics of conversation and induce visiting among farmers. Fruits and nuts and sweet cider may well add to the sociability. Such visits will, we hope, in many instances ripen into farmers' clubs, with their reading rooms or circulating libraries, and meetings for discussion, for exchange of seeds. and for the exhibition of products of the soil, or of skillful hands.

One of the most important things for farmers to think about and planfor this month is good winter schools. Do not say by your actions or unconerra, brother farmers, that "Half an education is good enough for farmers' ch ldren," or that "Larnin' spiles a farmer," as the winter was once told. strike for a first rate public school, as the very foundation of local prosperity, and as the greatest security against lawlessness and vice; in most neighborhoods, an extra expense of \$25 to \$40 each on the principal families will secure rooms and teachers for the public school; that will afford advantages to all the children, which are usually obtained by only two or three children who are packed off to an "academy" at an expense of a hundred or more dollars each. Make the public school equal to gan academy. This matter will bear talking, thinking and figuring about .- American Agriculturist. WORK IN THE HORTICULTURAL DE-

PARTMENTS .- The leaves have done their work! All summer long they have taken the sunlight and given off nothing but green, but now that their work is accomplished, they and the sun are having a gala time of it, and they throw his light back in crimson and gold The fruit, too. which has heretofore been green, now splashes itself with carmine, and turns its ruddy cheek to the sun. The Great Artist puts the last touches to the fruit in the beautiful waxen bloom that betokens perfection. The harvest of the orchard and the great harvest of the forest are this month. gathered. The ripe leaves lighten the scene with their transient glow, and dutifully fall to the earth to give up what they received. Did you ever look at the place from which a leaf has fallen? Just there is a bud! all ready for next spring's work. Is not there a lesson here, when even an inanimate leaf, as we are accustomed to feall it, thus early makes provision for another year? We might dwell upon this point, but as old Boerhaave says: "I have said enough for those who take me, and for those who do not, nothing would be enough."

----CLOVER GONE CRAZY.-A lady in Pittsfield. Mass., sends us a set of clover laleaves having respectively from four to nine divisions The "nine-leaved" clover is almost like a green flower.

HOOFLAND'S GERMAN BITTERS. HOOFLAND'S GERMAN TONIC PREPARED BY DR. C. M. JACKSON, PHILADELPHIA, PA.

The greatest known remedies for Liver Complaint, DYSPEPSIA, Nervous Debility JAUNDICE,

Disease. ^ the Kidneys, ERUPTIONS of the SKIN. and all Diseases arising from a Dis-ordered Liver, Stomach, or IMPURITY OF THE BLOOD.

Read the following symptoms, and if you find that your system is affected by any of them, you may rest assured that disease has commenced its atlact on the most important organs of your body, and unless soon checked by the use of powerful remedies, a miserable life soon terminating in death, will be the result.

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood. Goofland's German Bitters is entirely vegetable, and contains no it guor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

hoofland's German Conic is a combination of all the ingredients of the Bilters, with rown Santa Gruz Rum, Orange, etc. It is used for the same diseases as the Bilters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasand and agreeable remedies ever affered to the public. Its taste is exquisile. It is a pleasure to take it, while it it frequiring, exhibitatating, and medicinal qualities here council it to be known as the greatest of all tonics. October.—Somber yet happy Au-

CONSUMPTION. Thousands of cases, when the patient supposed he was afflicted with this terrible disease, have been cured by the use of these remedies. Extreme emaciation, debility, and cough are the usual attendants upon severe cases of dyspepsia or disease of the digestive organs. Even in cases of genuine Consumption, these remedies will be found of the greatest benefit, strengthening and invigorating.

DEBILITY. There is no medicine equal to Hord units German Bivers or Tonic in cases of Debility. They impart a tone and vicer to the whole system, shoughest the opposite cases an expanent of the Lord, enable the semach to diget it, purify the block give a good, sand, healthy complexion, evadicate the yellow tinge from the eye, impart a bloom to the checks, and change ive patient from a short-breathed, enactated, weak, and covers invalid to a full-bived story and vice-

and mercous invalid, to a full-faced, stout, and vigor Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female,

or a man of ninety. These Remedies are the best Blood Puriflers ever known, and will cure all diseases resulting from bad blood.

kep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will THE COMPLEXION. Ladies who wish a fair skin and good complexion, free from a yellowish tinge and all other disfigurement, should use these remedies occasionally. The Liver in perfect order, and the blood pure, will result in sparking eyes and blooming cheeks.

CAUYXON. Hooftand's German Remedies are counterfeited. The genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others

Thousands of letters have been received, testifying to the virtue of these

READ THE RECOMMENDATIONS. FROM HON. GEO. W. WOODWARD. Chief Justice of the Supreme Court of Pennsylvania PHILADELPHIA, MARCH 16th, 1867. PHILADELPHIA, MARCH 1010, 1001.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

GEO. W. WOODWARD. FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania. JLADELPHIA, APRIL 28th, 1866. I consider "Hoofland's German Bitters" a wiluable medicine in case of artacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,

JAMES THOMPSON. From REV. JOSEPH H. KENNARD, D.D., Pastor of the Tenth Baptist Church, Philadelphia.

Pastor of the Tonta Dapus Courter, a Property re-DR. JACESON—DEAR SIR:—I have been frequently re-IR. JACKSON—DEAR SIR: —I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my aton family, of the usefulness of Dr. Hoofland's German Bilters, idepart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD.

Price of the Bitters, \$1.00 per bottle: Or, a half dozen for \$5.00. Price of the Tonic, \$1.50 per bottle; Or, a half dozen for \$7.50. The Tonic is put up in quart bottles. Recollect that it is Dr. Honfland's German Remedies that are so universally used and so highly recommendat; and do not allow the Druggist to induce you to take any thing else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

EQUALLY GOOD FOR FINE OR HEAVY

The attention of the public is now earnestly invited to the latest production in the line of Sewing Machines, which from that fact alone ought to be the best, and with the most unaffected sincerity it is asserted that this production is unexcelled by any machine ever pre-sented to the public. In it are combined sim-plicity of invention, thoroughness of construc-tion, convenience for using, superiority of exceution and neatness of arrangements.

The No. 2 or rotary feed machine, is noequaled for manufacturing, or heavy family sewing, passing over uneven surfaces without change of speed or stitch and operating on any The No. 1 or Drop Feed Machine is particularly adapted to delicate family work yet it will execute heavy and deflicalt sewing without strain or damage to any of its mechanism. Both machines has a straight short needle. make the tight lock stitch, leave an imitable selfadjusting tension, find will stitch, nem, fell, build, cord, braid, raffle, tuck, quilt and ing a greater variety of work than any one
