

Agricultural Items. FRIDAY DECEMBER 18.

HINTS FOR THE MONTH.

Form work has been delayed by bad weather, and in many localities is desirable on the approach of winter. Of course, the farmer's efforts towards securing his autumn harvest will be continued with vigor until the end is attained.

Stocks.—All classes of stock should be kept thriving. Often as much as can be gained therefrom, with liberal feed, in four months. No fitting animal should stand still, and no store stock fall away; all should be made comfortable by shelter, and racks provided in the yards to save food.

Variety of food for animals.—Many suppose that this means to make a complete change every little while, but according to my experience such changes are altogether wrong in the sudden way some make them.

Housekeeper's Department.—Lemons For Fevers.—Says that walking eczema of the hand, Dr. Hall's "When persons are febrile and thirsty beyond what is natural, incited in some cases by a metallic taste in the mouth, especially after drinking water, or by a whitish appearance of the greater part of the surface of the tongue, one of the best "coolers," internal or external, is to take a lemon, cut off the top, sprinkle over it some loaf sugar, working it downward into the lemon, and then suck it slowly, squeezing the lemon and adding more sugar as the acidity increases from being brought up from a lower point.

Principal Office, at the German Medicine Store, No. 61 Arch Street, Philadelphia. O. H. M. Evans, Proprietor.

MILK FEVER IN COWS.—This disorder, which it is feared is on the increase in our dairies is ascribed to various causes. It is sometimes produced by external injury. It is often ascribed to colds contracted by exposure to the winds and storms of our climate.

HOOFLAND'S COLUMN.—INTRODUCED INTO AMERICA FROM GERMANY, in 1835.

HOOFLAND'S GERMAN BITTERS, and HOOFLAND'S GERMAN TONIC, PREPARED BY DR. J. M. HOOFLAND, PHILADELPHIA, PA.
