

**Important to Tailors!**  
**PATENT ELASTIC SQUARE**

**Self-varying Square Rule,**

For measuring and drafting coats, in connection with another new and useful rule for cutting sale or boy's coats upon a more familiar plan; also, superior rules for cutting all other garments incumbent on that branch, are now offered to the trade by the subscribers; believing them to surpass every thing of the kind which has preceded them.

**SELF-VARYING RULE.**

Great imperfections in the art and liability to produce a miss-fit have been standing before the cutter ever since the introduction of rules, filling the mind with fear and anxiety, until the coat is finished and tried on, at which crisis the blood is often caused to rush into the face at beholding a bad fitting coat.

The rules, with one or two exceptions, which have been in use ever since the first invention of the kind, were wholly predicated upon principles giving the same proportion for every man, which principles would long since have been superseded by self-varying rules, had tailors but thought that the variation in the proportions of men's bodies are almost as many as in the feature of the face.

Two or three rules styled *Self-varying*, have made their appearance within about as many years, each inventor claiming the honor of having perfected the art, upon which J. G. Wilson, of New York, entitled his system perfect; but instead of being perfect, it contains many erroneous principles, which the subscribers forbear to point out until that gentleman assails this assertion. All such systems have heretofore been defective in two ways: First, they are only in part self-varying. Secondly, those parts which are intended to be self-varying are defective. In fact, there are certain points on the coat which cannot be effected by self-varying principles in any other way, nor by any other means, than those laid down by the subscribers.

Unlike any other of the kind, this system now offered to the trade is conducted without any breast measure, and effects every point and every part of the coat by self-varying principles, in a way calculated to convict the senses of any reasonable man, that should it ever fail to produce a good fit upon any shape whatever, the charge must be laid to a careless and incorrect measurement. It may seem mysterious that this rule is said to be self-varying, and yet a square rule—a square rule and yet conducted without a breast measure; but the whole mystery will be unfolded at once by examination. Unwilling to have it said that the subscribers are attempting to palm this system upon the trade with misrepresentations, they avow their willingness to submit it into the hands of an impartial committee for an examination of its principles, in comparison with any other ever invented in the United States, at Philadelphia or New York, which committee shall make the decision known through the press. The subscribers set all systems which are governed wholly by the breast measure aside as inferior and not worthy to compare with; consequently they will compare with none but such as are governed in part by self-varying principles. For if the principles here offered to the trade are not worthy of patronage it is right that it should be made known, and they sink into oblivion. On the contrary, if they are found as above represented, or if thereby the subscribers have put an end to all further improvements in the art of cutting coats they deserve some patronage and compensation for their exertions.

Terms—if forwarded to order \$1, if personally taught \$12.

**CONSUMPTION.**

**READER,** if you have a cough or cold beware of their consequences. Colds generally produce imperceptibly, and insidiously themselves throughout the human system, finally settling upon the lungs, and ending in consumption.

**A WORD TO PARENTS.**  
How often is youth cut down when least expected by the consumption, and followed to their graves by parents who are in a measure the cause of their premature death, in neglecting to remedy colds when existing in childhood, looking upon them as trifling affections, and not attracting their notice until the destroyer has commenced its work and made sure of its victim. This is not a fanciful representation, for daily numerous instances occur which prove the fact.

In manhood colds terminate in the same way, but do not progress so rapidly as in youth; they should, however, in both youth and manhood, be early attended to, and not regarded as trifling affections, for it is a delusive idea that has shortened the lives of thousands.

**Dr. BECHTER'S PULMONARY PRESERVATIVE,**  
(Price Fifty cents per Bottle.)  
Is an invaluable preparation, discovered by a regular and celebrated German physician, who has employed it upwards of fifty years in his own practice in Germany, throughout which country it has been during that time most extensively and successfully employed in Coughs, Colds, Catarrhs, Asthma, Whooping Coughs, Spitting of Blood, Pain of the Breast and Sides, all affections of the Breast and Lungs, and arrest of approaching Consumption.

Much may be said in praise of the above medicine, but newspaper advertising being too expensive, every satisfactory evidence will be found in all its effects upon trial, as well as numerous recommendations accompanying the directions. Upwards of 7000 bottles were sold in Philadelphia alone during the last winter, a convincing proof of its efficacy or so large a quantity would never have been sold. Prepared and sold Wholesale and Retail at Dr. Leidy's Health Emporium, 2d street, below Vine, No. 191.

**ALSO, SOLD BY D. S. TOBIAS, Agent.**  
Bloomsburg, May 26, 1838.

**PREMONITARY HINTS, AND IMPORTANT INFORMATION.**

**READER,** did you ever see a confirmed Dyspeptic, and learn his sufferings? If not, suffice it to say, he is a pale, thin and ghastly looking object, his life apparently hanging by a thread; he is miserable and unhappy, his sufferings insupportable.

Are you much troubled with flatulency, costiveness, sour eructations, arising from your stomach, occasional want of appetite, waterbrash, a bad taste in your mouth, or foul breath, pain or a heaviness at your stomach, sickness after eating, headache, disgust at your once favorite food, &c. If you are much troubled with any of the foregoing symptoms, bring before you the picture of the Dyspeptic, and having resolved to remedy the consequences, immediately procure

**Dr. Leidy's Tonic & Anti-Dyspeptic Cordial**  
A never failing and efficacious remedy for  
**DYSPEPSIA OR INDIGESTION,**

And the whole train of affections resulting from diseases of the Liver, Stomach and Intestines.  
The above medicine is warranted free from mercury or other mineral preparations; it is composed entirely of vegetables, safe and easy to take, being very pleasant to the taste. It may be safely administered to young and old, requiring but moderate restrictions in diet only.

Numerous testimonials have been from time to time published; its reputation is so well known, further comment upon its virtues is unnecessary, suffice it to say, IT HAS NEVER FAILED IN A SINGLE INSTANCE. Further recommendations accompany the directions around each bottle.  
Price One Dollar per bottle.  
Prepared and sold Wholesale and Retail at Dr. Leidy's Health Emporium, 2d street, below Vine, No. 191.
