CONSUMPTION.

READER, if you have a cough or cold beware of their consequences of their consequences. Colds generally pro-imperceptibly, and insinuate thenselves throughout the human system, finally settling upon the lungs, and ending in consumption.

A WORD TO PARENTS.

How often is youth cut down when least expectod by the consumption, and followed to their graves by parents who are in a measure the cause of their premature de ah, in neglecting to remedy colds when a dating in childhood, looking upon them as trifling affactions, and not attracting their notice until the destroyer has commenced its work and made sure of its victim. This is not a fanciful representation. for daily numerous instances occur which prove the fact.

In manhood colds terminate in the same way, but do not progress so rapidly as in youth; they should, however, in both youth and manhood, be early at tenden to, and not regarded as trifling affections. for it is a delusive idea that has shortened the lives of thousands.
