

CONSUMPTION.
READER, if you have a cough or cold, beware of their consequences. Colds generally produce influenza, and influenza, in turn, produces consumption, leading upon them as trifling affections, and not attracting their notice until the destroyer has commenced its work and made sure of its victim. This is not a fanciful representation, for daily numerous instances occur which prove the fact.

How often is youth cut down when least expected by the consumption, and followed to their graves by parents who are in a measure the cause of their premature death, in neglecting to remedy colds when existing in childhood, looking upon them as trifling affections, and not attracting their notice until the destroyer has commenced its work and made sure of its victim. This is not a fanciful representation, for daily numerous instances occur which prove the fact.

A WORD TO PARENTS.

The first number of the Democratic Review having been published in October, 1836, in advance of the regular monthly issue commencing in January, 1838, it becomes necessary to interrupt one month's publication, so as to bring the usual series of twelve numbers within the present year. Advantage will be taken of this delay to complete in the next, or September, number the "History of the last session of Congress," executed in the same manner as the "History of the Extra session," which gave such general satisfaction in the January and February numbers of the Democratic Review.
