

On the 25th ult., the friends of D. and R. Porter, celebrated, in Huntington county, where he resides, his triumphant election. The most soul-stirring enthusiasm distinguished the whole proceedings. The Advocate says:

"Early on the morning of the 25th the democracy of the county, the neighbors of General Porter—those 'who know him'—were seen rushing in from every quarter; each company bearing aloft its respective banner—some badge of triumph—some testimonial of honest worth. And, ere noon, our town was more effectually jammed than we had ever before seen it—than, we believe, it had ever been on any occasion."

The Municipality of New Orleans have now under consideration an ordinance to prevent the introduction of free persons of color into that city. We infer from an article in the Bee, that the ordinance, which will be very strict in its provisions, will become a law.

We may form some idea of the population of Texas by the fact, that five thousand persons voted at the late election.

Thos. McCarty, a child aged 3, was burned to death on Sunday night at Sing Sing, its cloths catching fire.

The Jail of Alexandria, La., was broken through Oct. 4, and all the prisoners except one, comprising two negroes and five whites, escaped.

A young man who had been totally blind for several years, was recently restored to sight by a Professor Dudley, of Kentucky. The disease was cataract, and he was able to leave Lexington on his return homeward, six days after the operation was performed.

Several attempts have recently been made by incendiaries to fire the city of Nashville. The attempts were made on stables, but fortunately the fire was discovered sufficiently early to prevent serious damage.

Major Noah says:—"The grumblers at Cincinnati against the Steamboat Law positively declare they will not use chain tiller ropes, though it is known the burning of the hempen has lost the lives of hundreds."

An old lady, residing at Jersey City, was burnt to death on Wednesday last, by her clothes becoming ignited while kindling a fire. There was no assistance to extinguish the blaze, and her death took place almost immediately.

The last Laporte (La.) Whig says that wheat is now selling at 87 cents per bushel in that county, and that the farmers have 300,000 bushels to dispose of; also a surplus of 100,000 bushels of potatoes, and full as many oats.

The south eastern of Florida is said to be admirably adapted to the cultivation of coffee, which will probably become one of the staple products of that territory.

Four argivals at New Bedford on Friday from the Pacific Ocean have brought upwards of 9,500 barrels of sperm oil, valued at about two hundred and ninety thousand dollars.

The Governor of Ohio has ordered a new election on the 15th of November, for a member of Congress, to supply the vacancy occasioned by the resignation of Mr. Killgore.

Dr. Wright, in a letter from Lima in Texas, states that an intercepted letter of General Filisola, offers the whole country of Texas to the Indian Tribes as an inducement to plunder and murder.

It is computed that before the Fair of the New York American Institute closes, its receipts will exceed \$15,000. Nearly half that amount came in last week.

A late Gretna Green affair in Clarke county, Ia. terminated very seriously. A Mr. Daniel West swore to an alleged fact in regard to the young lady who was to be married, whereupon her guardian made oath that West was guilty of perjury. An officer of the law then pursued and attempted to take West; and one of W.'s friends, who interposed to prevent his arrest, was shot dead by the officer upon the spot.

There is no such a thing as a carriage road in the Turkish empire.

An iron Steamboat was making very short trips between London and Antwerp at the last dates.

The health of Wisconsin has been good through the whole season. The vegetation has not suffered in the least degree from heat or drought, and the crops of wheat, corn and all esculent vegetables have been abundant.

At Newbern, N. C. there is a gang of villains who nightly plunder the merchants' stores.

Michigan Produce.—The schrs. Favorite, Dolphun and Whig cleared from this port within the last four days, with over 12,000 bushels of wheat and several hundred barrels of flour, all the product of Michigan, and bound for eastern market. This is but the business of four days; our forwarding merchants are daily shipping flour by steamboats. It is a low estimate to say that 10,000 barrels of flour and 50,000 bushels of wheat will be shipped from this place this fall. This will materially affect the credit of Michigan, and help very much to facilitate exchanges.

Dogs of St. Bernard's.—Mr. Harrington has exhibited at the Fair two of the most lion-like dogs that we have ever seen.

They are of the breed called St. Bernard's—of powerful frames—resembling the monarchs of the forest in appearance, more than they do our ordinary mastiffs of common bull dogs. The elder, or parent dog, was imported hither from Mount St. Bernard, one of the ridges of the Alps, where there is a convent, and where in the winter the traveller is often buried in the mountain avalanche of snow, rushing suddenly down upon him, and where he is found by the large St. Bernard's dogs, hunting in pairs, and, if possible, extricated from his perilous condition. If however, the traveller is buried so deeply in snow that life is suspended, one of these faithful dogs applies his lambent tongue to his pulse and face, and licks them perseveringly to restore animation, while the other dog rushes back to the convent, alarms the monks by his loud barking, and leads them to the scene of danger, where the unhappy traveller was left in charge of his faithful canine physician.

The elder dog, weighs 175 pounds, and is a most noble animal—mild, meek, and tractable, yet powerful and fierce when unjustly provoked. The younger one is his puppy—15 months old—almost as tall, though not so heavy as the other—but is about twice the size of an ordinary mastiff. Such a pair of animals are worth possessing, and in country places must be invaluable. These dogs will be sold at the termination of the fair, if a suitable price can be obtained.—N. Y. Trans.

ANOTHER REVOLUTION.

The Southern Express Mail brings us slips. The New Orleans Bulletin of the 25th ult. says:

From two passengers on board of the brig Louise Adelaide, which arrived yesterday from Tampico, we learn that in the night of the 6th October, General Montenegro, at the head of the garrison at that place declared in favor of the federal constitution of 1824.

This event was effected without the effusion of blood and immediately afterwards General Don Jose Didas Piedras, a colonel of infantry, a captain of engineers, a captain of artillery, and a lieutenant were placed on board of the Louise Adelaide to be carried to this city; but at the earnest request of these officers, they were landed at Matanzas on the 12th. The brig sailed from Tampico on the 8th, at which time that place was in a state of perfect tranquility. No insult had been offered to the French at Tampico, during the commotions which had taken place.

The two passengers from whom we obtained these details, have come from the interior of the country, having travelled from the city of Mexico and Tampico, and though Frenchmen, they have experienced no rudeness whatever from the inhabitants. Although the French in Mexico are in continual dread, and are constantly armed, yet up to the 8th inst., the Mexican populace had broken into no excess against them.

By this arrival we have received information of the news of the arrest of Gomez Farias, and others.

We are also informed by persons arrived by the Louise Adelaide, that no French vessel of war had been seen off Tampico during the last six weeks.

Synod of New Jersey.—We understand that the Synod of New Jersey at its late meeting in Morristown, by a vote of 100 to 50 adopted a preamble and resolution, recognizing the General assembly of which Dr. Plummer was moderator, as the true General Assembly of the Presbyterian Church. The Newark Presbytery was not exactly cut off, but a resolution adopted making its standing depend on its choice of commissioners to the General Assembly. [Newark Eagle.]

The Mulberry Mania, or the fever for speculating in the *Morus Multicaulis* appears to be increasing all over the country. We hear of the intention of many to enter into this cultivation, induced we fear by the large profits that have been derived from the sale of slips; would it not be more prudent to confine their arrangements and calculations, to the feeding of the worms, and production of silk. The Bucks county (Pa.) Intelligencer, says that one hundred pounds of the foliage of the mulberry upon which the worms are fed, will make one pound of silk—and fourteen thousand cuttings of the Chinese mulberry will grow upon an acre of land, yielding at the second year's growth, two pounds altogether, which will give two hundred and eighty pounds of silk, which, at \$1 per pound, will amount to \$1,120, and deducting \$300 for labor, will leave a net profit of \$820 upon one acre of land.—Providence morning Courier.

The editor of the Morristown Jerseyman has been presented with an Onion, weighing three pounds, and measuring 18 1/2 inches in circumference. He has hung it up in his office, which from this time forth, must become, we should think, a grand laboratory of tears.

The Antislavery National Convention is to be held in Philadelphia on Monday next to nominate a candidate to be supported by them for the presidency.

Eight blast furnaces are in operation in Poughkeepsie; at which it is estimated 8000 tons of iron will be manufactured within the year.

A woman named M'Laughlin, imprisoned in New Orleans for an attempt on the life of her husband, threw herself, or fell, from the balcony of the prison, on the 15th inst., and died shortly after.

A large body of Cherokees recently passed through Nashville on their way west.

The Right Hon. the Countess of Westmoreland, and suite, and the Hon. Miss A. B. Chamberlain, were passengers by the packet ship President, Capt. Chadwick, arrived at New York, from London.

It is expected the Hempstead Branch railroad, L. I. will be completed before winter.

PROSPECTUS OF THE KEYSTONE.

THE democratic party of Pennsylvania has just passed through a fiery conflict, and come out not only unscathed, but completely victorious—another proof of the purity and stability of their principles. Notwithstanding their triumph, they cannot for any length of time, repose in the lap of victory, for their foes are most insidious and ever watchful, and although routed, will again rally under some new name, to oppose the principles of democracy, equity to which, being the only bond that can ever for a moment, hold them together.—We must therefore remember, that the price of freedom is unceasing vigilance.

In spite of the *ranked corruption*, and of frauds innumerable, we have elected a democratic Governor, and a majority in the house of representatives, sufficiently large, to give us the control in joint ballot, and secure to Pennsylvania a democratic representative in the United States Senate.

The fraudulent elections, which will probably be contested; the unheard of malpractices on the public works, which require a searching examination; the adoption by the people of the amendments to our state constitution, which will require important legislative enactments, to meet the changes thus made in the fundamental law—together with the concurrent action of the senate with the Governor, in many of his important appointments, will all render the coming session of the legislature perhaps the most important ever held in Pennsylvania, and cause their proceedings to be unusually interesting to every man in the community.

The editors of the Keystone, intend to give increased attention to the proceedings of this session, and note every movement of interest to the public. They will have competent reporters in both houses of our legislature, as well as at Washington city, thus enabling them to give as full reports of all important legislative proceedings as their columns will admit.

The Keystone is the largest paper published in Harrisburg, and being printed on small type, regularly gives in its columns nearly six times more reading matter than any other political paper in the state. This we have been enabled to do from the very great encouragement we have received from a generous public. Thankful for these favors, the editors hereafter will spare no pains or expense to render their paper interesting and valuable to the public, and serviceable to the great and triumphant cause of Democracy and Freedom.

TERMS.

For the Keystone yearly, twice a week during the session of the Legislature, and once a week for the remainder of the year, \$3 00

During the session of the Legislature only, twice a week, \$2 00

For six months, not including any part of the session of the Legislature, \$1 00

TO CLUBS OR COMPANIES.—Six papers sent in one packet and to one direction, for the price of five as above; or fifteen papers sent as above for the price of 20.

All Postmasters, and other democratic citizens, are requested to receive and forward subscriptions to us, PACKER, BARRETT & PARKE, Harrisburg, October 25, 1838.
