

**PROSPECTUS**  
For a weekly newspaper to be published at Columbus, Luzerne county, Pa., under the name of the **LUZERNE & COLUMBIA REPORTER.**

To satisfy a very natural enquiry in the mind of those who may be about to become the patrons of a new establishment of the kind here contemplated viz: What are to be the political features of this paper?—we unhesitatingly answer, the most purely democratic; the principles of Thomas Jefferson, will be recognized by the Editor, as the platform on which the political principles of the REPORTER will be based. The prominent measures of the administration of General Jackson, will find a ready defence in the columns of our paper, and present National Administration, will find in our columns as ready an advocacy.

Though we shall at all times aim at a temperate course, yet we shall never shrink from an unequivocal and fearless expression of our views upon the great topics which may at any time agitate our country.

Our Reports will be of the size of our largest country papers. The first number will be issued as soon as a sufficient number of subscribers shall be obtained to warrant the undertaking. To facilitate this object, every person holding a subscription paper is requested to make return to RUFUS BALCON, at Columbus, Luzerne co., by the 25th of October, 1838.

**TERMS OF THE REPORTER.**

TWO DOLLARS per annum, payable semi-annually on the delivery of the first paper, and if not paid within the year, invariably, Two Dollars and Fifty Cents will be charged. Subscribers will please designate the Post-Office or place to which their papers shall be forwarded.

The thousands who use and recommend them, is proof positive of their extraordinary and beneficial effects.

**TO THE PUBLIC.**

THROUGH a lingering and irremediable disease, my health at length became so impaired, that I became unable to attend to all the requirements of my official duties.— By persuasion of my numerous friends, I consented at last to keep an apothecary, thinking it would be the most becoming, easiest for me to engage in at the present time; and since (or while) I have established a shop, I would humbly solicit the support of my friends and the public in general, on account of my great sickness. And especially, would I request the merchants of this place, to give me all possible change of selling those articles belonging to my line of business, for which they may receive my sincere thanks. A few articles only which are to be found in my Health Emporium are advertised. There will be kept a constant supply of such articles as may be called for; but in each chance, a call should be made for such as I am not in possession of immediate preparation will be made in order to obtain them.

**The Victory Won.**

AFTER long, tedious, and expensive experiment, Dr. Leidy has discovered a method whereby the virtue of the Sarsaparilla is extracted, so as to be formed into Pills without destroying its efficacy.

Innumerable attempts have been made to accomplish this important object, but all failed. It is important, because the Sarsaparilla, as a medicine, in all diseases to which mankind is subject is productive of more real good, than the whole catalogue of medicine in use.

Ask all respectable physicians the question.— "What is the most effectual purifier of the blood, and the most popular medicine used?" they will answer unanimously, Sarsaparilla. What better recommendation can be asked!

**DR. LEIDY'S**

**SARSAPARILLA OR BLOOD PILLS.**

Price, Twenty-five Cents a Box.

They must surely command a preference, for they are not composed of Sarsaparilla alone, but contain, in a concentrated state, in the form of a pill, the virtues of the principal ingredients contained in the compound fluid, extracts, syrups, and other preparations of Sarsaparilla.

They are highly recommended by numerous physicians, and others, (see directions around each bottle) in

Rheumatic Affections, Scrofula Erysipelas, Jaundice, Heartburn, Diseases of the Liver, skin, bones and glands. Pain of the sides, along the back and spine over the region of the heart and stomach. Inward fevers, bad taste in the mouth, foul breath, Flatulency, Indigestion, Sour eructations and acidities of the stomach. Want of appetite. Ulcerous sores of the nose throat and body. Scaly Eruptions and blotches of the skin. Dry and watery pimples and pustules of the face and body. Tetter and ringworms. Swellings and hardening of the glands of the neck, in the groins, breast, &c. Stomach Coughs, Liver complaint, Waterbrash.

and all the whole train of diseases resulting from impurity of the blood, constitutional diseases produced by Mercury, or other minerals, or the consequence of Syphilis, Lues Venereal, &c. For convenience of taking, as well as making but small bulk, being in flat square boxes, convenient for carrying in the pocket or for travelling purposes, they must be preferable to all other preparations of Sarsaparilla.

**PROSPECTUS OF THE KEYSTONE.**

THE democratic party of Pennsylvania has just passed through a fiery conflict, and come out not only unscathed, but completely victorious—another proof of the purity and stability of their principles. Notwithstanding their triumph, they cannot for any length of time, repose in the lap of victory, for their foes are most insidious, and ever watchful, and although routed, will again rally under some new name, to oppose the principles of democracy, unity to which, being the only bond that can even for a moment, hold them together.— We must therefore remember, that the price of freedom is unceasing vigilance.

In spite of the rampant corruption, and frauds innumerable, we have elected a democratic Governor, and a majority in the house of representatives, sufficiently large, to give us the control in joint ballot, and seem to Pennsylvania a democratic representative in the United States Senate.

The fraudulent elections, which will probably be contested; the unwholesome malpractices on the public works, which require a searching examination; the adoption by the people of the amendments to our state constitution, which will require important legislative enactments, to meet the changes thus made in the fundamental law—taken together with the concurrent action of the senate with the Governor, in many of his important appointments, will all render the coming session of the legislature perhaps the most important ever held in Pennsylvania, and cause their proceedings to be unusually interesting to every man in the community.

The editors of the Keystone, intend to give increased attention to the proceedings of this session, and note every movement of interest to the public. They will have competent reporters in both houses of our legislature, as well as at Washington city, thus enabling them to give as full reports of all important legislative proceedings as their columns will admit.

The Keystone is the largest paper published in Harrisburg, and being printed on small type, regularly gives in its columns nearly one volume more reading matter than any other political paper in the state. This we have been enabled to do from the very great encouragement we have received from a generous public. Thankful for these favors, the editors hereafter will spare no pains or expense to render their paper interesting and valuable to the public, and serviceable to the great and triumphant cause of Democracy and Freedom.

**TERMS.**

For the Keystone yearly, twice a week during the session of the Legislature, and once a week for the remainder of the year, \$3 00

During the session of the Legislature only, twice a week, \$2 00

For six months, not including any part of the session of the Legislature, \$1 00

TO CLUBS OR COMPANIES.—Six papers sent in one packet and to one direction, for the price of five as above; or fifteen papers sent as above for the price of 12; or 24 papers sent as above for the price of 23.

All Postmasters, and other democratic citizens, are requested to receive and forward subscriptions to us, PACKER, BARRETT & PARKE, Harrisburg, October 23, 1838.

**PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.**

THOSE works have been published by us for six years. There are now more subscribers for them than for any other paper published in the United States; certainly more than for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full nor so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speeches of the members condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The Appendix contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

For one copy of the Congressional Globe, \$1 For one copy of the Appendix, \$1 Six copies of either of the above works sent for \$5, twelve copies for \$10, and a proportionate number of copies for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of country where the subscriber resides will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

No attention will be paid to any order, unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires. BLAIR & KIVES, Washington City, Oct. 24, 1838.

**CONSUMPTION.**

READER, if you have a cough or cold which of their consequences. Colds generally produce imperceptibly, and insidiously themselves throughout the human system, finally settling upon the lungs and ending in consumption.

**A WORD TO PARENTS.**

How often is youth cut down when least expected by the consumption, and followed to their graves by parents who are in a measure the cause of their premature death, in neglecting to remedy colds when existing in childhood, looking upon them as trifling affections, and not attracting their notice until the destroyer has commenced its work and snatched of its victim. This is not a fanciful representation, for daily numerous instances occur which prove the fact.

In manhood colds terminate in the same way, but do not progress so rapidly as in youth; they should, however, in both youth and manhood, be early attended to, and not regarded as trifling affections, for it is a delusive idea that has shortened the lives of thousands.

**Dr. BECHTER'S PULMONARY PRESERVATIVE.**

[Price, Fifty cents per Bottle.]

Is an invaluable preparation, discovered by a regular and celebrated German physician, who has resided upwards of fifty years in his own practice in Germany, throughout which country it has been during that time most extensively and successfully employed in Coughs, Colds, Catarrhs, Asthma, Whooping Coughs, Spitting of Blood, Pain of the Breast and Sides, all affections of the Breast and Lungs, and arrest of approaching Consumption.

Much may be said in praise of the above medicine, but newspaper advertising being too expensive, every satisfactory evidence will be found in all its effects upon trial, as well as numerous recommendations accompanying the directions. Upwards of 7000 bottles were sold in Philadelphia alone during the last winter, a convincing proof of its efficacy or so large a quantity would never have been sold. **MEDICATED SARSAPARILLA.**

BEING a concentrated fluid extract of Sarsaparilla, combined with other vegetable extracts, which renders it as a medicine of great utility in the cure of all diseases arising from the impurities of the blood from indigestions, and imprudences in life, and constitutional diseases formed or produced by the injudicious use of mercury, arsenic, bark, or quinine. In short, it is an invaluable remedy for all

Rheumatic Affections, General Debility, Ulcerous Sores, White Swellings, Diseases of the Liver and Skin, Ulcerated sore throat, Ulcers of the Nose, Curious of the diseases of the Bones, Scrofula or King's Evil, Erysipelas or St. Anthony's Fire, and all troublesome and dangerous affections consequent to Syphilis, Lues Venereal, &c.

So effectual has this medicine been in the cure of various diseases for which it is recommended, that it is far surpassing all other preparations of Sarsaparilla, Panama &c.

It is now employed by numerous physicians and has been introduced by them into many hospitals, infirmaries, &c. throughout the United States.

It is a preparation of greater strength (consequently of greater efficacy) than any other extract now made, is also much cheaper, being but one dollar per bottle; which is sufficient to make one gallon of Syrup of Sarsaparilla, and is bought by different druggists for that purpose.
