

The Reception of the President in New York.—The President of the United States arrived at New York on the 2d inst. He was received at Castle Garden by the authorities of the city, the military, and an immense throng of citizens, amid the tremendous roar of cannon from the Forts in the harbor. After reviewing the troops, a procession was formed by the military and citizens, and passed up Broadway, and through several streets to the City Hall. In speaking of the reception, the N. Y. New Era says, that,

"President Van Buren was received, yesterday by the people of the greatest city of the new world, upon his political principles and character alone with a degree of attachment and devotion, as evinced by the countless numbers that expressed it, at least equal to that which was displayed towards his truly illustrious predecessor. It was a proud day for the Republicans of New York, and as honorable to them as the faithful Chief Magistrate whom it so emphatically honored."

On the 4th, the President attended at the Chatham street Chapel the delivery of an oration by W. R. Maclay, and afterwards was present at a Sunday School celebration on Staten Island, where from 15 to 18000 Sabbath School children had assembled to celebrate their nation's birth day, accompanied by nearly 60000 citizens. This must have been a very interesting spectacle.

The Keystone says "that the course pursued by the opposition members of the late legislature added thousands of dollars to the expenses of the state, and now their papers are charging this additional expense upon the democratic party! This is a shallow device to make votes. Every man in the community knows that if the opposition had acted in conformity to the laws and the constitution, there would have been no necessity for an extra session nor of the investigations which arose from the violation by them of all law and precedent.—Drowning men catch at straws."

JUDGE COLLINS OUSTED.

The Supreme Court on Saturday last, entered a judgement ousting and removing Judge Collins from office. A able opinion was delivered by Judge Kennedy, in which he set forth the ground of removal—and on the same principles Judge Darlington would have been removed from office also, had he not died before the case was determined.

It is understood that Judges Gibson, Rogers, Kennedy, and Sergeant assented to the opinion of the court, and that Judge Huston dissented.—Keystone.

Exploration.—Silas E. Burrowes, Esq. an active and enterprising merchant of New York, has created quite a sensation by fitting out an exploring expedition, and successfully re-discovering in person the Aurora Groupe of Islands, that had been expunged from the charts. The New York Star, says, "He must be made an Admiral."

Electricity.—In Lehigh county a Miss Heilths, was struck down by lightning, and strange to relate, a child in her arms at the time, was uninjured by the fluid.

Army Worm.—The army worm is doing great damage among the crops in the West. Whole fields of oats are destroyed in one night.

Horses are now shod with indian rubber in England. It is said to be far preferable in every respect to iron.

Panama Canal.—The Republic of Granada, has empowered a company, to make a canal, rail road or macadamised road over the Isthmus of Panama. This was the work that the late Charles Biddle had in view.

Emigration.—It is stated by Toronto papers that a great deal of emigration is taking place from Upper Canada, to the United States. This is a natural result from the tyranny of the British Government.

Military.—An important case is about to be tried in Philadelphia, involving the rights and privileges of militia men on training days. It is a prosecution for assault and battery against a Captain of a Company for striking one of his men with his sword for disobedience on the day of training. Eminent Counsel are employed on both sides.

Advantages of Advertising.—A man in Philadelphia advertised for a situation, and in less than two days had no less than one hundred and seven notes left for him.

An act has passed the Legislature authorizing the people of Philadelphia to elect their Mayor.

On Wednesday of last week, the Mayor of Philadelphia gave his opinion in the case of Jacob Kidgway, Daniel Mann, and Stephen Simpson, binding each of them over to appear at the next court of criminal sessions on a charge of conspiracy to defraud the community. The two former were held to bail in the sum of \$5000 each and the latter in the sum of 1000. We hear that Messrs. Ridgway and Mann, are reputed to be two of the wealthiest men in Philadelphia.

JUDGE COLLIN'S CASE.

We understand that the Supreme Court have pronounced judgement of ouster on the quo warranto issued out of that court on the relation of the Attorney General against Oristus Collins, Esq. who was exercising the functions of President Judge of the Common Pleas of Lancaster county, under one of the bargain and sale appointments of Governor Ritner. Divesting this case of all legal phraseology it amounts to this, that the resignation of his old commission by Judge Collins after the adoption of the amendments to the Constitution and the acceptance of a new commission before the first of January when those amendments went into operation, was in fraud of the Constitution and therefore illegal. This is a most righteous decision and is another rebuke of the high handed and unconstitutional measures of that party which is always prating about the supremacy of the laws.

This result of his Honor's grasping love of office reminds us of the fable of the dog, who, having a piece of meat in his mouth, was crossing a creek, the clear surface of which reflected a perfect representation of his prize. Not content with what he had, the greedy hound relaxed his jaws to snatch at the delusive temptation—when, lo! the meat and the shadow vanished and were lost forever.—Jefferson Dem.

THE PRESIDENT.

The opposition appear to be in a quandary about who among their great men shall have the honor of contending for the Presidential chair, against Mr. Van Buren, the Democratic candidate. The Anti-masons, or, what is left of them, and the modern Abolitionists go for Gen. Harrison, inasmuch as he is considered the most likely among those named, to carry out their measures. The Whigs, as they term themselves, go almost in a body for Henry Clay; these two seem to constitute the prominent opposition candidates. Messrs. Webster, Scott, &c. are spoken of, but we think not seriously. To the democracy of the Union, it matters little who the opposing candidate may be, as there cannot be a doubt of Mr. Van Buren's re-election for another term; but for the honor of the country, it is desirable that the opposing candidate may be such an one as may have respectable pretensions to such an office! As to the fitness of Gen. Harrison to preside over the destinies of this republic, we presume none will attempt to claim that he possesses the requisites. That he would make just such a President as such a man as Thaddeus Stevens would like to have, we do not doubt. But a true to this.

All we ask is that our opponents may furnish a candidate who can lay claim to some ability, in order that our victory may be entitled to some merit.

Norristown Democrat.

The Easton Sentinel says that, "the anti-masonic prints are complaining loudly that the democratic members of the legislature refused to vote for giving the election of Canal Commissioners to the people. How circumstances alter cases. During the last three years, not a word was said, by the party then in power, about giving the election to the people. It was all right that Governor Ritner should appoint Canal Commissioners, but as soon as he and his friends are out of office, then it is all wrong that their political opponents should have the same privilege; and even our intelligent neighbor of the Whig has made the discovery. The proposition to have the Canal Commissioners elected by the people, was introduced in the Senate by Fraley, a federal member from the city of Philadelphia.—This is truly a great source for a proposition to popularize the government, to come. The city of Philadelphia gave some five thousand majority against the new constitution, which proposed to take patronage from the governor, and now before the people have tried it, an effort is made to give them that which never was asked or petitioned for. Some years ago, a law was passed providing for the election of canal Commissioners, by a joint vote of both branches of the legislature. This was done one year, but it was found not to work well, and the next year it was repealed.

Keokuck murdered by young Black Hawk.

The Chicago Democrat says: "During the absence of a nephew of young Black Hawk, Keokuck got his wife drunk and passed the night with her. Being thus detected, it fell to Black Hawk, as the nearest relative, to avenge his nephew's injury, which he took the earliest opportunity to do, and stabbed Keokuck, at the entrance of his nephew's wigwam.—Keokuck, it will be remembered, was at ways the friend of the whites and opposed the celebrated Black Hawk of Sac war and was promoted chief through the instrumentality of the United States Government. He was about 50 years of age and at the time of his death was this side of the Des Moines river, about 125 miles, (four days journey, the Indians have it) west of the Mississippi. Young Black Hawk is now chief of the Sacs and at last news, was at the head of 2000 warriors marching from the Sioux country."

SEVEN REASONS WHY

DR. LEIDY'S

SARSAPARILLA BLOOD PILLS,

SHOULD receive a preference over all Pills now in existence:

First—Because they are composed of Vegetable extracts, free from minerals; and may be taken at all times with perfect safety by young and old, without restraint from occupation, temperate living, or fear of taking cold.

Second—Because they are composed of such medicinal extracts, as have been employed by all the most celebrated and respectable Physicians for more than a century past, in purifying the Blood and Animal fluid of the body.

Third—Because they may be employed as a mild or active purgative, according to the quantity taken, and their operation will not be attended with griping of the bowels, sickness at the stomach, prostration of the system, &c., as are produced by other pills.

Fourth—Because they possess a combined action, not possessed by any other pills, mixture or preparation whatever. Their first effect is in correcting all impurities with which the blood and fluids of the body may be affected, and by their gently operative effect, removing such impurities from the system.

Fifth—Because they are the terror of Quacks and impostors, for most persons are obliged to take the Sarsaparilla Blood Pills, after taking their vile and destructive nostrums, to counteract and prevent their mischievous and baneful effects.

Sixth—Because they are the only pills in which Physicians have sufficient confidence to recommend to their patients, and employ in their practice, as they know they are Anti Quack, Anti Mercurial, Anti Bilious as well as a good and safe purgative and purifier of the Blood and Animal Fluids.

Seventh and last—But not the least important, because they are prepared by a regular Apothecary and Physician, attested by Drs. Physic, Horner, Chapman, Dewees, James, Gibson, Jackson, Cox, Hare, &c., which alone is sufficient to entitle them to great confidence.

Certificates and Recommendations from Physicians and others accompany the directions around each box.

"The life of the flesh is in the blood," so saith the scriptures.—Leviticus c. xvii. v. ii.

DR. LEIDY'S BLOOD PILLS.—What better than scripture testimony can we have of the life of the flesh depending upon the condition of the blood? If impure or diseased, the flesh must of course be diseased thereby, and the whole system partake of such disease. If the doctrine be true, and there is not a doubt of it (for it is a fact acceded to by all, that the scriptures, are true beyond a doubt,) then it behooves us to guard against the consequences of such impurities, and thus preserve the flesh healthy. If the flesh be healthy, constituting as it does the principal portion of the human body, then must the whole body be healthy.

In vegetables only can we find the medicine whereby all impurities of the blood may be removed.—Upwards of one hundred years experience of the most celebrated, the wisest and best physicians have proved certain vegetables to possess purifying properties. These vegetables will not here be named, and Dr. Leidy wishes to remunerate himself, and profit by the long, laborious, and costly experiments necessary to be made, that the active principles of those vegetables might be extracted and reduced to such form as makes them easy, safe and pleasant to be taken.

These vegetables are contained in the justly celebrated Blood Pills, manufactured only by Dr. N. Leidy, a regular Druggist and Physician, attested by Drs. Physic, Chapman, Jackson, Horner, Gibson, Dewees, James, Hare, Cox, &c.

The above Pills may be employed as a mild or active purgative. Their action is easy, and may be employed by all persons under all circumstances.—They will at all times be found serviceable, when the least sickness is present. They require no change of diet, restraint from occupation, or fear of taking cold from their use. They are daily prescribed by numerous physicians certificates of the fact accompany the directions. They are the most effective purifier of the blood and other fluids of the human body ever discovered. Persons having once used, will ever after, as occasion may acquire, have recourse to them.

COMMUNICATION.—How few they are that happen to be afflicted with Coughs or Colds pay attention to them. How many thousands from such neglect shorten their days, and hasten their final dissolution. Parents neglect them in their children, and thus form the foundation for Consumption, and hundreds of parents annually follow their own children to the grave, having died from some affections of the Breast and Lungs, which were neglected in their first stages.

Coughs and Colds, whether existing among young or old, ought at all times be attended to early, and not suffered to continue any length of time, for the Lungs once affected, disease soon makes rapid strides, ending in the most fatal of all diseases, namely Consumption.

DR. BECHTER'S PULMONARY PRESERVATIVE for Coughs, Colds, Catarrhs, Influenzas, Shortness of Breath, Whooping Cough, Pain in the Breast or Side, all affections of the Breast and Lungs, and arrest of approaching Consumption, is the most popular medicine used throughout all Germany—is becoming equally popular in the United States, and has established for itself a reputation not possessed by any other medicine for the same class of diseases. (See certificates and recommendations from Parents, Physicians, and others, accompanying the directions.) It is a preparation perfectly safe and harmless, pleasant to the taste, and may be given to the youngest infant. It is warranted free from mercury and the minerals, and is a preparation of a regular Apothecary and Physician, attested by Drs. Physic, Chapman, Gibson, Jackson, Horner, Dewees, Cox, James, &c. a circumstance alone sufficient to induce a trial of it.

DR. N. B. LEIDY, Proprietor of the above medicine, confidently recommends it to all, and assures all most positively that it is an invaluable medicine, and would not himself recommend it, but for its known efficacy.
