Democratic COTINEY MERIPING.

In compliance with the request of a number of Democratic citizean, the DEMOCRATIC STANDING Constituen of Columbia County, recommend the holding of a

DEMOCRATIC COUNTY MEETING at the house of Daniel Gross, in Bloomsburg, on

Saturday, the 10th of August next, for the purpose of mal log arrangements for the fall election, and to take into consideration the situation of the party, and adopt such measures as shall conduce to its best interest, and that of the County generally.

COUNTY MEETING.

By a notice in our paper of to-day, of the Democratic Standing Committee, it will be seen that a County Meeting is to be held in this town, on the 10th of August. As every democrat should take an interest in the primary arrangements for the fall election. and as subjects of a highly important nature to the weilfare of the party, will probably come before the meeting, we hope to see a general attendance.

Electronic summer restored

"The " Berwick Sentinel" is out against the removal, and in favor of the re-election of Maj. Colt. We think he will find it rather an uphill business to sustain him in the upper section of the county, at least .--The people have too much at stake to elect a man-this fall, who is decidedly hostile to their interest; and besides, a large majority of the democracy of the county are antibank and anti-corporation men, and have no Adea of having a bank, or a stock-jobbing corporation in every nook and corner of the county.

BRIDGE LETTING.

The contracts for building Bridges on the lower division of the North Branch Canal, have finally been awarded as will be perceived by the following from the Danville Intelligencer. The hows, the whys and the whereforce, are best known to the select council. If 107 is more 225; and if no experisnee is better than long experience, then it is perfectly fair and honorable in a public offers to disfranchise a portion of the

FOR THE COLUMBIA DEMOCRAT. THE REMOVAL QUESTION.

The agitation of the removal question, as was to be expected, has created quite a sensation among the Danville interest, and they are at their old tricks again, to " divide," and by that means " conquer." To effect this, their game has heretofore been to bring into the controvercy, some extraneous matter, wholly irrelevant, to prevent a united action, and a fair expression, of the people of the county, upon "this exciting question." And, if I am to judge from the tenor of a communication in a late Berwick Sentinel, the same game is to be played at the approaching trial of strength, with less scrapulousness, if possible, than heretofore. This writer, over the signature of " Episconus." asks " Is this the proper time" for the question to be brought before the people? and then very gravely answers, " It is not." This is such an answer as I should of coerse expect from a man living in Danville, or from one of their "hired scriblers." whose interest it is never to have the onestion agitated at all, much less at the present time, when the minds of the people are so much " excited" 1 pon the subject as they are now. It is not only not the " proper time" now, but the " proper time" never will arrive with them, because they well know that if the question was fairly brought before the people, it would be decided against them by more than three to one in the county. It therefore remains with the friends of the removal to decide when is the " proper time" that this " fithy business," as it is styled by " Episcopus," should be agitated. When done, I can assure the editor of the " Sentinel," and " Episcopus"

too, that it will be neither a "cseLuss," nor a " FILTHY BUSINESS" on the part of the friends of the removal, unless they use the same weapons of misrepresentation and deception, as those used by their opponents. and adopt the same method of hiring tools to advocate their cause.

Of the far-feached simple idiotic story of the writer about the next candidate for Congress, I know nothing and care less. The election of member of Congress has nothing to do with the removal question at this time. and more than that, the Lext candidate coming from Luzerne, we are bound to sustain whoever the democracy of that county shall present to us for our support; and whoever they do regularly present to us, will be unitedly sustained by the party here. If I am right as to the gentleman referred to by "Episcopus," I believe he once did act side by side with bim in the federal ranks, but unlike him, has left the party, not for the sake of office, but in sincerity and truth. He now acts, and has for years, with the democrats, and is now the particular favorite and right hand supporter of the exclusive friends of "Episcopus" in Luzerac, and should he be brought forward as a candidate for Congress, it will be through their aid and countenance. Thus much for " Episcopus'" ears on this head. His assertion that the removal party wish to divide the democrate. is equally unfounded. So for from it, we are anxious to unite the party, by putting this "exciting question," which has always had more or less to do with every election since the organization of the connry, at rest. And there is no other way to lo this, but to effect the removal. This done, and the party is united, and all the arts of the Dunylike interest cannot again disturb its harmovious action. I now cours to the question, " IS THIS FILE PROPER TIME P'-and I affirm. without besimin, that "IT IS." All real friends of the removal, will give the try. Universal pillage is to be allowed, to same answer. Why not ? Are we not now menaced by two protects for divisions of the county, which, if either were effected, would take off a parsion of the county, that will eventually be the richest and most popalous part f And is not the Danville interest aiding and abetting in these schemes ? And are not the surrounding counties alike convulsed to the very centre, with similar projects ?-all of which would be put at rest by the courts of this county being remayed in the Centre. Such are the facts. Theo why should we delay? Why should we put off the trial to a more " convenient seasont" or, until the Danville interest shall say " now is the time?" "The horse will then be siden, and it will not be of any use to lock the stable. The county will then he cut up and destroyed, for much rather would the anti-removal party have this done, than that the courts should be removed from their present location. They care not for the interest of the county, or of the democratic party, any further than the

advancement of their own personal interest. Every act of theirs for years show it, and particularly those within the last few months prove it. They have done all they could to excite angry feelings in the party, and whenever they could give a stab at the removal cause, they hesitated not. They never stopt to enquire, " Is this the proper time ?" and that too, during the past year, in defiance of their sacred pledge that nothing should be done that should in the least have a bearing upon this " exciting question." I say then, "NOW is the time," " now is the day of salvation." The county is threatened with a division that will eventually take place unless a removal is effected. Our limits are already sufficiently contracted and were the Courts removed to the Centre. no county in the State would be more conveniently situated for doing their county business; but as it is, none are more wickedly and basely imposed upon, and none labor under greater inconveniences.

I say then, to the true and real friends of the removal, goahead in the righteous cause of asserting and maintaining your rights. Let none of the far-fetched and conningly devised fables of your opponents divide your ranks, or enfecble your acts-be united and harmonious in your action-and my word for it, you will come off victorious.

SUGARLOAF. PARTY OFFICE AND DOOR

The Register man calls upon the whigs of Sugarioal to disavow the authorship of my communication published in your last, and calls it "calumney" for a whig to be denominated a removal man. No doubt he considers it so when applied to himself; but the whigs generally in this portion of the county, do not think it such a " filthy business." I would advise the certificate men to give us the real name of the Register's correspondent, before they attempt to ascertain mine. If they, or the Register, will do that, I will not put them to the trouble of procuring certificates to prove a negative. A WHIG OF SUGARLOAF.

FIFTY YEARS AGO .- In these degenerate days it is sometimes useful to review the past and compare the present with our former state. A friend has handed us a file of the "New Haven Gazette, and Connecticut Magazine," for the year 1787, published y Joseph Meigs, formerly Professor of Muthematics in Yale College/ which contains a great many curious reminiscences. Among others we observe the following.

"TO BE SOLD,

" A healthy, strong and active Negro Boy, about 11 years of age. Inquire of the Printer."

" TO BE HANGED.

" A likely young Negro about 18 years of age. He is hanged for no fault, but for want of employ, and to preserve him from the greater evil of being sold as a slave for life."
