

D. N. KOWNOVER.
We had hoped that we had done with this individual, and that he would no longer disgrace himself in the eyes of the community by his base truckling and subserviency to the Bank Junto of Danville. But in this we were mistaken. It seems he will not learn wisdom from the past but is determined to sink himself still lower in the estimation of the public, by his sycophancy. We have now to mention an act of his as disgraceful to him as a man, as it is detestable in a public officer. It will be remembered that we published his notice of the letting of the building of the bridges on the North Branch Canal, in June, and at the same time mentioned that we done so without orders. A few days before the county meeting Mr. Kownover called upon us, and said it was his intention to have ordered us to have published the notice and wished us to make out a bill for the same and he would pay it.— We replied that we had no objections to making out a bill and receiving the money; but we would at the same time tell him that we had no charge against him as we had never had any orders from him to publish the advertisement. He admitted that he had not given orders, but that he intended to have done so but neglected it. We received the money and supposed that was an end of the matter. But what was our surprise to see in the Danville Intelligencer, the assertion that—“When Mr. Kownover prepared his advertisement for proposals to make repairs &c. he sent a copy of the same to the Pirate for publication.” The article then goes on to say that we received the advertisement and published it in pursuance of Mr. Kownover and introduces the bill which we gave Mr. K. as proof, intending to convey the idea that they had been authorized by him to make the statement.— Feeling indignant at this pitiful attempt of his and of the Bank Junto, to throw the imposition upon us of having uttered a falsehood, to injure Mr. Kownover, we addressed to him the following note:—

Bloomsburg, Aug. 19, 1839.
Mr. D. N. Kownover,

Sir—In the Danville Intelligencer, of the 16th instant, I find the following:—
“When Mr. Kownover prepared his advertisements for proposals to make repairs, &c. he sent a copy of the same to the Pirate for publication.”

Presuming that the editor refers to me in the above extract, from the fact of his having introduced soon afterwards my bill for publishing the same, which I made out at your request, I ask of you to say, whether you authorized the publication of the above statement, and whether the statement that you sent the advertisement to me for publication be true; and if so, by whom was it sent? And, also, whether I did not at the time you offered to pay me for publishing the advertisement referred to, distinctly declare to you, that I had no charge against you for the same, as I had never received any orders for publishing it. An answer is requested this evening. I shall be at Mr. Henry's hotel, with whom you can leave your answer, or give it me personally.

Yours,
H. WEBB.

To which we received the following reply, and give it as we received it:—

Danville August 21 1839

DEAR SIR In reply to your inquiry in your note of yesterday I would say that I have authorized no publication but such as relate to my duties as supervisor that I did send the advertisement to which you refer to Bloomsburg with the full intention that you should publish it I have no recollection of your making the dictation so pointedly as you say you did when I offered to pay you for your services I do not wish to have any more fuss about such small matters but you maid it your business to be dabbling at me all summer and I think without any cause trying to make the people believe that I wanted to let bloom have no chance I feel willing to give every part of the county a fair chance to have a share of the spoils

Respectfully yours
D. N. KOWNOVER

In this letter he has the meanness to entirely evade answering our main question, and attempt to hide himself behind the excuse that “it was his intention that we should have published the advertisement,” but he has not, nor he dare not name any individual by whom he sent such orders to us. We never denied but that he sent advertisements to Bloomsburg; but we do deny that we were ever authorized by any person to publish it, nor has he in any conversation with us claimed that we had been, and yet he will skulk behind his “intentions” to save his masters and injure us. We have

already extended this article farther than the subject of it is worthy; but a sense of duty to ourselves, has compelled us to say thus much, and we will close by saying, that we have neither said nor done any thing with regard to Mr. Kownover, now nor at any previous time, but in defence of ourselves and our friends, his assertions of “dabbling at him all summer” to the contrary notwithstanding.

BEWARE OF COUNTERFEITERS.

Within a few days past we have seen several Counterfeit Bills of different denominations, 3-5-10, mostly on New York State Banks, which have been set afloat by a gang of desperadoes who have been prowling around this neighborhood. One or more of them have lately been liberated from the New York State prison. The villains had better keep hands off. They are marked.

THE FLORIDA WAR.

Has again broke out with great violence on the part of the Indians. A party of soldiers were lately surprised and mostly massacred. The Indians avow their determination to live free in Florida or die.

Major Noah says: “Such is the extraordinary amount of corn, wheat, &c., in Arkansas, Kentucky, Missouri, and indeed every state of the Union; that it is believed the corn alone, at 25 cents a bushel, would pay off our national debt.

What is the matter now?—We understand that a few days since, Doct. Petriffin was in some of the upper townships denouncing Maj. Colt, calling him a bank man, &c. Is there trouble in the camp?— This looks like it.

The Bank Junto were very busy during court, circulating the falsehood that we wanted a bank in Bloomsburg. This story like numerous others of theirs, is got up for effect, without a word of truth in it.

Falling Tree.—During a Camp Meeting that was held near Baltimore, a few days since, a large tree broke off, while the weather was perfectly calm, and fell to the ground with a tremendous crash. Although crowds of persons attending the camp meeting were standing around at the time, not a soul was injured. Tree falling, without any apparent cause, is not uncommon in the forests of this country.

The Nashville Banner states that the election in that city was conducted with little or no disturbance, “thanks to the leading men of both parties, who set on foot the salutary proposition (which was promptly complied with) of having no liquor shops or other establishments in that line opened during the day.

Elopement.—The Gloucester (Mass.) Telegraph says that the Master of the Workhouse, in that town, who has a wife and two children, has eloped with one of the female inmates of the institution, and made tracks for the South. THE RESURRECTION, OR PERSIAN PILLS.

SUPERIOR TO THE HYGIEN, BRANDENBACH'S, EVAN'S SANATIVE, or any other pills or compound before the public, as certified to by Physicians and others.

Let none condemn them until they have tried them, and then we are certain they will not. It is now a settled point with all who have used the Vegetable Persian Pills that they are pre-eminently the best and most efficacious Family Medicine that has yet been used in America. If every family could become acquainted with their Sovereign power over disease, they would keep them and be prepared with a sure remedy to apply on the first appearance of disease, and then how much distress would be avoided and money saved, as well as the lives of thousands who are hurried out of time by neglecting disease in its first stages, or by not being in possession of a remedy which they can place dependence upon.

The Resurrection, or Persian Pills.

The name of these pills originated from the circumstance of the medicine being found only in the cemeteries of Persia. This vegetable production being of a peculiar kind, led to experiments as to its medicinal qualities and virtues. In half a century it became an established medicine for the diseases of that country. The extract of this singular production was introduced into some parts of Europe in the year 1783, and used by many celebrated Physicians in curing certain diseases, where all other medicine has been used in vain. Early in the year 1792, the extract was combined with a certain vegetable medicine imported from Dura Bacu, in the East Indies, and formed into Pills. The admirable effect of this compound upon the human system, led physicians and families into its general use. Their long established character their universal and healing virtues, the detergent and cleansing qualities of their specific action upon the glandular part of the system, are such as will sustain their reputation and general use in the American Republic.

CERTIFICATES.

I certify that I have, by way of experiment, used the Hygien, and most of the various kinds of Pills, in my practice, which have borne the highest reputation in the public estimation, that have been offered for sale in this vicinity for the last five years, including those called the Resurrection or Persian Pills; and the public may rest assured that none among the whole catalogue has answered a better purpose, as an easy and effectual remedy, than the Resurrection or Persian Pills, in most cases of disease.

TO MOTHERS.

Messrs. E. Chase & Co.—Gents.—Hearing much said about the extraordinary effects of the Resurrection or Persian Pills, upon those about to become mothers, we were induced to make a trial of them. My wife was at that time the mother of five children, and had suffered the most tedious and excruciating pains during and after her confinement of each. She had tried every means and taken much medicine, but found little or no relief. She commenced taking the Persian Pills about three months before her confinement (her health being very poor about this length of time previous) and in a short time she was enabled by their use to attend to the cares of a mother to her family until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous, she was afflicted with a dry hard cough, and frequent severe cramps, which the use of the Pills entirely removed before using half a box. It is with the greatest confidence that we advise all those about to become mothers to make use of the Persian Pills. All those that have taken them in our neighborhood have got along in the same easy manner, and are about the house in a few days. There does not appear to be half the danger of other dangers setting in after confinement, where these Pills are taken.— We unitesly say let none neglect taking them, for they are in the reach of the poor as well as the rich. We are truly thankful that there is a remedy which females can easily procure which tends to lessen the world of suffering, which many of them have to bear, and perhaps save the lives of thousands which would otherwise be lost.

ANN O. ROBERTS.

ROCHESTER, Sept. 24, 1836.

Messrs. E. Chase & Co.

I think it my duty to let you know what a great cure your Pills have performed on me—I had been sick about 7 years—about 2 years and a half confined to my bed. I had been given over as incurable, with Consumption, by twelve physicians of the first standing; my lungs were seriously affected; I had 3 ulcers gather and break; my cough was dry and harsh most of the time; my liver was much swollen, and my stomach very dyspeptic. I had chills, fever, and night sweats, accompanied with extreme irritability of the nervous system, and other difficulties which I forbear to mention. After I was given over, I tried almost all medicines which were advertised, but to no advantage, until I tried your Vegetable Persian Pills. I began to gain in a short time after I commenced taking them; and, to be brief, before I took 3 boxes, I was able to ride out and to take considerable exercise, and at this time I enjoy good health, and am able to do good day's work. If any one wishes a more particular history of my sufferings, he may call on me, at the corner of Main and Clinton-streets, Rochester.
