SEVEN REASONS WHY

DR. LEIDY'S SARSAPARILLA BLOOD PILLS,

HOULD receive a preference over all Pills now

First-Because they are composed of Vegetable extracts, free from minerals; and may be taken at all times with perfect safety by young and old, without restraint from occupation, temperate living, or frer of taking cold.

Second-Because they are composed of such medicinal extracts, as have been employed by all the most celebrated and respectable Physicians for more than a century past, in purifying the Blood and Animal fluid of the body.

Third-Because they may be employed as a mild or setive purgative, according to the quantity taken, and their operation will not be attended with griping of the bowels, sickness at the stomach, prostration of the system, &c., as are produced by

Fourth-Because they possess a combined action, not possessed by any other pills, mixture or preparation whatever. Their first effect is in correcting all impurities with which the blood and fluids of ody may be affected, and by their gently operative effect, removing such impurities from the sys-

Fifth-Because they are the terror of Quacks and Imposters, for most persons are obliged to take the Sarsaparilla Blood Pills, after taking their vile and destructive nostrums, to counteract and prevent their mischievons and baneful effects.

Sixth-Because they are the only pills in which Physicians have sufficient confidence to recommend to their patients, and employ in their practice, as they know they are Anti Quack, Anti Mercural, Anti Billions as well as a good and safe purgative and purifier of the Blood and Animal Fluids.

Seventh and last-But not the least important, be because they are prepared by a regular Apothe-cary and Physician, attested by Drs. Physic, Horner, Chapman, Dewees, James, Gibson, Jackson, Coxe, Hare, &c., &c., which alone is sufficient to

entitle them to great confidence.

COMMUNICATION.—How few they are that happen to be afflicted with Coughs or Colds pay attention to them. How many thousands from such neglect shorten their days, and hasten their fi-nal dissolution. " The life of the flesh is in the blood? so saith the scriptures .- Leviticus c. xvii.

R. LEIDY'S BLOOD PILLS.—What better than scripture testimony can we have of the like of the flesh depending upon the condition of the blood? If impure or discased, the flesh must of course be diseased thereby, and the whole system partake of such disease. If the doctrine be true, and there is not a doubt of it (for it is a fact acceeded to by all that the scriptures we have become ded to by all, that the scriptures, are true beyond a doubt,) then it behooves us to guard against the consequences of such impurities, and thus preserve the flesh healthy. If the flesh be healthy, consti-tuting as it does the principal portion of the human yody, then must the whole body be healthy.

In vegetables only can we find the medicine whereby all impurities of the blood may be removed.— Upwards of one hundred years experience of the most celebrated, the wiscest and best physicians have proved certain vegetables to possess parifying properties. These vegetables will not here be named, and Dr. Leidy wishes to remunecate himself, and profit by the long, laborious, and costly experiments necessary to be made, that the active principles of those vegetables might be retracted and reduced to such form as makes them easy, safe and pleasant to

These vegetables are contained in the justly cel-chrated Blood Pills, manufantured only by Dr. N. Leidy, a regular Druggist and Physician, attested by Drs. Physic, Chapman, Jacksor, Horner, Gibson

Dewees, James, Hare, Cox, &c.

The above Pills mov be employed as a mild or active purgative. Their action is easy, and may be oployed by all persons under all circumstances.-They will at all times be found serviceable, when the least sickness is present. They require no change of die , restraint from occupation, or fear of taking cold from their use. They are daily prescribed by numerous physicians; certificates of the fact accompany the directions. They are the most affective purifier of the blood and other fluids of the human body ever discovered. Persons having once used, will ever after, as occasion may acquire, have resourse to them.
