and numerous other articles in my line of business which again renders my assortment complete.

J. R. MOYER.

SEVEN RESSONS WHY

DR. LEIDY'S

SHOULD receive a preference over all Pills now in existence:

First—Because they are composed of Vegetable extracts, free from minerals; and may be taken at all times with perfect safety by young and old, without restraint from occupation, temperate living, or fear of taking cold.

Strond—Because they are composed of such medicinal extracts, as have been employed by all the most celebrated and respectable Physicians for more than a century past, in purifying the Blood

and Animal fluid of the body. Third-Because they may be employed as a mild or active purgative, according to the quantity taken, and their operation will not be attended with griping of the bowels, sickness at the stomach. prostration of the system, &c., as are produced by

Fourth-Because they possess a combined action, not possessed by any other pills, mixture or preparation whatever. Their first effect is in correcting all impurities with which the blood and fluids of the body may be affected, and by their gently operative effect, removing such impurities from the sys-

Fifth-Because they are the terror of Quacks and Imposters, for most persons are obliged to take the Sarsaparilla Blood Pills, after taking their vile and destructive nostrums, to counteract and prevent their mischievons and baneful effects.

Sixth-Because they are the only pills in which Physicians have sufficient confidence to recommend to their patients, and employ in their practice, as they know they are Anti Quack, Anti Mercural, Anti Billious as well as a good and safe purgative and purifier of the Blood and Animal Fluids.

Seventh and last—But not the least important, be because they are prepared by a regular Apothe-cary and Physician, attested by Drs. Physic, Horner, Chapman, Dewees, James, Gibson, Jackson, Coxe, Hare, &c., &c., which alone is sufficient to entitle them to great confidence.

Certificates and Recommendations from Physicians and others accompany the directions around

COMMUNICATION.—How few they are that happen to be afflicted with Coughs or Colds pay attention to them. How many thousands from such neglect shorten their days, and hasten their final dissolution. Parents neglect them in their children, and thus form the foundation for Coesumption, and hundreds of parents annually follow their own children to the grave, having died from some affections of the Breat and Lungs, which were neglected in their first stages.
Coughs and Colds, whether existing among young

or old, ought at all times be attended to early, and not suffered to continue any length of time, for the Lungs once affected, disease soon makes rapid strides ending in the most fatal of all diseases, namely Con-

DR. BECHTER'S PULMONARY PRESER-VATIVE for Coughs, Colds, Catarrhs, Influenzas, Shortness of Breath, Whooping Cough, Pain in the Breast or Side, all affections of the Breast and Lungs, and arrest of approaching Consumption, is the most popular medicine used throughout all Germany—is becoming equally popular in the United States, and has established for itself a reputation not possessed by any other medicine for the same class of discases. (See certificates and recommen-dations from Parents, Physicians, and others, accom-paning the directions.) It is a preparation perfect-ly safe and harmless, pleasant to the taste, and may be given to the youngest infant. It is warranted free from mercury and the minerals, and is a prepar-ation of a regular Apothecary and Physician, attested by Drs. Physic, Chapman, Gibson, Jackson, Horner, Dewees, Coxo, James, &c. a circumstance alone sufficient to induce a trial of it

Dr. N. B. Leidy, Proprietor of the above medione, confidently recommends it to all, and assures all most positively that it is an invaluable medicine and would not himself recommend it, but for it, known efficacy.

D. S. TOBIAS.

New Supply "The life of the flesh is in the blood" so saith the scriptures.—Levnicus c. xvii

R. LEIDY'S BLOOD PILLS.—What better than scripture testimony can we have of the life of the flesh depending upon the condition of the blood? If impure or diseased, the firsh mus of course be diseased thereby, and the whole system partake of such disease. If the doctrine he true, and there is not a doubt of it (for it is a fact acceptable). ded to by all, that the scriptures, are true beyond doubt,) then it behooves us to guard against the consequences of such impurities, and thus preserve the flesh healthy. If the flesh be healthy, consti-tuting as it does the principal portion of the human yody, then must the whole body be healthy.

In vegetables only can we find the medicine whereby all impurities of the blood may be removed .-Upwards of one hundred years experience of the most celebrated, the wisest and best physicians have proved certain vegetables to possess purifying properties. These vegetables will not here be named, and Dr. Leidy wishes to remunerate himself, and profit by the long, laborious, and costly experiments necessary to be made, that the active principles of those vegetables might be retracted and reduced to such form as makes them easy, safe and pleasant to

These vegetables are contained in the justly celebrated Blood Pills, manufantured only by Dr. N. Leidy, a regular Druggist and Physician, attested y Drs. Physic, Chapman, Jacksor, Horner, Gibson

Dewees, James, Hare, Cox, &c,
The above Pills may be employed as a mild or
active purgative. Their action is easy, and may be employed by all persons under all circumstance They will at all times be found serviceable, when the least sickness is present. They require no change of diet, restraint from occupation, or fear of taking cold from their use. They are daily prescribed by numerous physicians; certificates of the fact accompany the directions. They are the most affective purifier of the blood and other fluids of the human body ever discovered. Persons having once used, will ever after, as occasion may acquire, have resourse to them.

DANVILLE

Bloomsburg, May 25, 1829.

ACAIDIENTY. FITHE Trustees of this Institution are happy to announce to the public generally, that it is now in full tide of successful operation. The winter term has just closed; and the semi-annual exam-ination, have given more satisfactory evidence of the excellent qualifications of their teacher, E. W. Conkling, than any PREVIOUS commendations could have done.

The summer term will commence on Wednesday the first day of May, and continue twenty-three weeks. It is very important, that all who wish to oin the institution, should be present on that day, or as soon after as possible. In order to make the school a public benefit, by

affording to all parents who desire the opportunity of giving their children a first rate education, the terms of tuition have been given at the following

Reading, Writing and Arithmetic, English Grammar explained and illustra-\$2 00 Geography, with use of Maps and Globes 2 50

including the above, Natural Philosophy and Chemistry, with 3 00, use of Apparatus, including the u-

bove, 4 00 Latin and Greek Languages, including all the above, 5 00 The German and French Languages will be 5 00 aught, but an extra charge of \$5 00 per quarter

will be made for either of them. All the members of the school are required to exercise themselves in written compositions and declamations, and will be expected at the close of each term to give a public exhibition of their proficiency in all the branches they may have pursued. Persons at a distance are informed, that upon application to the President, board will be furnished
