**The Poor House.**

Week before last we briefly reverted to the project of building a County Poor House, got up by a few individuals in Danville, to throw the expense of the poor of Mahoning upon the county generally. We then expressed a belief that it would entail upon the county a large annual expense, independent of the original cost of the farm and buildings. We have since been confirmed in this belief, by reading reports of the Directors of the Poor House of Bucks county for the years 1835, 1836, and 1837, furnished us by a friend. It is now about 20 years since the first establishment of a poor house in that county. They have a farm of 3 or 400 acres, upon which has been erected buildings. Notwithstanding the original cost of the property has been paid; yet the yearly expenses of the establishment are continually increasing, as appears from the following statements which we gather from the reports before us.

For the year 1835, it cost the county to sustain the poor house establishment, independent of the income from the farm, about

In 1836,	\$4000.
In 1837,	5500
	6300

averaging about \$10 per year for every pauper remaining in the poor house on the first day of January, of each year, independent of the interest upon the original cost of the farm and buildings. When we take into consideration the fact, that in the winter season, the number of paupers in the house is much greater than in the summer, the actual average cost will be increased to more than \$50, which is more than an average cost of the paupers of Columbia County under the present arrangement.—There are items of expenses in the poor house accounts of Bucks County which help to swell up the enormous expenses of the establishment, and to which we should be alike subject. We refer to the salaries of the officers of the institution, and the expense of transporting paupers to the poor house. The average salary paid to officers and their assistants, is about 1000 dollars, besides about 400 dollars paid to constables and justices for their services in carrying paupers from the different townships to the institution, as no pauper is received unless brought by a constable, upon the order of a justice of the peace; making the round sum of nearly \$1500 for salaries and fees which is almost entirely dispensed with un-

der the present system. This, like the other expenses of the institution, is equally divided among the taxables of the county; a township having no pauper pays an equal proportion according to her assessment, as the one having twenty. From other counties where Poor Houses are established, we hear statements which show that they are more expensive than the present mode, but not having official reports, we cannot give certain statements from any other county than the above. But this is sufficient to show the impolicy of our county entering into an experiment which, to say the least, will not decrease, if it does not increase, their poor tax. Can it be that we are better managers than the people of Bucks county, or that we shall have officers who will be more economical than theirs? They have had the experience of twenty years, and yet their expenses increase every year. We are to enter into it at a time when the county is already burthened with taxes in consequence of building bridges, and other expenses, and when, by so doing, we nearly double them, for years to come, and fasten upon the county a debt that will remain a mortgage upon every man's farm, the interest of which must be paid annually.—The poor are now sustained with but a small tax in most of the townships; so small that it is hardly felt, but we venture to say, that should the poor house law go into operation, their tax would be nearly tripled. Are the people prepared for this? If not, let every man attend the polls and cast his vote against the law. Every exertion will be used by the people of Danville to procure its acceptance. It is for their interest, and all who know them know that when that is at stake, no pains or expense are spared. We again repeat, let no man refuse to vote, for he who does not vote against it, adds to the strength of its advocates.

TICKETS against the acceptance of the POOR HOUSE LAW, will next week, be prepared, and may be had upon application to this office.

Valentine Best is riding the county daily electioneering for himself Prothonotary.—We understand that he spends most of his time in the Fishing Creek townships. He has almost become a removal man, so anxious is he to secure the votes of this section of the county, and is ready to make any bargain to advance his election. He is more pliant now than he was last winter when he opposed the appointment of any removal man to office. He then thought he was "cock of the walk," and would crow at the sight of a removal man, and snap his fingers in defiance; but the tune is changed, and he finds it necessary to practice his old game of promising office. He has already several Judges and Sheriffs on the carpet, and as many candidates for the Legislature. He can not, however, succeed—he will be literally used up, and will have "to wait until 1840." It is enough for him to do the duties of the post office, the people do not want to confer too many offices on one man.

The law regulating elections, requires, that every voter shall be assessed at least ten days before the Election, and his name entered upon the list of voters to be returned by the assessor to the Commissioners.—A list of the voters of Bloom has been placed at the house of Charles Doebler, which all should examine to see if their names are entered, and if not, make immediate application to the assessor. No man can vote unless assessed ten days previous to the election.

The annual election in Vermont has resulted in the re-election of Gov. Jennison, the antimussonian candidate, by a small majority.

Mr. Webb—I see by the papers, that my friend Charles Heffley, is a candidate for the offices of Register and Recorder and I ask the liberty of saying to the public, through your paper that he is a married man, and well qualified for the office, being a good English and German scholar, and a first rate penman, having performed the duties of Clerk for several years. As he is unable, from ill health, to labor, the situation would be a very desirable one for him, and should he be elected, I have no doubt he would perform the duties of the offices with correctness, and give general satisfaction. In addition to his other qualifications, he is a strong friend to the removal interest.

MONTEUR.

The Loan of \$2,054,000 has been taken. \$200,000 by the Berks County Bank, and the remainder by the United States Bank.

To the Electors of Columbia County.  
 At the solicitation of a number my friends in different portions of the county, I offer myself as a candidate for the offices of  
**Register of Wills,  
 AND  
 Recorder of Deeds**  
 for Columbia County, and respectfully solicit your support for the same at the approaching election. Should I be elected, I will use my best exertions to perform the duties of the office to the satisfaction of all concerned.  
**CHARLES HEFFLEY.**  
 Bloomsburg, September 7, 1839.

Mr. Editor—I beg leave through your paper to inform the Electors of Columbia county that **BENJAMIN P. FORTNER** will be a candidate, at the next Election, for the office of REGISTER and RECORDER. Mr. Fortner undoubtedly is a very competent man for the office, being a good German and English scholar.

**VALENTINE BEST,**  
 Having, with the approbation of the Democratic party, made application, and received from the Governor the appointment of Prothonotary, and Clerk of the Courts of General Quarter Sessions, Oyer and Terminer and Orphans' Court, will be a candidate at the ensuing election, for those Offices.  
 August 14, 1839.

To the Electors of Columbia County.  
 FELLOW CITIZENS.—Having been appointed by the Governor of the State, Register of Wills and Recorder of Deeds in January last, and having received the nomination of the County Convention, I offer myself to your consideration for the office of REGISTER OF WILLS and RECORDER OF DEEDS, at the next October election, and respectfully solicit your suffrages.

"The life of the flesh is in the blood" so saith the scriptures.—Leviticus c. xvii v. ii.

**DR. LEIDY'S BLOOD PILLS.**—What better than scripture testimony can we have of this life of the flesh depending upon the condition of the blood? If impure or diseased, the flesh must of course be diseased thereby, and the whole system partake of such disease. If the doctrine is true, and there is not a doubt of it (for it is a fact accorded to by all, that the scriptures, are true beyond a doubt,) then it behooves us to guard against the consequences of such impurities, and thus preserve the flesh healthy. If the flesh be healthy, constituting as it does the principal portion of the human body, then must the whole body be healthy.

In vegetables only can we find the medicine whereby all impurities of the blood may be removed.—Upwards of one hundred years experience of the most celebrated, the wisest and best physicians have proved certain vegetables to possess purifying properties. These vegetables will not here be named, and Dr. Leidy wishes to remunerate himself, and profit by the long, laborious, and costly experiments necessary to be made, that the active principles of these vegetables might be extracted and reduced to such form as makes them easy, safe and pleasant to be taken.

These vegetables are contained in the justly celebrated Blood Pills, manufactured only by Dr. N. Leidy, a regular Druggist and Physician, attended by Drs. Physic, Chapman, Jackson, Horner, Gibson, Deveres, James, Hare, Cox, &c.

The above Pills may be employed as a mild or active purgative. Their action is easy, and may be employed by all persons under all circumstances.—They will at all times be found serviceable, when the least sickness is present. They require no change of diet, restraint from occupation, or fear of taking cold from their use. They are daily prescribed by numerous physicians; certificates of the fact accompany the directions. They are the most effective purifier of the blood and other fluids of the human body ever discovered. Persons having once used, will ever after, as occasion may acquire, have recourse to them.

Price Twenty Five Cents a box.
