OHIO!

STILL THEY COME.

The news from Ohio seals the fate of Federal Whiggery in that state. Democracy has triumphed at the late election beyond all calculation. The sturdy yeomanry, many of whom hail from Penna., are not disposed to become mere machines in the hands of the aristocracy. They were for a moment deceived and drawn away, but "the sober second thought," brought truth to light and dispelled the mists of error. Ohio is safe for an age. Modern Whiggery, the offspring of Hamiltonian Federalism is now understood in all her borders, and nothing but forgetfulness of the past, will again find her in the embrace of anti-democratic principles. Her Senate consists of 36 members. Democratic 25, Federal 11. The House consists of 72, about 40 of whom are democrats and 23 feds and abolitionists, being upwards of 40 majority on joint ballot.—*Norristown Register.*

At the muster in Massachusetts they have all officers and no soldiers.

The City Councils of Savannah have generously bestowed one thousand dollars towards the relief of the sick of Augusta Geo.

Captain Morus Multicalus Whitmarsh, the great silk manufacturer at Northampton it is said has bursted, and it is supposed that the grand multicalus fever will now abate.

We learn from the Natchez Free Trader that four gentlemen of the city of Vicksburg have subscribed twenty thousand dollars to the Methodist centenary fund,—Judge Lane giving six thousand of that sum.

Loss by fire in Philadelphia.—A letter from a very respectable house in Philadelphia, received in New York, says,—“The entire loss by fire, in merchandise and real estate, cannot exceed \$1,400,000.

Born on a Rail Road.—A lady gave birth to a son in one of the cars between Trenton and New Brunswick on Saturday last.

There was a death in Philadelphia on Sunday by starvation—a widow woman of forty years, with a family of three infant children.

Mr. Williams, the Whig Senator from Allegheny and Butler counties, has been re-elected.

Professora Rinsque has issued a circular, in which he says that he knows of a plan by which the Banks can be brought to resume specie payments, and render suspension hereafter unnecessary.

Distressing.—2000 persons are said to be without a home to shelter them in consequence of the recent Mobile fires.

The Attorney General and the Banks. The Attorney General's Deputies, Messrs. Barton and Brooke, have addressed a circular to each of the banks of this city and county, saying it is understood that each of them has issued, paid or transferred bank notes, bills or tickets for less than five dollars, and requesting each to state if it designs to desist in such proceedings, and adding that if it be repeated, prosecutions will be instituted.

We again ask our readers to notice the contrast between the present and late State government, in relation to this violation of the law. In 1837, the object of the public officers seemed to be the defeat of the laws but now its object is its enforcement. This is exactly what the people require and will support. While the laws exist they should be maintained; and the best mode by which public functionaries can inspire public confidence, is to maintain the laws faithfully and fearlessly. The evils of the banking system has become intolerable and he is the best patriot who will strive the most to remove them by temperate remedies. A great evil of the system is *too much paper* and *too little coin*. Let the paper be restrained and the coin will multiply. A new issue of "shin-plasters" would banish every dime from circulation. Every good citizen will aid the law officers in enforcing the penal statutes against small notes.—*World.*

THE RESURRECTION, OR PERSIAN PILLS.

SUPERIOR TO THE HYGEAN, BRANDETH'S, EVAN'S INDIAN PURGATIVE, THE MATTHEWS' (PRICED) SERRATE, OR ANY OTHER PILLS OR COMPOUND BEFORE THE PUBLIC, AS CERTIFIED TO BY PHYSICIANS AND OTHERS.

Let none condemn them until they have tried them, and then we are certain they will not.

It is now a settled point with all who have used the Vegetable Persian Pills that they are pre-eminently the best and most efficacious Family Medicine that has yet been used in America. If every family could become acquainted with their Sovereign power over disease, they would keep them and be prepared with a sure remedy to apply on the first appearance of disease, and then how much distress would be avoided and money saved, as well as the lives of thousands who are hurried out of time by neglecting disease in its first stages, or by not being in possession of a remedy which they can place dependence upon.

The Resurrection, or Persian Pills.

The name of these pills originated from the circumstance of the medicine being found only in the remotest parts of Persia. This vegetable production being of a peculiar kind, led to experiments as to its medicinal qualities and virtues. In half a century it became an established medicine for the diseases of that country. The extract of this singular production was introduced into some parts of Europe in the year 1783, and used by many celebrated Physicians in curing certain diseases, where all other medicine has been used in vain. Early in the year 1792, the extract was combined with a certain vegetable medicine imported from Dura Baco, in the East Indies, and formed into Pills. The admirable effect of this compound upon the human system, led physicians and families into its general use. Their long established character their universal and healing virtues, the detergent and cleansing qualities of their specific action upon the glandular part of the system, are such as will sustain their reputation and general use in the American Republic.

CERTIFICATES.

I certify that I have, by way of experiment, used the Hygean, and most of the various kinds of Pills, in my practice, which have borne the highest repute in the public estimation, that have been offered for sale in this vicinity for the last five years, including those called the Resurrection or Persian Pills; and the public may rest assured that none among the whole catalogue has answered a better purpose, as an easy and effectual remedy, than the Resurrection or Persian Pills, in most cases of disease.

CHARLES BACKUS, M. D.
 Rochester, N. Y. Sept. 21, 1837.

TO MOTHERS.

Messrs. E. Chase & Co.—Gents.—Hearing much said about the extraordinary effects of the Resurrection or Persian Pills, upon those about to become mothers, we were induced to make a trial of them. My wife was at that time the mother of five children, and had suffered the most tedious and excruciating pains during and after her confinement of each. She had tried every means and taken much medicine, but found little or no relief. She commenced taking the Persian Pills about three months before her confinement (her health being very poor about this length of time previous) and in a short time she was enabled by their use to attend to the cares of a mother to her family until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous, she was afflicted with a dry hard cough, and frequent severe cramps, which the use of the Pills entirely removed before using half a box. It is with the greatest confidence that we advise all those about to become mothers to make use of the Persian Pills. All those that have taken them in our neighborhood have got along in the same easy manner, and are about the house in a few days. There does not appear to be half the danger of other dangers setting in after confinement, where these Pills are taken. We unhesitatingly say, let none neglect taking them, for they are in the reach of the poor as well as the rich. We are truly thankful that there is a remedy which females can easily procure which tends to lessen the world of suffering, which many of them have to bear, and perhaps save the lives of thousands which would otherwise be lost.

S. ROBERTS,
 ANN O. ROBERTS.

Rochester, Sept. 24, 1836.

Messrs. E. Chase & Co.

I think it my duty to let you know what a great cure your Pills have performed on me—I had been sick about 7 years—about 2 years and a half confined to my bed. I had been given over as incurable, with Consumption, by twelve physicians of the first standing; my lungs were seriously affected; I had 3 ulcers gather and break; my cough was dry and harsh most of the time; my liver was much swollen, and my stomach very dyspeptic. I had chills, fever, and night sweat, accompanied with extreme irritability of the nervous system, and other difficulties which I forbear to mention. After I was given over, I tried almost all medicines which were advertised, but to no advantage, until I tried your Vegetable Persian Pills. I began to gain in a short time after I commenced taking them; and, to be brief, before I took 3 boxes, I was able to ride out and to take considerable exercise, and at this time I enjoy good health, and am able to do good day's work. If any see wishes a more particular history of my sufferings, he may call on me, at the corner of Main and Clinton-streets, Rochester.

RUBY ADAMS.

FITS CURED.—The undersigned hereby certify, that we are the Parents of two children who have been afflicted with fits more or less from their infancy, and that we have spared no pains or expense in endeavoring to effect a cure, but without any beneficial effect, until hearing of the Resurrection or Persian Pills, when four boxes were immediately procured, and before three boxes were taken, the fits had abated in frequency, and every symptom much improved, and now we are happy to state that our children by the use of the Persian Pills, with the blessing of God, are entirely cured, and have no symptom or appearance of fits, will find in the Persian Pills a sure and perfect cure.
