

SEVEN REASONS WHY

DR. LEIDY'S

SARSAPARILLA BLOOD PILLS.

SHOULD receive a preference over all Pills now

in existence: First—Because they are composed of Vegetable

Second—Because they are composed of such medicinal extracts, as have been employed by all

Third—Because they may be employed as a mild or active purgative, according to the quantity

Fourth—Because they possess a combined action, not possessed by any other pills, mixture or preparation

Fifth—Because they are the terror of Quacks and Impositors, for most persons are obliged to take

Sixth—Because they are the only pills in which Physicians have sufficient confidence to recommend

Seventh and last—But not the least important, because they are prepared by a regular Apothecary

It is now a settled point with all who have used the Vegetable Persian Pills that they are pre-eminently the best and most efficacious Family Medicine

The name of these pills originated from the circumstance of the medicine being found only in the cemeteries of Persia. This vegetable production being of a peculiar kind, led to experiments as to its medicinal qualities and virtues.

The above Pills may be employed as a mild or active purgative. Their action is easy, and may be employed by all persons under all circumstances.

"The life of the flesh is in the blood," so saith the scriptures.—Leviticus vi. xvii vii.

DR. LEIDY'S BLOOD PILLS.—What better than scripture testimony can we have of the life of the flesh depending upon the condition of the blood? If impure or diseased, the flesh must of course be diseased thereby, and the whole system partake of such disease.

These vegetables only can we find the medicine whereby all impurities of the blood may be removed.—Upwards of one hundred years experience of the most celebrated, the wisest and best physicians have proved certain vegetables to possess purifying properties.

These vegetables are contained in the justly celebrated Blood Pills, manufactured only by Dr. N. Leidy, a regular Druggist and Physician, attested by Drs. Physic, Chapman, Jackson, Horner, Gibson, Dewees, James, Hare, Cox, &c.

FURTHER UNDOUBTED PROOFS THAT THE LIFE PILLS AND PHENIX BITTERS are excellent family Medicines.—The proprietor of these Medicines cannot too deeply impress upon the public mind the high importance of an early or timely attention to sound health.

There are very many in this community who do not appreciate good health, until attacked by some violent disease, when they think they must immediately send for a physician, and in consequence, they are perhaps confined to their beds for weeks, or even months.

Such results may be easily avoided, and should be, and it is in a great measure the object of Mr. MOFFAT, that his publication should continually remind such persons of their danger.

The following letter was received from a gentleman who, a few months since, purchased some of the Life Medicines for the use of his family, and a few of his friends:—

Mr. W. B. Moffat—Dear Sir—The Life Pills and Phenix Bitters surpass every medicine I have been acquainted with. In every instance where it has been used, a benefit has been derived, and every person is satisfied.

Another person, a female who has been unable to leave her room for the last two years, has been restored to health. Another troubled with sore throat for more than a year, and also a burning sensation in her stomach and bowels, was completely cured by three doses of your Pills.

Another, troubled with a severe nervous affection, attend with dyspepsia and continued head-ache, and was so reduced as to be unable to leave her bed, was, by the use of one box of Pills and bottle of Bitters, so far restored as to be able to attend to her domestic concerns.

Another, an acquaintance of mine, has by the use of a bottle of Bitters and two boxes of Pills, been made a perfectly sound and healthy man. He had been laboring under a complication of diseases for the last five years. I could mention numerous other instances, but these are sufficient to show the effects of the medicine upon a few of my neighbors and friends.

Yours obedient servant, CYRUS TRACHER. The following is part of a letter written by a gentleman in the country to his brother in this city, from whom he had received a box of Life Pills and Phenix Bitters:

Thompsonville, Conn. June 26, 1839. Dear Brother—I embrace the present opportunity of writing you a few lines. I received the Life Pills and Phenix Bitters you sent me, for which I can never thank you enough, as they have proved, I hope, a perfect cure to me.

I had for two years been troubled with a severe pain in my side, I applied to all the doctors in this neighborhood, but got no relief until I took the Pills and Bitters you sent me. Since I have taken them I have been as well as ever I was in my life.

Yours affectionately, DAVID MCGILL. The following is a copy of a letter from Terre Haute Indiana:

Mr. W. B. Moffat—Dear Sir—I wrote you a few days since stating, briefly, the quantity of Life Pills and Phenix Bitters, I should want the coming season. When I accepted the agency of this Medicine in June last, (although your application was accompanied by documents, attesting the great benefit of this medicine,) I had no expectation that it would equal the description given of it, or give such general satisfaction as the experiment of a few months has proved.

I can only say that all who have used it bear testimony of its great value and efficiency. I know of no instance where it has been thought in the slightest degree injurious, and even those who are afflicted beyond hope of cure bear testimony of its salutary influence upon their general health.

The following is a copy of a letter from a lady in East Lyme, Connecticut, to Mr. Moffat's agent:— East Lyme, Conn., May 6th, 1839.

Mr. Bradford—Sir—in regard to Dr. W. B. Moffat's Life Pills and Phenix Bitters, I can truly say from experience, they are the best medicine I have any knowledge of. Incredible as it may appear, I have for eight months scarcely been able to walk across a room, one month could not feed myself, had the attendance of the best of physicians for months, once and twice a day—have taken Patent Medicine as far as directions would permit.

Also, a celebrated Doctor's prescriptions, all of which has been a course of the greatest perseverance I was capable of. Yet I have received no more than present relief to give a moment of my sufferings is indescribable. Yet I will write the symptoms of my disease. For ten years I have suffered with a nervous affection in my head and face; a place as large as a hand in the left side of my back, connecting the shoulder described; a sensation of soreness, frequently become as cold as life had departed. In July, 1839, in consequence of overdoing, taking a hard cold, I was seized with a numbness in the system, faintness, flatulency, pain in the head, voracious appetite, and at times deficient appetite, great loss of muscular power, pain in the left side, also in the shoulder and arm to the greatest extent, palpitation of the heart, great distress in the back, gnawing in the stomach when empty, pressure after meals, amounting almost to suffocation, stricture across the breast, sore throat; also a tickling, attended with a convulsive cough, spitting of purulent matter, night sweats, cold feet and hands, foetid breath, costiveness, piles, loss of memory, affection of sight and hearing, dizziness, deafness, the mind became depending, other disagreeable not mentioned, which caused great weakness, &c. I happily, and can truly say, that by the blessing of Heaven, and the restorative properties of the Life Pills and Phenix Bitters, I am restored to health, which no other medicine could do.
