The little limk man of Danville whines for a " union" and " an equal distribution of favors" this fall. You are there are you, my noney. What is the matter man ? How changed the being. Circumstances alters cases. A year ago he sung a differont song, when he opposed the appointment. of any man to an office, living out of Danville, or its immediate vicinity. Congressman, Assemblyman, Prothonator, Register and Recorder, and Supervisor were so equally distributed within half a dozen miles of Danville Court House, that a Jad ge must be there also, in order that theigame might be fairly completed. The people, however, annulled one appointment, and hence the whinning for an "equal distribution."ple are not only anxious but determined to have an equal distribution of the offices this fall, not by locating them all in Danville, but by placing them in different portions of this foolery has gone by. From every state the county. It is thought, and justly too, least, and that other portions of the county have claims, which sught not, nor will net be deferred either by steam power, or by the free use of soft-sudder.

We have received the first number of a new democratic paper, just commenced at Harvisburg, entitled " The Magician." It is a handsome printed sheat, and gives evidonce of being auxiliary to the cause of democracy. Van Buren and Johnson. It is to be published until after the Presidential election, at the law price of fifty cents for one copy-five copies, two dollarseight copies three dollars-fifteen copies, five dollars. We most cheerfully recommend it to the attention of our Democratic brethren.

The election of Martin Van Buren rests upon the triumph of the democratic principles, and this triumph is founded upon the justness of these principles and the intelligence and honesty of the people. So sure as the name of Jefferson is dear to the Amorican people-cornin as that Jackson has a spell upon their affection", so certain is it that they will rally in their defence. and sustain him who rests his whole claim to their confidence on an adhetence to those principles, and submits his acts, undisguised, to their 'sober thought,' and himself to their determination.

The policy of British Whiggery is appaat in the above exposition. It betrays an adonment of principle-a laxity of moral nor-and a destitution of respect for pepar intelligence-rarely, if ever equalled, in a lowest walks and pustieus of party chi-ne and political intrigue. "It is," truly ys the Albany Argus, "the old game of and 86 ever again."

Then the federalists had as many candites in the field as there were sectional incents or views to be courted or concillated ow they have but one candidate rapresend by him telf and palmed off by his friends combining the principles of all in his sine person-as himself the essence and iarnation of various factions and interests, scordant and contradictory, which constite the sum of Federalism --- in a word just hat it might be convenient to have him orth or South, East or West. It is a game hich, as herelefore, will prove disastrous their bold experimenting upon the good and honesty of the American people, d if possible add to the disgrace is which e former contest left them.
