SARSAPARILLA BLOOD PILLS, SHOULD receive a preference over all Pills now in existence:

First-Because they are composed of Vegetable extracts, free from minerals; and may be taken at all times with perfect safety by young and old, without restraint from occupation, temperate living, or feer of taking cold.

Second-Because they are composed of such medicinal extracts, as have been employed by all the most celebrated and respectable Physicians for more than a century past, in purifying the Blood and Animal fluid of the body.

Third—Because they may be employed as a

mild or setive purgative, seconding to the quantity taken, and their operation will not be attended with griping of the bowels, sickness at the stomach, rostration of the system, &c., as are produced by

other pills. Fourth-Because they possess a combined action, not possessed by the pills, mixture or preparation whatever. all impurities with which the blood and fluids of the body may be affected, and by their gently operative effect, removing such impurities from the sys-

Fifth-Because they are the terror of Quacks and Imposters, for most persons are obliged to take the Sarsaparilla Blood Pills, after taking their vile and destructive nostrums, to counteract and prevent their mischievons and baneful effects.

Sixth—Because they are the only pills in which Physicians have sufficient confidence to recommend to their patients, and employ in their practice, as they know they are Anti Quack, Anti Mercural, Anti Billious as well as a good and safe purgative and purifier of the Blood and Animal Fluids.

Seventh and last-But not the least important, be because they are prepared by a regular Apothe-cary and Physician, attested by Drs. Physic, Horner, Chapman, Dewees, James, Gibson, Jackson, Coxe, Hare, &c., &c., which alone is sufficient to entitle them to great confidence.

SUPERIOR TO THE HYGEAN, BRANDETE'S, EVAN'S INDIAN PURGATIVE, the MATCHESS (priced) ANATIVE, or any other pills or compound befor) Let none condemn them until they have tried them, and then we are certain they will not.

It is now a settled point with all who have used the Vegetable Persian Pills that they are pre-emi nently the best and most efficacious Family Medicine that has yet been used in America. If every family could become sequalited with their Sover eign power over disease, they would keep them and be prepared with a sure remedy to apply on the first appearance of disease, and then how much distress would be avoided and money saved, as well as the lives of thousands who are burried out of time by neglecting disease in its first stages, or by not being in possession of a remedy which they can place dependence upon.

The Resurrection, or Persian Pills.

The name of these pills orginated from the cir cumstance of the medicine being found only in the cemetaries of Persia. This vegetable production being of a peculiar kind, led to experiments us to ita medicinal qualities and virtues. In half a cen-tury it became an established medicine for the diseases of that country. The extract of this singular production was introduced into some parts of Europe in the year 1783, and used by many celebrated Physicians in curing certain diseases, where all othor medicine has been used in vain. Early in the year 1792, the extract was combined with a certain vegetable medicine imported from Dura Baca, in the East Indies, and formed into Pills. The admirable effect of this compound upon the human system, led physicans and families into its general use. Their long established character their universal and healing virtues, the detergent and cleansing qualities of their specific action upon the glandular part of the system, are such as will sustain their ruputation and general use in the American Repub-

TO MOTHERS.

Messrs, E. Chase & Co .- Genta .- Hearing much said about the extraordinary effects of the Resurrection or Persian Pills, upon those shout to become mothers, we were induced to make a trial of them. My wife was at that time the mother of five children, and had suffered the most tedious and excruciating pains during and after her confinement of each. She had tried every means and taken much medicine, but found little or no relief. She commenced taking the Persian Pills about three months before her confinement (her health being very poor about this length of time previous) and in a short time she was enabled by their use to attend to the cares of a mother to her family until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous, she was afflicted with a day hard cough, and frequent severe cramps, which the use of the Pills entirely removed before using half a box. It is with the greatest confidence that we advise all those about to become mothers to make use of the Persian Pills. All those that have taken them in our neighborhood have got along in the same easy manner, and are about the house in a few days. There does not are about the house in a few days. appear to be half the danger of other dangers setting after confinement, where these Pills are taken .-We unitedly say, let none neglect taking them, for they are in the reach of the poor as well as the rich. are truly thankful that there is a remedy which and perhaps save the lives of thousands which, would

" The life of theftesh is in the blood," so saith the scriptures .- Leviticus c. xvii

R. LEIDY'S BLOOD PILLS,—What better than scripture testimony can we have of the file of the flesh depending upon the condition of the blood! If impure or diseased, the flesh must of course be diseased thereby, and the whole system partake of such disease. If the doctrine be true, and there is not a doubt of it (for it is a fact accessed by the collection of the course of the co ded to by all, that the scriptures, are true beyond a doubt,) then it behooves us to guard against the consequences of such impurities, and thus preserve the flesh healthy. If the flesh be healthy, censti tuting as it does the principal portion of the human ody then must the whole body be healthy.
In vegetables only can we find the medicine where-

by all impurities of the blood may be removed .-Upwards of one hundred years experience of the most celebrated, the wisest and best physicians have proved certain vegetables to possess purifying properties. These vegetables will not here be named and Dr. Leidy wishes to remunerate himself, and profit by the long, laborious, and costly experiments necessary to be made, that the active principles of those vegetables might be retracted and reduced to such form as makes them easy, safe and pleasant to be taken.

These vegetables are contained in the justly cel-chrated Blood Pills, manufactured only by Dr. N. Leidy, a regular Druggist and Physician, attested by Drs. Physic, Chanman, Jacksor, Horner, Gibson Dewees, James, Hare, Cox, &c. The above Pills may be employed as a mild or

They require no change of diet, restraint from occupation, or fear of taking cold from their use. They are daily prescribed by numerous physicians; certificates of the fact accompany the directions. THAT T UNDOUBTED THAT THE LIFE PILLS AND PHE-NIX BITTERS are excellent family Medicines.— The proprietor of these Medicines cannot too deep ly impress upon the public mind the high impotance of an early or timely attention to sound health. There are very many in his community who de not appreciate good health, until attacked by some violent disease, when they think they must immediately send for a physician, and in consequence, they are perhaps confined to their heda for weeks, or even roombs. Almost every one is liable to be unwell at times, and by neglect of proper treatment of themselves, on such occasions, it is very often the case that a nevere attack of dismass is the consequence Such results may be easily avoided, and should be: and it is in a great measure the object of Mr. MOFl'AT, that his publication should continually retaind such persons of their danger. The following letters go to show that the Life Pills and Phenix Hitters are not only excellent family medicines, but that they will, in very many instances, supercede the accessity of calling a phisician. The principal office is at 375 Breadway, wherethousands of similar letters to Mr. Moffat, may be examined.

The following letter was received from a gentleman who, a few mouths since, purchased some of the Life Medicines for the use of his family, and a few of his friends :-

Napoli, N. Y., July 27, 1838.
Mr. W. B. Moffat—Dear Sir—The Life Pills and Phenix Hitters surpass every medicine I have been acquainted with. In every instance where it has been used, a benefit has been derived, and every person is satisfied. One man, troubled with a scrof nious humor, has been all but raised from the dead. Another person, a female who has been unable to leave her room for the last two years, has been restored to health. Another troubled with sore thron for more than a year, and also a burning sensation in her stomach and bowls, was completely cured by three doses of your Pills. Another, troubled with a severe nervous affection, attend with dyspepsia are continued head-ache, and was so reduced us to be unable to leave her bed, was, by the use of one box of Pills and bottle of Bitters, so far restored as to he able to attend to her converte concerns. And lastly, an acquaintance of mine, has by the use of a bottle of Bitters and two boxes of Pills, been made

instances, but these are sufficient to show the effects of the medicine upon a tew of my neighbors and friends. Your obedient servant, The following is part of a letter written by a gen-theman in the country to his brother in this city, from whom he had received a box of Life Pills and

a perfectly sound and healthy man. He had been laboring under a complication of diseases for the last five years. I could mention numerous other

Thompsonville, Conn., June 25, 1853.

Dear Brother—I embrace the present opportunity of writing you a few lines. I received the Life Pills and Phenix Bitters you sent me, for which I can never thank you enough, as they have proved. I hope, a perfect cure to me. I had for two years been troubled with a severe pain in my side, I su-plied to all the doctors in this neighborhood, but got no relief until I took the Pills and Bitters you sent me. Since I have taken them I have been as well as ever I was in my life.

Yours affectionately, DAVID McGran. The following is a copy of a letter from Terre

Hante Indiana: Mr. W. B. Moffat-Dear Sir-I wrote you a few days since stating, briefly, the quantity of Life Pills and Phenix Bitters, I should want the coming season. When I accepted the agency of this Medi-cine in June Inst, (although your application was accompanied by documents, attesting the great benefit of this medicine,) I had no expectation that it would equal the description given of it, or give such general satisfaction as the experiment of a few months has proved. I can only say that all who have used it hear testimeny of its great value and efficiency. I know of no instance where it has been thought in the alightest degree injurious, and, even those who are afflicted beyond hope of cure, bear testimony of its salutary influence upon their general health. The great and increasing demand for this article is the best assurance of its usefulness. and I would not wish to be without it for a single day. Respectfully, yours, J. F. Kino.
The following is a copy of a letter from a lady in

East Lyme, Connecticut, to Mr. Moffat's agent: East Lyme, Conn., May 6th, 1839. Mr. Bradford-Sir-In regard to Dr. W. B. Mofat's Life Pills and Phenix Bitters, I can truly say from experience, they are the best medicine I have any knowledge of. Incredible us it may appear, I have for eight mouths scarcely been able to walk a-cross a room, one mouth could not feed myself, had been a room, one mouth could not feed myself, had ted Doctor's prescriptions, all of which has been a course of the greatest persuverance I was capable of. Yet I have received no more than present re-lief; to give a similitude of my suffering in the lief; to give a similitude of my sufferings is indescribable. Yet I will write the symtoms of my disease. For ten years I have softered with a nervous affection in my head and face; a place as large as a hand in the left side of my back, connecting the shoulder described; a sensation of soreness, frequent ly became as cold as if life had departed. In July 1839, in consequence of overdoing, taking a hard cold, I was seized with a numbers in the system, faintness, flatalency, pain in the head, voracious uppetite, and at times deficient appetite, great less of muscular power, painin the left side, also in the shoulders and area to the sum of the side, also in the shoulders and area to the side, also in the shoulders and area to the side, also in the shoulders and area to the side. der and arm to the greatest extent, palpitation of the heart, great distress in the back, guawing in the stomach when capty, pressure after neals, amounting almost to sufficiation, stricture across the branst sore throat; also a fickling, attended with a convulsive cough, spitting of purulent matter, night sweats, cold feet and hands, foeted breath, costiveness, piles, loss of memory, affection of sight and hearing iness, deafness, the mind became desponding, other disagreeables not mentioned, which caused great weakness, &c. I happily, and can truly say, that by the blessing of Heavon, and the restorative proper-ties of the Life Pills and Phenix Bitters, I am restored to health, which no other medicine could do Yours, &c.
