

CONSECRATION.

The "Orangeville Union Church" will be consecrated on Saturday, the 31st of October...

The papers in the county are requested to copy this notice.

Orangeville Oct. 3, 1840.

ELECTION FRAUDS.

An investigation of a system of Election Frauds of a most astounding character have been going on before the Courts of New York city, Philadelphia and Baltimore...

THE FIRST GUN FROM SOUTH CAROLINA O. K.

And is like the handle of a jug, all on one side. The Van Buren party have elected every member of Congress but one...

ARKANSAS

It is all right, having given a large Van Buren majority at a late State election, and elected a democratic Governor, Congressmen, and a large majority of the Legislature.

In several weeks our paper has been almost entirely filled with political matter, for which the importance of the political contest just closed in this state, is our only excuse.

Novel Rat Trap—A correspondent has sent us the following account of a newly invented rat trap...

The Methodists in Canada—The Methodists in Canada now consist of nearly a hundred thousand souls. They have sprung up in a few years from very small beginnings...

FEMALE DECEPTION.

The New York express relates the following scheme of deception as a new mode adopted to raise the wind by an elderly, widow-looking lady.

It is needless perhaps to say, the elderly lady never returned, and it was subsequently discovered that she had been distributing similar orders pretty freely in different parts of the city...

THE NEWS.

We have again news from Europe by the way of Boston. It is certainly of less importance than it was supposed the intelligence would be.

Byron has fallen by a bombardment from British ships of war.

The King of Holland has abdicated his throne in favor of his son. The cause is his attachment to a Catholic lady, whose religion was a bar to the marriage of the King.

The Princess Augusta, of England, who has been a long time ill, died on the 25th of September.

The rumor of the attack upon, and destruction of, the Fort of Bogue, at the entrance of the Bocca Tigris, in China, by the British, is important, especially as it is accompanied with a promise that the attack upon Canton will immediately follow.

Our thanks are due to a friend for a copy of the Boston Times Extra, containing the above—U. S. Gaz.

Luck.—A poor aged woman, who had long earned her livelihood by knitting, one day coming to the end of her worsted ball or cluse, found it to be wound on a piece of old newspaper...

Anecdote of Burns.—When Robert Burns was a very young lad, he happened at an ale house to fall into company consisting of several sectarians and members of the episcopal and presbyterian church.

A horse on Friday took a fancy to dance through a milliner's window in the Bowery, and succeeded in breaking the whole sash out, and killing himself.

The Effect of Transportation.—John Grady, who was transported a boy, to Sidney, New South Wales, fifteen years since, has purchased there 300 acres of land and 500l. worth of cattle...

Effects of the Penny Postage.—A fine stag, a present from the Marquis of Breadalbane to the Majesty, was forwarded by the mail last week to Windsor—Dundee Courier.

A Report Progressional.—A Physician passing by a stone mason, bawled out to him, "Good morning, Mr. W.—hard at work, I see; you finish your gravestones as far as 'In memory of,' and then you wait, I suppose, to see who wants a monument next?"

A Queer Name.—Among the subscribers to a Baltimore publication, is the name of "Original Herring." The Boston Transcript recommends that if he wants a mate he should look in or near Taunton river.

COLUMBIA COUNTY ELECTION RETURNS.—Electors.

1840.

Table with columns for candidates (VAN BUREN, HARRISON) and various counties (Bloom, Briercreek, etc.) with corresponding vote counts.

We are requested to give notice that an assemblage of the citizens of this place, favorable to vocal music, is requested at the School House, on Saturday evening next, Nov. 7, at which time and place Wm. Kahler will attend and exhibit his examples and explain his system of teaching the same.

Van Buren's majority in 1836; 4,364—Porter's majority in 1838: 5,496—Democratic majority in 1840: 4,950.

The election returns will show a poll of upwards of 250,000 votes—much the greatest number ever cast in the state, except at the election in 1838.

Sailor's Yarn.—A sailor was once telling of a country where the sun was so hot that the inhabitants used no fire.

"How do they bide their vittles then?" said an elderly lady.

"Why you see," said Jack, "a big glass is rigged in the tops of the chimneys, which brings the sun in a focus right in the kettle."

"La me, what a curis world," said the old lady, as she replaced her spectacles on her nose.—Syracuse Signal.

Longevity.—The Post Ampt Gazette, of Frankfurt, says there now lives at Moscow, the widow of a dealer in skins, who has attained her 167th year.

If you intend marrying for love, pay your addresses to the lady herself; if legacies court those who are to leave them; and if for connexion, court the whole family.

Curious Definition of a Kiss.—Extract from a Love Letter, written in the year 1679, translated from the German.

"What is a kiss? A kiss is, as it were a seal expressing our sincere affection; the future of our future union; a heart; a present which at the same time that it is given, is taking away from us; the impression of ardent attachment on an ivory coral press the striking of two flints against one another; a crimson balsam for a love-wounded heart; a sweet bite of the lip; and affectionate pinching of the mouth; a delicious dish which is eaten with scarlet spoons; a sweetmeat which does not satisfy hunger; a fruit which is planted and gathered at the same time; the quickest exchange of questions and answers of two lovers; the fourth degree of love.

Full Fashions.—Last Sabbath morning, a young lady was seen wending her way to church with Elester buttons on her wrists, and a hole as big as a nippence; in the heel of her stocking! says the Providence Republican Herald.

A horse on Friday took a fancy to dance through a milliner's window in the Bowery, and succeeded in breaking the whole sash out, and killing himself.

The Effect of Transportation.—John Grady, who was transported a boy, to Sidney, New South Wales, fifteen years since, has purchased there 300 acres of land and 500l. worth of cattle, and has written for several members of his family to be sent out to him.

Effects of the Penny Postage.—A fine stag, a present from the Marquis of Breadalbane to the Majesty, was forwarded by the mail last week to Windsor—Dundee Courier.

A Report Progressional.—A Physician passing by a stone mason, bawled out to him, "Good morning, Mr. W.—hard at work, I see; you finish your gravestones as far as 'In memory of,' and then you wait, I suppose, to see who wants a monument next?"

KEEP IT BEFORE THE PEOPLE.

DR. SOSEPH PRIESTLEY PETERS, Celebrated Vegetable Antibilious Pills.

Are effecting some of the most astonishing and wonderful cures that have ever been known. The town and county are filled with their praise. The Palace and Poor house alike echo with their virtues. In all climates they still retain their wonderful virtues.

Extract from a letter written by Dr. Francis Bogart, of Providence, R. I. Dec. 7, 1838.

"Peters' Pills are an excellent aperient and cathartic medicine, [whose effects being produced by the difference of the quantity taken,] and are decidedly superior to Lee's, Brandreth's Morrison's pills!"

Extract from a letter by Hopkins, of Bangor, Maine, Jan. 9, 1838.

"They are a peculiarly mild, yet efficient purgative medicine; and produce little, if any griping of nausea. I have prescribed them with much success in sick headaches and slight bilious fevers."

Extract from a letter by Dr. Joseph Williams, of Burlington, Vt. July 9, 1837.

"I cordially recommend Peter's Peters' Pills as a mildly effective, and in no case dangerous family medicine. They are peculiarly influential in constiveness and all the usual diseases of the digestive organs."

Extract of a letter from Dr. Edward Smith, of Montreal, U. C. Sept. 29 1836.

"I never knew a single patent medicine that I could put the slightest confidence in but Dr. Peters' Vegetable Pills, which are really a valuable discovery. I have no hesitation in having it known that I use them extensively in my practice, for all complaints, (and they are not a few,) which have their source in the impurity of the blood."

Extract of a letter from Dr. Pye, of Quebec, L. C. March 6, 1837.

"For bilious fevers, sick headache, torpidity of the bowels, and enlargement of spleen, Dr. Peters' Pills are an excellent medicine."

Extract of a letter from Dr. Gurney, of New Orleans, La. Oct. 9, 1837.

"I have received much assistance in my practice—especially in jaundice and yellow fever—from the use of Peters' Pills. I presume, that on an average, I prescribe a hundred boxes a month."

Extract of a letter from Dr. Reynolds, of Galveston, Texas, April 5, 1838.

"They are certainly an excellent general family medicine, and there is no quackery about them."

Extract of a letter from Dr. Pritchard, of Hudson, N. Y. June 3, 1836.

"I was aware that Dr. Peters was one of the best chemists in the United States, and felt assured that he would some day—(from his intimate knowledge of the properties of herbs and drugs)—produce an efficient medicine, and I must acknowledge that his Vegetable Pills fully respond to my expectations. They are indeed a superior medicine, and reflect credit alike upon the chemist—the physician and the philosopher."

Extract of a letter from Dr. Waines, of Philadelphia, Feb. 2, 1838.

"Your pills are the mildest in their operations, and yet most powerful in their effects, of any that I have ever met with in a practice of eight and twenty years. Their action on the chyle and hence on the impurities of the blood, is evidently very surprising."

Extract of a letter from Dr. Scott, of Baltimore, Dec. 17, 1836.

"I am in the daily habit of prescribing them—(Peters' Pills)—and they in nearly all cases, answered my purpose. I have discarded other medicines, some of 'hem very good ones, in their favor."

Extract from an address delivered on the evening of the 14th May, 1837, before the Medical Board of New York, by Dr. Emerson. See New York Medical Reports, for 1837.

"As a body I know that we have set our face against the generality of patent medicines, and experience has taught us that the great bulk of them are mere catch penny trash; but I feel called upon to make an honorable exception in favor of the Vegetable Pills of our worthy and skillful fellow laborer and citizen, Dr. Joseph Priestley Peters, of wh. ch. (in consequence of their peculiarly nutritious action on the blood,) I, and several members of this honorable Society, are ardent patrons." This friendly allusion to the Vegetable Pills was received with a warm round of applause by all the members present.

A fresh supply of the valuable Pills just received by John R. Moyer, and D. S. Tobias, Bloomsburg, and William Biddle, Danville. (Price 25 cents per Box.) October 31, 1840.
