

An honest admission.—The Boston Times, a neutral paper, after impartially reviewing Mr. Naylor's pseudo election to Congress, the charges as to fraud in said election, and the examination of a committee into the same, Mr. Naylor's declension to run again, and the late triumphant election of Mr. Ingersoll, arrives at the following conclusion:

"The only natural inference, therefore, from his refusal to stand another contest, was, that he felt no confidence in the validity of his claim to a seat in Congress, in other words, that he was satisfied a fraud had been committed, and did not wish to stand in a situation where the odium of it would fall upon his shoulders. And when, upon this strong circumstantial evidence, came the still stronger evidence of the ballot boxes at the recent election, what unprejudiced man could withstand such an array of testimony? We venture to say, not one. The evidence, to our mind, is strong as proofs of holy writ."

New Alloys of Metals.—A curious and valuable discovery has just been made in the alloy of metals. A manufacturer of Paris has invented a composition much less oxidable than silver, and which will not melt at less than a heat treble that which silver will bear; the cost of it is less than 4d an ounce. Another improvement is in steel; an Englishman at Brussels has discovered a mode of casting iron so that it flows from the furnace pure steel, better than the best cast steel in England, and almost equal to that which has undergone the process of beating. The cost of this steel is only a farthing per pound greater than that of cast iron.—Mining Journal.

THREE GOOD TOASTS.

At a Democratic festival which recently took place in a neighboring State, the following excellent toasts were given. Pithy and pointed, it may be truly said, in this instance, that "brevity is the soul of wit."

"The only shares that pay a sure dividend—plough shares."

"Woman—she spoils us with an apple, but atoned for the wrong by forming a pair."

"The liberty tree—we should be careful, while we pluck the fruit, not to break the branches."

We have always considered it an unerring sign of innate vulgarity when we hear ladies take particular pains to impress us with an idea of their ignorance of all domestic matters, save sewing lace or weaving a net to encase their delicate hands. Ladies by some curious kind of hocus-pocus, have got it into their heads that the best way to catch a husband is to show him how profoundly capable they are of doing nothing for his comfort. Frightening a piano into fits, or murdering the king's French, may be a good bait for certain kind of fish, but they must be of that small kind usually found in very shallow waters. The surest way to secure a good husband is to cultivate those accomplishments calculated to make a good wife.

The Philadelphia "Spirit of the Times," says that M. Graham the proprietor of the Casket, has purchased of Mr. Burton, "The Gentleman's Magazine" and will issue early in December, the two in one, under the title of "Graham's Magazine." (The Casket and Gentleman's united) materially improved in typographical appearance, and embellishments. A fine array of contributors is thus secured by the junction, and as the editors of both will conduct the work under the new arrangement, a Magazine of no ordinary attractions may be confidently anticipated.

Glass Cloth.—The most ingenious invention of weaving glass with silk is proceeding with great success. The patterns woven in Europe are beautiful in the extreme, and have induced many of the nobility to select them for curtains and other ornamental furniture.

Fortification of Paris.—Louis Philippe recently laid the foundation stone of the additional fortification of Paris, and the peasantry men and women, are at work constantly upon them. Louis seems determined to have Paris, if not France, safe from his enemies.

Sacrifice of Life.—In August last, H. M. S. Lily, while cruising in the Mozambique channel, fell in with a slaver and drove her ashore. Of her cargo, consisting of 550 negroes, 200 were drowned, and the remainder were taken on board the Lily, and conveyed to Mauritius.

In 1743, Ipswich, beans were ordered to be used in voting: the white denoting yea, the black nay. From this originated, we presume, the old phrase, "You don't know beans," as no one was allowed to vote who did not know a white bean from a black one.

A Sensible Little Boy.—A friend of Mr. Cartwright's, the celebrated dentist, took his son to have his mouth inspected by the able artist, who with wonderful celerity, removed seven of the boy's first teeth. Upon the boy crying out with surprise, and a little pain, Cartwright said, "Never mind, Johnny, your teeth will come again."

Johnny, with tears in his eyes, inquired, "will they come again before dinner, Mr. Cartwright?"

From the Public Ledger.

Gen. Geo. Washington in want of a Pen knife.—In Caldwell's "Life of Gen. Green," p. 65, there is a fac simile of the following curious epistle:

"October 7th, 1779.
"Dear Sir: I have lost—and cannot tell how—an old and favorite penknife, and am much distressed for want of one—if you have any in your stores, please send me one—if you have not, be so good as to get one immediately. Perhaps Mr. Bailey could furnish one. One with two blades I should prefer, when choice can be had.
"I am, dear sir, your most obedient,
"GEO. WASHINGTON."

Look out for Counterfeits.—We are informed that \$5 notes of the Bank of Camden, genuine as to the engraving, but with fictitious signatures are in circulation to a considerable extent in this city. They are not properly counterfeits, as the names signed to them, are not the names of the officers of that Bank. It should seem that a quantity of the engraved notes of the Bank of Camden, unsigned, have "fallen among thieves."

Reggars on Horseback.—In Buenos Ayres horses are so plentiful that beggars make their round asking alms on horseback, and do not consider that position as diminishing in any degree their sympathy.

Coming Close.—It is stated in St. John's N. B., paper of the 7th inst., that the Government is about to erect barracks at Woodstock, on the upper part of the river St. John twelve miles from a post at present held by the Americans at Holton.

BE CAREFUL.

\$1 bills, bearing a close resemblance to those issued by J. J. Cohen & Brothers, of Baltimore are in circulation. They are signed by N. W. Chaffee, the engraving neatly executed, but are actually good for nothing.

Going it Strong.—The Baltimore Clipper says: It is stated as a fact, that the West Kirk Sessions of Edinburgh, has passed a resolution to prevent Sunday funerals!—What next? Why another resolution may be passed to prevent Sunday dying!

PLENTY OF SNOW.

A gentleman at New York, from Williamstown, (Mass.) informs that snow fell there all Sunday night and Monday, and on Tuesday morning, the 26th and 27th ult. there was a depth of six inches remaining on the ground. Had none of it melted, he supposes it would have been two feet deep.

Snow.—The Boston papers state that on Monday morning, about two o'clock, that city was visited with a violent snow and hail storm, accompanied with heavy thunder, and vivid and frequent flashes of lightning. At sunrise, there was an inch of snow on the ground, and the weather was so cold through the day, that some of it was visible in the afternoon. In some of the neighboring towns, the storm was even more violent, the snow covering the ground to the depth of two or three inches.

A barn in Stonington was struck by lightning during the storm, and consumed, together with several tons of hay, one cow and farming utensils.

The storm was very severe in New Bedford and Fall River. The thunder was terrific, and hail stones, of an unusual size, fell. In Mansfield and Foxborough, the snow was two or three inches deep.

The Troy Mail states that there was a heavy fall of snow in that city and vicinity on Sunday night.

Specie.—The Havre packet Duchess of Orleans, took out \$320,000 from N. York on Monday. It is said that \$1,700,000 have left New York since the 1st of September.

Milk.—It is said that a spoonful of horse-radish put into a pan of milk, will preserve the milk sweet for several days, either in the open air, or in a cellar, while other milk will turn sour.

Revolutionary Incident.—During the Revolutionary War, two brothers, from one of the eastern ports, were commanders of privateers, they cruised together, and were eminently successful, doing great damage to the enemy and making money for themselves. One evening, being in the latitude of the shoals of Nantucket, not many miles eastward of them, they espied a large British vessel, having the appearance of a merchantman, and made towards her; but to their astonishment, found her to be a frigate in disguise. A very high breeze prevailing, they hauled off in different directions. One only could be pursued, and the frigate gained rapidly upon him. Finding he could not run away, the commanding officer had recourse to stratagem. On a sudden he hauled down every sail, and all hands were employed with setting poles, as if showing his vessel off a bank! The people on board the frigate amazed at the supposed danger they had run; and to save themselves from being grounded, immediately clawed off and left the more knowing Yankee "to make himself scarce," as soon as night rendered it prudent for him to hoist sail in a sea two hundred fathoms deep!

How youth makes its wishes hopes, and its hopes certainties.

Derivation.—The New York Star undertakes to derive the words "King Jeremiah" from an cucumber; thus—"Cucumber—gherkin—jerkin—Jerry King—King Jeremiah."

Revenue of the Church.—The annual revenue of the established church in England, is 24,000,000 and the value of church edifices and parsonage houses 65,000,000.

Darnes Convicted.—Wm. P. Darnes, who killed A. J. Davis, the editor of the St. Louis Argus, in a political quarrel, has been tried, convicted, and sentenced to twelve months imprisonment in the penitentiary.

Census of Baltimore.—We learn from N. Snider, Esq. Marshal, that the census of the city of Baltimore has been completed, and that the total population is 102,590 souls—being an increase of 20,865 since 1830.—Baltimore Am.

From Mexico.—Extract of a letter, dated Carmon, Laguna de Terminos, Mexico, October 1st, 1840.

"We are entirely separated from the Mexican Government, (this State of Yucatan) and carrying on hostilities in the next State of Tobacco—war to the knife!

Should Mexico not admit the federal form of government, we are to do the same as Texas—form a republic apart. There is not a government soldier in this territory, and our Congress is now seriously legislating upon free immigration of strangers.

The Texian star is now for the first time floating in a Mexican port—this one. Day before yesterday, the steam ship of war Zavala, of Texas, entered this port, and now lies here equal to the best of friends!"

Hope is the prophet of youth—young eyes will always look forward.

CURE YOUR COUGH BEFORE IT IS TOO LATE.—REMEMBER, delays are dangerous. Thousands die annually from that dreadful disease CONSUMPTION, which might have been checked at the commencement, and disappointed of its prey, if proper means had been resorted to. The very many who have thus been snatched from that fatal ravager, by the timely use of Dr. SWANES COMPOUND SYRUP OF WILD CHERRY, bear testimony to this day, announcing the cure, the wonderful cures, performed by the use of this invaluable medicine. For sale at Tobias's Health Emporium Bloomsburg, Nov. 7, 1840. 28.

Dyspepsia! Dyspepsia!

THAT troublesome and peace-destroying disease. The thousands and tens of thousands suffer from that common and distressing complaint—Dyspepsia is frequently caused by overloading or distending the stomach by excessive eating or drinking—indigestible and acid substances taken into the stomach, or from long continued constipation of the bowels, a sedentary life, fear, grief, anxiety, a copious draft of cold water, drastic purgative medicines, dysentery, miscarriages, intermittent and spasmodic affections of the stomach and bowels, irregular meals, late hours, and too frequent use of spirituous liquors.

The symptoms of Dyspepsia may be described as a want of appetite, or an unnatural or voracious one, nausea and sometimes bilious vomiting, sudden and transient distensions of the stomach after eating, acid and putrescent eructations, water brash, pain in the region of the stomach, costiveness, palpitation of the heart, dizziness and dimness of the sight, disturbed rest, tremors, mental despondency, flatulency, spasms, nervous irritability, chilliness, sallowness of complexion, great oppression after eating, languor and general debility, sick head-ache, &c.

CURE—At the head of all remedies stands Dr. Harlich's Compound Strengthening Tonic and German Aperient Pills, which act greatly upon the peristaltic motion of the intestines, thereby producing regularity of the bowels, at the same time improving the functions of the debilitated organs, thus invigorating and restoring the digestive organs to a healthy action. This medicine seldom fails in producing relief.

Full and explicit directions accompany the above medicine. Likewise a pamphlet which describes diseases, the manner of treating, &c. For sale at Tobias's Health Emporium Bloomsburg, Nov. 7, 1840. 28.

MORE POSITIVE PROOFS, Of the efficacy of Dr. Harlich's Compound Strengthening and German Aperient Pills.

ALLEGHANY, JAN. 8, 1840.

To Dr. Harlich's Agent—Sir: I wish to state for the benefit of those who may be afflicted, that Dr. HARLICH'S PILLS have entirely cured me of Dyspepsia, of which I have been afflicted for many years. I used both kinds, the Aperient and Strengthening, and I am constrained to say, that they are a valuable discovery, and act upon the system mildly, but very effectually. I found the Tonic Pills to quicken the circulation and cause a determination to the surface, and to strengthen the weak stomach and increase its powers. The Aperient Pills are the best cathartic I ever used. I am confident all Dyspeptics would do well to make immediate trial and be relieved. Any one can call at my house and be satisfied of the above at pleasure.

DAVID R. POPE.

N. B. The original certificates may be seen at the office of the "Spirit of the Times." For sale at No. 19, North EIGHTH STREET.

RHEUMATISM

Entirely cured by the use of Dr. O. P. Harlich's Compound Strengthening and German Aperient Pills.

Mr. Solomon Wilson, of Chester County Pa; afflicted for two years with the above distressing disease of which he had to use his crutches for eighteen months, his symptoms were excruciating pain in all his joints, especially in his hips, shoulders and ankles, pain increasing towards evening, attended with heat. Mr. Wilson, was at one time not able to move his limbs on account of the pain being so great he being advised by a friend of his to procure Dr. Harlich's Pills for which he sent to the agent in West Chester, and procure some on using the medicine the third day, the pain disappeared and his strength increasing fast, and in three weeks was able to attend to his business, which he had not done for eighteen months; for the benefit of others afflicted, he wishes these lines published that they may be relieved, and again enjoy the pleasures of healthy life. For sale at Tobias's Health Emporium Bloomsburg, Nov. 7, 1840. 28.
