THE TROUBLES COMMENCED!

The disturbances in the wig-wam have already commenced—and the old General, according to the last accounts, had been worked up into a pet, by the innumerable petitions which had been coming in from his constituents, who aided in placing him into the presidential chair—and who, out of respect for him and his station, are now ready to destroy his comfort even before he has entered upon the duties of his office, by demanding of him their share of the spoils, and requiring him to set in accordance with their bargain.—*Easton Sent.*

Sudden Death.

From the March Chunk Courier of Saturday last, we learn that a man named Rich, residing in Conyngham, Luzerne county, in this State, formerly of Philadelphia, was found lying on his back, dead, at the foot of a rock, with the stopper of his powder horn in his mouth, a gun lying under him, and his clothes completely burnt off. It is supposed that several buckshot had passed through his body.

Curious feat of Spiders.—The Lowell Courier relates a curious occurrence which recently took place in that city. Mr. Roland Lyman, a jeweller, left a gold ring with a piece of paper, for a label, lying within it, upon his bench. The next morning he found that a large black spider, from the ceiling overhead, had attached his web to the paper, and raised that and the ring one inch. In the course of a week he raised it eight inches. He was then driven away by a small brown spider. Another black one afterwards attached his web to it, and in three days raised it to the height of fourteen inches from the table, when by some means, the web was broken. The weight of the paper and ring was twelve grains.

Motion.—One would suppose that motion was the most perceptible thing in the creation, yet it is not so. A person on board a ship under way, would not perceive that she had left the wharf, but by looking upon steadfast objects. The motion of the world was not discovered until a late day; and the blood had traversed the veins of the human species for nearly six thousand years before it was known that it stirred.

IMPORTANT FROM CANTON.

The ship Ann McKim, from Canton June 25th, arrived at this port yesterday, but from some cause we did not receive our papers. We have verbal intelligence that the British squadron, having 5000 troops on board, was about to blockade the port of Canton, while the remainder had gone on to the Yellow Sea, intending to reach Peking. The blockade, we are informed, was to put in force on the 28th of June.

Compulsory Education.

In Prussia, the parent who keeps his child from school between the ages of seven and fourteen, is by law punishable by a fine of 6d. per week, or, if he refuse to pay it, by imprisonment. This law is strictly enforced in some of the towns.

The Lexington Intelligencer

of the 14th, states that the corn crop of Kentucky this year is unusually large, and will perhaps surpass any that has ever before been produced in the State.

A boat load of coal arrived at St. Louis on the 12th last, from the mines of E. W. Risque, Esq., in Calhoun county, Ill.

Melanchoolly Suicide.

The New York Journal states that Nathaniel Prime, Esq., late of the firm of Prime, Ward & King, Bankers, committed suicide on Thursday, 26 ult, by cutting his throat with a razor. He was about seventy-four years of age, and the possessor of an ample fortune. As no cause can be discovered for the commission of the act, it is supposed that the deceased was temporarily deranged.
