

The Jews.—It is said that within the last five years the number of Jews in the Holy Land, has increased from two thousand to upwards of 40,000 and that it is still increasing. The London Society, for the conversion of the Jews have established a mission at Jerusalem and built a church upon Mount Zion. They have translated the book of common prayer into Hebrew and have a missionary who is a converted Jew stationed there—and thus after a period of eighteen hundred years, the Psalms of David in Hebrew are again sung by a Hebrew Christian church on Mount Zion where they were first set to music by their inspired author the "sweet singer of Israel" 3000 years ago.—*Keystone.*

THE NEXT CONGRESS.

The Philadelphia Spirit of the Times, says: "The election for members of the next Congress held in Maine, Louisiana, Vermont, Pennsylvania, Ohio, Georgia, South Carolina, New York, New Jersey and Massachusetts, have resulted in the choice of eighty federalists and fifty-five Democrats. In the Senate there will be twenty-nine federalists, a majority so that Harrison when duly installed, will be supported by majorities in both Houses. We shall then realize the golden promise of better times"—*pre-haps.*"

A Horrible Murder.—We learn from the Upper Marlboro' Gazette says the Baltimore Sun, that on Saturday last, a shocking affair occurred in the neighborhood of Bladensburg, in this State. It is stated that a misunderstanding had for some time existed between Clement T. Hillery and a young man named Albert Magruder, and on Saturday they met at the church near Hillery's house, where they resumed the quarrel. Some threats, it is said, were passed between them—when Hillery went to his house, got his gun, and when within a few yards of Magruder, discharged the gun at him—three of the shot taking effect in the forehead, the remainder passing through the hat. We have yet to record the most shocking part. After shooting the young man, Hillery ordered one of his negroes to hold him, while he, with the butt end of his gun, literally knocked out the man's brains! Hillery, says the Gazette, has heretofore stood fair in the above place, and has many respectable relatives.

An Awful Position.—A man named Kidd, in attempting to cross the Genesee river, a short distance above the middle falls, during a very dark night last week, became unable to manage his boat and drifted to a dam, only a few feet from the cataract, where the boat grounded slightly and hung like a balance. He remained in this perilous situation for four hours, when he was rescued by some friends attracted by his cries. Had there been two inches more water on the dam, or a brisk wind, he would have been precipitated down the falls, and dashed to atoms.—*Spirit of the Times.*

Another Steamboat Lost.—The Charles ton Patriot states that the steamboat Sam Jones, loaded with cotton, and bound to Darien, (Geo.) struck a snag and sank in the river, she will be a total loss.

Dreadful.—The body of Mr. David Plumer of Gloucester, was found on Monday, on the floor of his residence, his head and shoulders in the fire place, and horribly burnt. He lived entirely alone, and from appearances, it is supposed that while before the fire, preparing something to eat, he was seized with an apoplectic fit, (having been subject to them,) and fell directly into the fire, in the position in which he was found. He was nearly eighty years of age.

SENATOR IN CONGRESS.

The Hon. Levi Woodbury has been elected by the New Hampshire House of Representatives, a United States Senator for six years from the fourth of March next, in the place of Mr. Hubbard, whose term will then expire. Mr. Woodbury received 145 votes, Gen. James Wilson 73, and there were from 10 to 15 votes scattering. The Senate immediately afterwards concurred in the election by a vote of 7 to 5.

Libel Suit.—The suit instituted by Thaddeus Stevens against Hutter & Cantino, publishers of the Magician, for an alleged libel, came up last week in the Adams County Court. On motion of the defendant's counsel, the indictment was quashed by default. The defendants were, however, again bound in recognizance for their re appearance at January session, 1841.

Union Canal.—The Union Canal Company have commenced widening their canal to the same dimensions as the Pennsylvania Canal. This will afford an outlet sufficient to answer the purposes of the Swatara Canal, and give them a market in Baltimore via the Tide Water Canal.

Children Suffocated.—Two children, each only ten months old, were suffocated in New York on Monday last,—one by being overlain in bed by its mother; the other by being folded too closely in its cradle covering, while its mother was at market.

Census of New Hampshire.—The population of New Hampshire, according to the recent census, is 281,451.

Burned to Death.—A colored woman named Chloë Chiepin, seventy-seven years old, was burned to death in Portland a few days since, by her clothes taking fire. She ran out into the street, and was found by her son on his return home lying in a snow bank dead, with her clothes still burning.

HOG KILLING.

As the season for butchering hogs has again arrived, the following information, which we cut from an exchange paper, may not be deemed unimportant, by many of our subscribers: "In scalding Hogs, it is best to dip them first in cold water, and then in hot—the bristles come out easier.

A correspondent of the "Lancaster Examiner" goes for making the sale of our public improvements, a question at the next Governor's election.

Gen Jackson.—We see it stated in some of our exchanges that the venerable ex-President is sick and confined to his bed. The nature or severity of his disease is not stated.

AN UNNATURAL MONSTER.

The State Capitol Gazette of the 23d ult. says:—"A wretch now lies in jail in Philadelphia, awaiting his trial for the murder of his wife. It is said he compelled her to prostitute herself to furnish him with money, and that he would force her into the street, and by threats and blows compel her to acts of sin and guilt, and then follow her to the place of assignation, waiting outside to receive the sums that she thus earned.

CIRCULAR

Address to the Temperance Societies and friends of Temperance within the bounds of the county of Columbia by the officers of the County Association.
GENTLEMEN.—The time of our annual meeting is again near and it becomes our duty to call the attention of the auxiliary societies and those which have not yet become auxiliary to the subject. The Temperance cause has been gaining in strength and influence, and from the increase of members and new societies through the county, we anticipate a meeting of no ordinary interest.

There has been more light thrown on the evils of the liquor business and the importance of temperance, within the past year than during any previous year, during the organization of the society; and there are a number of important subjects which will be up for discussion before that body which will require a full representation from all the societies which have become auxiliary heretofore, and that all those societies which have been organized but which have not yet become auxiliary, take the proper steps to become so. All that is required of any society to become auxiliary is, that they send on their delegates (what number they please) with a copy of their constitution and report: The report should contain the number they have in the society—the number of temperate men within their bounds who do not belong—the number of moderate drinkers and of habitual drunkards; the number of stores who sell liquors and who sell it not, and the number which have abandoned its sales during the year—the number of taverns, distilleries, &c.; and any other information which may be of interest to the temperance cause.

The annual meeting of the society will be held at Danville on the first Thursday of January in 1841, in the Presbyterian Lecture Room, where it is hoped there will be a full representation from all the societies in the county. Several addresses are expected on the occasion. It is likewise desirable that the delegates convene as early as possible, they should be there at least by 11 o'clock in the morning.

WILD CHERRY,

For Coughs, Colds, Asthmas, Spitting of Blood, Soreness of Throat, Whooping Cough, and all Diseases indicative of CONSUMPTION.

DELAYS ARE DANGEROUS.—So it is with those who neglect their COLDS and COUGHS.—At first you complain of having a Cold, which is neglected; after which a soreness is experienced in the Bronchia, with a hacking Cough, and finally the disease settles upon the lungs, which the patient will soon perceive by a wasting away of the body, attended with hectic fevers and spitting up of blood and matter from ulcers on the lungs; pain and weight is also experienced at the affected part of the lungs; the functions of the animal economy grow languid; the body becomes dry; the eyes sink deep within their cavities; at length the patient pays the debt of nature, when he is flattered himself with the hopes of a speedy recovery. To obviate all these distressing symptoms "Spare no Time" in procuring the above Invaluable Medicine at the very commencement of your Cold and Coughs whereby your health may be secured and time and money saved.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

These works will be published by us during the approaching session of Congress. They have had such a wide circulation in the United States, and their usefulness and cheapness are so universally acknowledged, that we deem it unnecessary to give a detailed account of what the future numbers will contain. Suffice it to say that they will be invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the form of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged. In some parts of the United States, the white paper, upon which these works are printed, would sell for as much as we charge for the publication.

The CONGRESSIONAL GLOBE is made up of the daily proceedings of the two Houses of Congress, and the speeches of the members condensed. The year and says on all important subjects are given. It is published as fast as the business of the two Houses affords matter enough for a number. Each number will contain sixteen royal quarto pages, of small type. We expect to publish three numbers for every two weeks of the session.

The APPENDIX contains the speeches of the members, at full length, written out by themselves and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared by the members.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe \$1
One copy of the Appendix \$1
Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number of copies for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of the country where a subscriber resides, will be received.

To insure all the numbers, the subscriptions should be here by the 14th of December next at farthest.

No attention will be paid to any order unless the money accompanies it.
