

OUR TABLE.

We have received a number of Roberts' Semi-Monthly Magazine, published at Boston, Mass. It is a cheap and valuable miscellany. An advertisement will be found in another column.

The Boston Notion, is the largest paper published in the United States, handsomely and ably conducted. Specimens of both may be seen at this office.

A PROCLAMATION.

Whereas sundry important and weighty matters, principally growing out of the condition of the revenue and finances of the country, appear to me to call for the consideration of Congress at an earlier day than the next annual session, and thus form an extraordinary occasion, such as renders necessary, in my judgment, the convention of the two Houses as soon as may be practicable, I do, therefore, by this my Proclamation, convene the two Houses of Congress to meet in the Capitol at the city of Washington, on the last Monday, being the thirty-first day of May next. And I require the respective Senators and Representatives to be there to assemble, in order to receive such information respecting the state of the Union as may be given to them, and to devise and adopt such measures as the good of the country may seem to them, in the exercise of their wisdom and discretion, to require.

In testimony whereof, I have caused the seal of the United States to be hereunto fixed, and signed the same with my hand.

Done at the city of Washington, this seventeenth day of March, in the year of our Lord one thousand eight hundred and forty-one, and of the independence of the United States the sixty-fifth.

W. H. HARRISON.

By the President: DANIEL WEBSTER. Secretary of State.

New Hampshire, in the first State Election for 1841, has set an example to her sister States, the moral force of which will be felt and imitated throughout the Union.

The shaft and cranks forged at the West Point Foundry, N. Y. for the Government steamer, now building at Philadelphia, have been shipped for that city.

The shaft is about 19 inches in diameter, feet in length, weight 12,461 lbs.

The two cranks 11,379 lbs. Similar machinery has been completed the ship now building at New York, which is said to be equal to any of English manufacture.

Another Sign.—The Rochester Advertiser says: "We understand that the great activity prevails in Kingston in warlike preparations. Fort Henry is undergoing entire and thorough repair."

Removal of a Revolutionary Soldier.—James Mosher, surveyor, of the Port Baltimore, one of the soldiers of the Revolution, and every way qualified to fulfill the duties of the office, has been unceremoniously removed by Harrison's Federal Administration, and William Pickney appointed in his place.

Keep it before the people.—Prices fluctuate more in America than in any other country. Next in England and next in France. Last of all in Cuba. In this country it constitutes seven eighths of the circulating medium. In England one half, France on eighth and in Cuba none at all.

Condition of the New York Free Banks.—A general panic appears to exist in New York in relation to the notes of the "Red" institutions. By law, these banks are compelled to have their notes redeemed by any or New York City, and funds deposited with agents for that purpose. In consequence of the run upon them these banks became exhausted, and not being able to pay, the notes of most of them cannot be disposed of, except at great discount. Several of them have failed entirely, and the banks of the State generally believed to be in a critical condition, so general suspension of specie payments is probable. The Wayne County (Safety Fund) is broken—capital sunk, and \$50,000 lost to the State.

Steamboat Sunk.—Great Loss.—On the 21st inst. the steamboat John Randolph was wrecked and sunk a few miles above Orleans. She was bound for Nashville and had a valuable cargo (say \$300,000) on board. She sunk so fast that there was no time for the passenger and crew to get into the boats. Not a trunk or any article was saved. A colored fireman, one of the passengers, lost with his about 15,000 dollars in cash. The J. believed, went down in such deep that it will probably never be found.

Spirit of the Times.

GLEANINGS.

Paper Mills.—There are twelve paper mills in Lee, Mass., which manufacture 1,200 tons of stock annually, producing paper worth \$300,000.

Great Freshet in the South.—Charleston papers of the 13th instant give accounts of a freshet in that section of country, which had already done great damage, and there were apprehensions that it would be much worse. At Hamburg the water was very high, and rising at the rate of eighteen inches an hour—a considerable portion of the town was under water. The railroads had suffered much by the washing away of bridges, embankments, &c.

McLeod Case—postponed.—The trial of McLeod upon the charge of assisting to burn the Caroline, and to murder Durfee, comes on Lockport next summer—not next week.

McLeod has commenced, or is about to commence, the correspondent of the N. Y. Herald says proceedings to procure a commission to examine foreign witnesses, and among the rest Capt. Drew, who commanded the Caroline expedition, and who is now in England. Hence it is that a trial cannot be had before the latter part of next summer or perhaps not until fall.

Government Steamers.—It is thought that government has decided to render assistance to Mr. Collins of New York, and carry out his plan for building four large steam ships to run between New York and Liverpool.

Steamboat Home.—The cause growing out of the loss of this vessel, after a full and laborious hearing in New York, which occupied six days, was on Monday evening given to the jury, who the next morning came into Court with a verdict for \$11,300.

Native Steel.—Professor Emmons of N. York, has made a report to the Legislature on the steel mine discovered in Franklin county, in that State. Native steel, it is stated, can be dug out of the earth.

Commodore Downes, it is said has been reinstated in the command of the Navy Yard at Charlestown, which place has been temporarily occupied by Capt. Morgan.

What Villains.—Three seamen tried to set fire to the whaling ship Audley Clarke, in January last, at sea, in order to get clear of paying what they owed the owners.

Whig Nomination.—The Whigs of N. York have nominated J. P. Phoenix, Esq., as their candidate for Mayor at the approaching charter election.

A New Paper has been started in Harrisburg to support the election of Governor Porter. It is called "The Yeoman," and is very ably edited.

The Taxes of New York for 1830, amounted to \$1,000,000. It is estimated that this year, they will amount to \$1,500,000.

Riots in Canada.—The election in Canada is prolific in riots. The Radical ticket goes ahead of the Tory, and of course the latter party knock down and beat the Radicals whenever they can with impunity.—On Wednesday the Radical candidate was 120 ahead at Henryville, which so exasperated the Tories that a severe contest ensued, and the radicals being poorly prepared to defend themselves were severely injured. One or more of the latter have died, and many are so badly hurt that there are no hopes of recovery. The radical candidate has entered his protest and withdrawn from the canvass, and possibly, the riotous scenes have ended for the present.

A Yankee Schooner, only 70 tons has sailed from Charlestown for Canton. It is a bold experiment, and is rumored to be an express.

Riot and Jail breaking.—A riot in Lorain county, Ohio, lately occurred which ended in breaking open the county jail and taking therefrom two negro slaves, who had been confined in it, to wait an adjudication of their cause.

No you Don't.—An individual who had borrowed \$150 from the German Bank at Worcester, Ohio, offered to pay the bank in its own notes; but the cashier put his thumb to the tip of his nose, and told the person he "couldn't" come it over the bank in that way.

A Good Joke.—All the Whig papers in the West, refused to publish the Inaugural Address of Gen. Harrison, for a day or two after they received it, believing from its namby-pamby style, that it was a hoax.

Mexico.—This government is in a most distracted condition. All the California provinces are in rebellion, and the Gulf provinces are little better, one of them having established a separate government.

HYMNICAL.

MARRIED.—On the 21st inst. by the Rev. William J. Eyer, Mr. MICHAEL WITMEYER, of Muncy, to Miss SARAH WHITENIGHT, of Nescopeck.

VENDUE.

THE subscriber offers for sale, at Public Vendue, at the house of Enoch Howel, in Bloomsburg, on

Saturday, March 27, 1841, at 10 o'clock, in the forenoon, the following property, viz: one German Brass eight day clock and case, beds and bedding, and several articles of household furniture, a one horse waggon, horse gears, a cooking stove and pipe, rope works, and a variety of other articles too numerous to mention. Conditions made known at time of sale. DANIEL GROSS. Bloomsburg, March 13, 1841.

Trial List

Valley—David Maxwell, James Blue, Daniel Woodside.

NO. FIVE OF THE SEMI-MONTHLY.

NO. five of Roberts' Magazine was published and ready for sale promptly on the morning of the 15th inst. It is a highly interesting number and looks, as usual, as neat as a pin. The reduction of the retail price of the Magazine from ninepence to EIGHT CENTS works admirably.—Only look at it! A handsome well printed book of forty large pages with an extra thick and durable cover, containing the choicest gems of the American and English Magazines, together with a fine ENGRAVING.

For only Eight Cents a Copy. This must certainly be pronounced the climax of cheapness. It throws all the other Magazines in the country, in point of cheapness, in the shade. Persons desirous of purchasing the back number of the Magazine, can now be supplied (as No. 1 has been reprinted) by calling at the Counting room or sending their orders to us post paid. Subscription price—\$2.00 per year. Five copies for \$8.00. Ten copies for \$15.00. March 27, 1841.

UNION HALL.

Equal to any—Second to none.

THE Subscriber informs his friends, and the public generally, that he is now, not only the occupant, but the proprietor of the LARGE AND COMMODIOUS THREE STORY BRICK TAVERN

IN DANVILLE, Pa.

Known as the "UNION HALL," and has made and completed an addition to the building which gives him the most airy, spacious, and pleasant rooms of any Hotel in the place; and he is determined that the improvements and additions to his House shall keep pace with the growth and importance of the town in which it is located, and that it shall be second to none. The house has been thoroughly repaired, and furnished in a manner which he feels confident will give satisfaction to customers. His TABLE will always be furnished with the choicest and best, and his BAR will be supplied with the purest liquors. His stables are always well supplied with good provender, and attended by a careful Ostler. His long acquaintance with the business of keeping a public house, together with a determination to use every means to render satisfaction, induces him thus publicly to encourage his old friends to continue their calls, and invite the public generally to give him a trial, and judge for themselves, as he is determined that the Union Hall shall be kept in as creditable a manner as any house in Northern Pennsylvania. WILLIAM HENRIE. Danville, March 20, 1841.—tf

SHERIFF'S SALES.

ADAM STROUP, jr.

Hemlock township, Jan. 16, 1841.

38—2m

TO PHYSICIANS, CABINET MAKERS, &c.

The patent right for the Manufacturing and Vending

ENGEL'S PATENT SOFA

AND SOFA BEDSTEAS,

For Invalids and also the patent right of

ENGEL'S PATENT BEDSTEAD

are offered for sale for the counties of Schuylkill Columbia: The former are admirably adapted for the use of Invalids and bed ridden persons. The latter are adapted for hotels, being so constructed that they may be put together and taken apart, in less time than bedsteads now in use, and will cost no more to manufacture than the common bedstead. The right will be disposed of, for either of the above counties, for Townships, Towns, Shops, or single right.

Persons wishing to purchase rights may obtain every information upon application at Brady's Hotel, Danville, where specimens can be seen.

The following recommendation is from

Doctor George McClellan, of Philadelphia.

An ingenious invention for invalids.

Messrs. Engel & Connor, of the borough of Easton, Pa. have invented a Sofa for the use of bed ridden patients, which has met with the approbation of our Medical faculty; and which we think ought to be introduced to the notice of the public. It combines all the advantages of a Sofa for parlors, and a moveable bed, for the support of invalids. By the ingenious applications of hinges and cranks it is capable of raising the patient to every desirable change of position without exciting the system, or disturbing any injured part. I have procured one of them, and I shall seize the first opportunity of introducing it to the attention of my friends in practice; and I feel perfect confidence in recommending it to the patronage of our profession.

GEO. McCLELLAN, M. D.

Danville, March 20, 1841.—tf 47
