

Windy Story.—A Swiss paper states that a woman was caught up by a hurricane in the canyon of Uri, one day last month, and carried through the air a space of two leagues. Her body was found some days after, with all her bones broken.

Offish all notice.—The shad season commenced at New York on Monday last. \$1 each!

Another Humbug Exploded.—Ogle and his speech have been fully exposed, we observe that some of the whig papers are now calling for an organization of the militia as a preparation for war, and a writer in the Journal of Commerce vouches for as "a whig of the first water," in writing upon the subject remarks that Mr. Poinsett's plan is good in its main features and has only to be understood to be approved. So they go—a little time doubtless, every thing proposed under Mr. Van Buren will be regarded as "good in its main features."—Was there ever an administration so completely and evidently LIED down?
Pennsylvanian.

A Political Judge.—Will John Banks, the whig candidate for Governor, resign his Judge-ship, or will he still hold on and he what a certain whig paper calls that "worst of all curses, a political Judge?"

MYSTERIOUS PROFESSIONS.

'New Tom,' said the printer of a country newspaper, in giving directions to his apprentice, 'put the "foreign leaders" in the galley and lock 'em up—let "Napoleon's remains" have a larger head—distribute the "army in the East"—take up a line and finish the "British Minister"—make "the young Princess" to run on with "the Duchess of Kent"—move "the Kerry hunt" out of the chase—get your stick and conclude "the horrid murder" that Joe began last night—wash your hands and come to dinner, and then see that all the pie is cleared up.' Some printers are devils—and no mistake.

From Florida.—News from Palatka to the 14th inst. has been received at Savannah. A letter says: "Capt. Kerr, 2d dragoons, a day or two since took twenty-one Indians, with their chief, Koxa Tustanugee. Twenty old Indians came in, a few days ago at Fort Fanning, and gave themselves up. Wild Cat has been in at Tampa, and gone out to bring in his people, and letters to-night say that ninety men were sent out on the 11th to escort ninety old warriors on their way in. About four hundred Indians are already at Tampa, waiting to be shipped." The old city of the war being over is again reiterated by the letter writers. Give Colonel Harney, Captain Bartram, Lieutenant Albertis, and a few more spirits like them, half a chance, and they will end the war, but we doubt whether negotiation will ever bring peace.

Lowell Manufactures.—From a statement in the Lowell Advertiser of Friday last, we extract the following interesting statistical facts: The number of mills in operation is 22, exclusive of print works, &c., capitol employed, \$10,600,000; females employed, 6,920; males, 2,172; total number of operatives, 9,092; tons of coal consumed per annum, 11,660; cords of wood, 2,410; gallons of oil, 65,289; yards of cloth made per annum, 65,802,400; pounds of cotton consumed, 21,424,000. (A pound of cotton averages 32-10 yards, and 100 pounds of cotton produces 80 lbs of cloth); consumption of starch per an. 600,000 lbs; consumption of flour for starch in mills, print works and bleachery, per annum, 3,000 pounds; consumption of charcoal per annum, 500,000 bushels; average amount of wages per month, \$170,000; average wage of females, clear of board, \$2 per week; average wages of males, clear of board, 80 cents per day. In addition to the manufacturing establishments included in the above statement, the city contains—the Lowell Water-Proofing Company; the extensive powder mills of O. M. Whipple, Esq. the Lowell Bleachery, with a capital of \$50,000; flannel mill; blanket mill; batting mill; paper mill; card and whip factory; plating machine; reed machine; foundry, flour grist and saw mills;—together employing about 400 hands, and a capital of \$400,000. The locks and canals' machine shop, included among the 32 mills, can furnish machinery complete for a mill of 5000 spindles in four months, and lumber and materials are always at command with which to build or rebuild a mill in that time, if required.—When building mills, the Locks and Canals Company employ directly and indirectly from ten to twelve hundred hands.—*N. Y. Sun.*

Swapping Wives.—Two men married sisters lately, in New Hampshire, and after a lapse of a short period made an exchange of wives, the interested ladies made no objections. One husband gave the other a valuable horse, carriage and harness, 'to boot.' The one who received the 'boot,' disposed of his horse for nearly one hundred dollars in cash, but in a short time she lost his wife in with a person whom she loved more than her own husband, and believing it was now her turn to exercise the glorious right of 'free trade,' quitted 'her bed and board,' and ran away with her paragon.

THE MISSOURIAN.

We paid a visit, says the New Orleans Bee, a few days since to the skeleton of the gigantic animal to which this name has been attached, as commemorative of the spot where it was discovered. It is difficult for the imagination to conceive the size and proportions of the monster whose existence is indubitable attested by these stupendous relics—a creature, half elephant, half crocodile, of such colossal stature that the largest living specimens of animated nature, shrank into Lilliputian dimensions when contrasted with its wonderful bulk. A mammoth, to whose daily food the monsters of the deep must have contributed, and whose insatiable maw could only have been glutted by the depopulation of the country which it infested. The history of this marvellous creature is buried in oblivion, or only preserved in the dim and shapeless fragments of Indian tradition; and yet to the naturalist and man of science, its study is a source of profound instruction and information, as its habits, food, mode of existence and the probable period when it roamed the prairies of the west, and raised its huge form above the waters of our largest streams, may all be either satisfactorily determined or approximately deduced from an examination of its bony carcass.

The N. Eastern Boundary report of the Legislature of Maine, proposes to call upon the Federal Government, forthwith to repel the existing invasion of the State, and if necessary to secure us against future invasion, to take military possession of the disputed territory.

Canada Elections.—The Union, or Tory party, have succeeded in the late election and will have an imposing majority in the new Parliament of the United Canadas.

Great Postage.—The Caledonia brought 25,000 letters, which is 5,000 more than was ever before received at that port by one vessel. The postage on letters to New York, alone amounted to \$1,992.

One Hundred Thousand Bibles have been printed in Spanish by English agents, and circulated in Spain, since September last.

Appalling.—There are two hundred and six distilleries in the State of New York, which annually produce 2,619,110 gallons of liquor.

The Twenty-Seventh Congress.—There are eleven States which have not elected their representatives to the Twenty Seventh Congress, and the election of some of them will not regularly take place until after the day fixed for the Special Session. In such cases the Governors, we presume, will take care that their respective States shall not go unrepresented.

The Ohio River, at Cincinnati; on the 18th ult. was in fine navigable order, there being 20 feet water in the channel between that city and Louisville.

Durable Whitewash.—To make white-wash durable and prevent it from cracking, the water in which the lime is mixed, should be fully saturated with salt, before the lime is put in.

Kingly Reform.—The King of Hanover is astonishing his loyal subjects by his retrograde reformations. He has established flogging in the army, and has legalized the practice of duelling.

Temperance in Ireland.—Four million six hundred thousand persons have taken the temperance pledge in Ireland.

More Motive Power.—A model ship, propelled by an air pump, is now exhibited in New York, and is said to work well.

Aerial Mail Route.—A Mr. James C. Patton advertises in the Baltimore Clipper that he has devised a balloon that will navigate the air in any direction at the rate of 100 miles per hour. Oh!

The Temperance Societies of Philadelphia city and county have been joined by four thousand three hundred persons within the last three months. The total number belonging is about 17,000 persons.

HYMNICAL.

MARRIED—On the 25th ult. by the Rev. William J. Eyer, Mr. GIDEON GEARHEART, to Miss MARY ANN NUSS, both of Millin.

On the 28th ult. by the same, Mr. WILLIAM CIBERLING, of Lehigh county, to Miss MARGARET CARP, of Cattawissa.

On the 13th ult. by Esq. Kale, Mr. WESTON S. C. HARVEY, of Fairmount, to Miss ELIZABETH HENDERSHOT, of Fishing Creek.

NOTICE

IS hereby given, that on the first Monday of June next, a special Court of Common Pleas will be held at Danville, in and for Columbia county before the Honorable A. F. Parsons, President Judge of the 12th Judicial district of Pennsylvania, and the associate Judges of Columbia county, in pursuance of the provisions of the 37th and 39th sections of the act of General assembly passed the 14th day of April, 1834; for the trial of a certain action wherein the West Branch Bank at Williamsport is plaintiff, and Thomas Moorhead, jr. is defendant, of which all officers and others interested will take notice.

NO. FIVE
OF THE SEMI-MONTHLY.

NO. five of Roberts' Magazine was published and ready for sale promptly on the morning of the 15th inst. It is a highly interesting number and looks, as usual, as neat as a pin. The reduction of the retail price of the Magazine from ninepence to EIGHT CENTS works admirably. Only look at it! A handsome well printed book of forty large pages with an extra thick and durable cover, containing the choicest gems of the American and English Magazines, together with a fine ENGRAVING.

For only Eight Cents a Copy.

This must certainly be pronounced the climax of cheapness. It throws all the other Magazines in the country, in point of cheapness, in the shade. Persons desirous of purchasing the back number of the Magazine, can now be supplied (as No. 1 has been reprinted) by calling at the Counting room or sending their orders to us post paid. Subscription price—\$2.00 per year. Five copies for \$5.00. Ten copies for \$15.00. March 27, 1841.

UNION HALL.

Equal to any—Second to none.

THE Subscriber informs his friends, and the public generally, that he is now, not only the occupant, but the proprietor of the **LARGE AND COMMODIOUS THREE STORY BRICK BUILDING**

IN DANVILLE, Pa.

Known as the "UNION HALL," and has made and completed an addition to the building which gives him the most airy, spacious, and pleasant rooms of any Hall in the place; and he is determined that the improvements and additions to his House shall keep pace with the growth and importance of the town in which it is located, and that it shall be second to none. The house has been thoroughly repaired, and furnished in a manner which he feels confident will give satisfaction to customers. His TABLE will always be furnished with the choicest and best, and his BAR will be supplied with the purest liquors. His stables are always well supplied with good provender, and attended by a careful Ostler. His long acquaintance with the business of keeping a public house, together with a determination to use every means to render satisfaction, induces him thus publicly to encourage his old friends to continue their calls, and invite the public generally to give him a trial, and judge for themselves, as he is determined that the Union Hall shall be kept in as creditable a manner as any house in Northern Pennsylvania.

TO PHYSICIANS, CABINET MAKERS, &c.

The patent right for the Manufacturing and Vending

ENGEL'S PATENT SOFA,
AND SOFA BEDSTEAS,
For Invalids and also the patent right of

ENGEL'S PATENT BEDSTEAD

are offered for sale for the counties of Schuylkill Columbia: The former are admirably adapted for the use of Invalids and bed ridden persons. The latter are adapted for hotels, being so constructed that they may be put together and taken apart, in less time than bedsteads now in use, and will cost no more to manufacture than the common bedstead. The right will be disposed of, for either of the above counties, for Townships, Towns, Shops, or single right. Persons wishing to purchase rights may obtain every information upon application at Brady's Hotel, Danville, where specimens can be seen.

The following recommendation is from Doctor George McClellan, of Philadelphia.

An ingenious invention for invalids.

Messrs. Engel & Connor, of the borough of Easton Pa. have invented a Sofa for the use of bed ridden patients, which has met with the approbation of our Medical faculty; and which we think ought to be introduced to the notice of the public. It combines all the advantages of a Sofa for parlors, and a moveable bed, for the support of invalids. By the ingenious applications of hinges and cranks it is capable of raising the patient to every desirable change of position without exciting the system, or disturbing any injured part. I have procured one of them, and I shall seize the first opportunity of introducing it to the attention of my friends in practice; and I feel perfect confidence in recommending it to the patronage of our profession.
