

FOR PRESIDENT,  
**JAMES BUCHANAN.**  
Subject to the decision of the National Convention.)

**RHODE ISLAND.**  
A large number of arrests of the suffrage party has taken place, and an examination of prisoners is going on daily. Several have been discharged while others have been committed for trial for high treason. The charter party having conquered the suffrage men, are now taking their revenge very coolly, by imprisoning them without mercy. It is said that several hundred have been thrown into the prison, where they suffer severely from their crowded state. Governor Dorr has fled, and supposed to have gone to Canada.

**THE TREATY.**  
Alluding to the rumoured Treaty, the National Intelligencer says—"We are afraid that the news is not only premature, but that there is a possibility of its not becoming true at present. Certain it is, that rumor represents the settlement of one at least of the questions between Great Britain and the United States to have been found so difficult as to leave a doubt whether it can be considered probable."  
The New York Tribune says that two or more of the mills at Lowell have been stopped, and that between 2000 and 3000 factory girls have been thrown out of employment.

The Whig papers of Philadelphia, are all out for Mr. Clay, for the next presidency. The *Spirits of Times*, Democratic, advocates Commodore Charles Stuart, for the same high station,—the *Pennsylvanian*, seems to be in favor of Mr. Buchanan and the *American Sentinel*, publishes Tyler proceedings and eulogises President Tyler without avowing itself in favour of any body in particular for the Presidency. There is no Scott or Johnson paper in Philadelphia.

**Have a come—every thing coming down.**  
—It is estimated that there are mechanics out of employ—2,000 in Philadelphia; 3,000 in New York; 1,000 in Boston; 1,500 in Baltimore, and 5,000 in all the large towns on the Atlantic in all, nearly 19,000 out of employ. This embraces those discharged by the Government. Wages are also coming down—prices coming down—pride coming down—impudence coming down.—*N. Y. Herald.*

Great excitement prevails at Minersville among the miners. It appears that the workmen have turned out and refused to work or let any of their comrades do so. The Pottsville military has been called into service, and the sheriff and the Priests have aided to allay the turbulent feeling. The last meeting held by the miners, numbered eight hundred men. An attempt has been made by the proprietors of the mines to reduce the wages of the workmen.

Another account of the disturbances among the miners at Minersville, states that on Friday and Saturday last about 1600 men had taken up their station on Primrose Hill and manifested a disposition to proceed to violence if their demands were not complied with. To make their employers pay cash to them for their wages instead of orders on stores. These stores, it seems, are owned by the employers themselves and for the goods thus received the miners have been compelled to pay about two prices. The employers a greed to comply when another difficulty took place. The workmen then struck for higher wages, which the proprietors refuse to give, and thus matters remained. The wages of the miners has been from \$4 to \$5 per week.

Two persons went to law in Middlebury Vt., about some rotten eggs, which were sold for good ones. It was carried from one court to another, until the costs amounted to \$4000, or in other words the sheriffs, lawyers and judge sucked the yolk, and the parties carried away the shells.

**Great Emigration.**—The New York Americans says that letters received from the continent of Europe announce the coming of thousands of Germans to the United States. One letter states that 20,000 are about to embark from one district, and that rage for emigration pervades the whole of Germany and Holland. The only event that can possibly prevent the coming of these masses of emigrants, is the want of vessels. An immense army of emigrants are on their march into France to embark at French ports. In confirmation of these reports, we extract the following from a French paper, published in Paris, noted for the accuracy of its statements.

**Emigration from Germany.**—Whole villages including the rich as well as the poor; are emigrating, says a letter from Mentz, from Germany to North America. Three of those in Upper Hesse have, within a few months been entirely abandoned, and several in Rhenish Prussia are preparing to follow the example. A short time ago the whole population of one of these villages passed through Mentz on its way to America, accompanied by its pastor and school master.—*Galvani.*

**Fatal Accident.**—At Cincinnati, a few days since, a barouche containing two men and three or four young ladies was precipitated into the Ohio river, from a ferry boat, by the horses taking fright and rushing overboard. A crowd gathered, but some moments no one had the courage to attempt the deliverance of the individuals from their perilous conditions, till two young mechanics, named Ferdinand Ferrille and Wm. Whigham, jumped into the flood, and succeeded in rescuing the females with the exception of a Miss Henrietta Smith, a young lady aged 15, years who was drowned. The driver narrowly escaped. The two horses were drowned. The body of Miss Smith was recovered about two hours after the accident, and from several bruises on her body she had doubtless been struck by the horses while under the water.

**Immense Emigration.**—The New York papers state that upwards of 30,000 emigrants have already arrived at that port since the commencement of the season. There are now a large number of vessels at the Quarantine full of passengers. It is supposed there will be 80,000 arrivals this season. One thousand seven hundred and seventy eight passengers arrived on Thursday week.

Lieutenant Wilkes is about to publish, with the consent of the government, a history of the Exploring Expedition.

Place several small pieces of camphor gently in basin of pure water, and with a red hot wire ignite them as they float, lumps will shoot about comical antics, exhibiting a lively dance of fire balls.

**TO TEMPERANCE SOCIETIES.**

John S. Ingram, Esq., Editor of the Harrisburg Washingtonian, proposes to furnish that paper (and it would be superfluous for us to say that it is one of the best engaged in that glorious cause,) to Societies, on the following terms in advance;—

**Hon. C. F. Mitchell.**—This distinguished personage it seems has some how or other come back from Ohio to Philadelphia. He was arrested there at the Merchants Hotel, on Saturday evening, and taken down to Moyamensing. The Honorable gentleman we are told is to go immediately to New York, where his sentence awaits him.

**Sheep.**—The number of sheep in this country is estimated at thirty-four millions—one fifth of which belong to New York. A 'guess' at the product fixed it at ninety millions of pounds of wool.

**Snow.**—The mountains in the vicinity of Schoharie, N. Y. white with snow on the morning of the 27th of June and much injury was done by the frost to corn and vegetables.

The New York Canal tolls to the 1st of July are \$105,000 less than for the same period last year!

Miss Gaylord, a young lady of Hadley, Mass, was burit to death on the night of the 10 inst., in consequence of indulging in the dangerous practice of reading in the bed.

The Mechanics Bank of Philadelphia, one of the suspended banks, has resumed specie payments in full.

**Treasury Notes.**—The amount of United States Treasury notes outstanding on the 1st of July, was \$9,077,000 05.

On Sunday, the 8d instant North Stamford during the exercises of the sacramental feast the Preysterian church was struck by lightning, and the Rev. Buffet and Rev. Henry Fuller prostrated to the earth, Mr. Buffet was very seriously injured, Mr Fuller less so, but both have recovered.

An intemperate fellow named Joel Hotchkiss, of Guilford, Ct, shot his wife with a gun, a few days since, with intent to kill her, but the charge lodged in the leg. A few years since he was tried for the murder of his first wife, but escaped through informality.

A young maned William Roberts, of Elkton, Maryland, arose in his sleep a few nights since, and walked off a high porch, by which he broke his arm, and otherwise injured himself.

**Equivocal.**—'Boy; who do you belong to?' asked a gentleman the other day as he stepped on board of a steamboat, and saw a 'darky' listlessly leaning on the guards. 'I did belong to Massa William, sir, when I came aboard; but he's been in de cabin playing poker wid de captain 'bove an hour, I don't know who I blong to now.'  
[N. O. Pic.]

Emigrants arrived at Quebec this year to July 2nd, 27, 657. To the same date last year, 19,707. Increases, 8,950.

One-eighth of the population of the town of Kendal, England, are said to be paupers.

At the Second Advent Meeting recently held at East Kingston, N. H., it was decided that the world would end on the 8th day of April, 1843.

Wheat is estimated at 33 per cent better through the country, than it was last year. There is no danger of starvation!

**Good.**—The law of Maryland, taxing the Brokers \$3000 per annum, went into effect a week or two since. All the pirates shut up shop, and hauled in their signs. They talk of testing the constitutionality of the law. So might a thief test the 'constitutionality' of the law by which he is sent to the tread-mill; but it would n't do much good.

An Extra of the St. Louis Republican of the 3d inst., contains a statement of a dreadful accident which we give below.

The Edna landed at the mouth about one o'clock this morning. The Iatan was lying there, and the Edna landed on the outside of her, and laid in such position that it was difficult for the Iatan to get away from the shore. However after a little trouble, the Iatan got under way, and had run three or four hundred yards, when the Edna shoved out from the shore. Her bow could not have been more than one hundred feet from the shore when she collapsed her flues. Her engine had been working out of gear full a half hour, and had not been stopped more than ten minutes at the very outside.

The number of wounded is sixty three, mostly Germans. Some two or three were blown into the river and saved, and it is supposed that two or three others were lost. The Cabins of the Edna and Iatan are filled with wounded, and they are receiving every attention from the passengers and others, that can be bestowed upon them.

As soon as the accident happened the Iatan dropped along side the Edna, and towed her to the Illinois shore, where the Anawan took her in tow, and the Iatan proceeded to St. Louis with the wounded.

The Edna was bound up the Missouri with full freight. She has been towed in by the Anawan.

Not a single cabin passenger was injured. Two or three only have died, though it appeared almost impossible that several of them can recover.

A number of men and woman appeared to be literally skinned. The whole force of the steam was thrown aft, over the deck passengers as they slept.

Hon. B. A. Bidlack has published his speech in behalf of the Wyoming claimants, made some years since, in pamphlet form.

It is not likely that Congress will adjourn before the time for annual meeting in December next—and then they continue right on. Had they not better resolve themselves into a permanent body, like the council of Five Hundred, and thus save the trouble and expense of elections?

**Extraordinary Phenomenon.**—We are told by a gentleman from New Jersey, that the Highlands of the Neversink in that State near the Highland lights have been gradually sinking since last Thursday, and that in some places they have already settled ten feet. The soil in that place is mostly sand and gravel.—*N. Y. Sun.*

At Jersey City, on Wednesday morning, a man named Cook, whilst engaged in firing cannon on the occasion of the demise of Senator Southard, had both his hands blown off by an accidental discharge. Another man was injured slightly.

We have engaged the assistance of several of our most distinguished literary men, both by making selections, and furnishing original articles, and such a rigid censorship will be exercised in making the sheet, that nothing unworthy of being cherished and preserved, will find a place in its columns.
