

at Mr. Shriners, at Northumberland, and clandestinely transacted the business of choosing a site for the location of the county buildings.

And now let me ask, what course V. Best has taken with regard to local matters in this county? Has he ever wished to make the removal question a test point at any election? No—but on the contrary he has ever labored to blind the eyes of men in this part of the county, by the promise of office, and if the removal question was mentioned, he has been struck with surprise, that the people should think of such a thing, as it was only a whig measure, and got up for a political hobby upon which the bankite wished to ride into office, and in this way, year after year have we been cheated by the opposers of removal.

But of late, the people of this part of the county, have resolved that they would no longer employ Mr. Best to think for them but have gone to thinking for themselves, and this Mr. Best found to his cost, the last visit he made up to this part of the county. And now all the friends of removal have to do, is to stand shoulder to shoulder, and use none but fair and honorable means, and we shall see the removal ticket elected by at least one thousand majority. And this our Danville friends may rest assured of, for Mr. Best in his last visit in this part of the county, in drawing the card of dictation closer, broke the magic instrument, and instantly the spell which has long bound many an honest mind in error was dissipated and the mask fell and disclosed all the unrighteous proceedings of the division party in their native ugliness. And now removal is the watch word of the day. The motto which we inscribe upon our banner, and let it float to the breeze of heaven. It is that which cheers the farmer while at his plough. It is that which animates the mechanic at his occupation, and urges him on to an increased attention to business in these dull times.

Removal from office of all negligent and unfaithful public servants in whatever state they may be found.

Removal of ignorance and prejudice from the minds of men, that they may see the light of truth and justice.

Removal of the county seat of this county from Danville to Bloomsburg or some more central point. And Removal of Felty Best from the office of Dictator of Columbia county. These are the Removals that I go for.

DIVISION CANDIDATE

FOR ASSEMBLY,

RICHARD FRUIT.

At the head of our paper we have placed the ticket formed at the Removal and Anti-Division Convention, on Monday last, and we are gratified to learn that it gives universal satisfaction of

DANIEL SNYDER, the candidate for Assembly it is unnecessary for us to say a word. He has represented the county for the past two years, and with what unflinching fidelity he has performed his duty to his constituents is known to all. He now suffers himself to be again

a candidate at the urgent solicitation of his removal friends, that he may carry out the work he so nobly commenced last winter,—effectually destroy the division project and bring about a removal of the seat of justice of the county, a measure so earnestly desired by a large majority of the citizens of the county. Of his election their cannot be a shadow of doubt, if his removal and anti-division friends do but their duty.

JOHN B. EDGAR.

the candidate for Commissioner, is every way qualified for the office. He is a good mechanic, a good citizen; and will make a good Commissioner.

JOHNSTON IKELER,

is a worthy respectable farmer, well qualified for the station for which he is a candidate. He will protect the interests of the county by seeing that the accounts of the offices are correctly Audited.

The candidate for Prothonotary.

JACOB EYERLY,

requires no recommendation at our hands. He is well known for his prompt business habits, and correct manner with which he has heretofore performed the duties of the office. He will be elected.

CHARLES CONNOR,

the candidate for Register and Recorder, is a young man, of prompt energetic, business habits, a good penman, and a ready copyist and with all a good removal man. His election is certain.

We have never witnessed a county convention where more union and harmony of feeling prevailed, than at the Removal convention on Monday last. Every delegate appeared to feel the importance of a union among all the real friends of the county, to effect a removal as the only preventative of that worst of all curses that could befall the county, a division. Upon this feeling every member acted. It was not whether this or that man was to be placed upon the ticket, but what was best calculated to bring about the object for which all felt a deep and anxious solicitude, that actuated them in their deliberations. This feeling produced the ticket placed at our head, and this same feeling among the people will elect it with an overwhelming majority. A majority that shall hereafter put down all opposition to the glorious cause of "Equal Rights" and "Exact Justice," and make the Danville faction do what they promised they would do at Harrisburg, last winter, should Daniel Snyder be re-elected, 'give up the contest.' We call then upon every real friend of the best interest of Columbia county, to give their vote for Daniel Snyder and thus give "a long pull, a strong pull & a pull altogether," that justice may take place, and keep little Columbia, what she now is, a good little county.

It will be perceived by the proceedings of the county convention that Daniel Snyder is recommended as a candidate for the Legislature in favor of a Removal and opposed to Division. It is but an act of justice to Mr. Snyder, that he should be sustained by the twenty-eight hundred voters in the county who petitioned for the Removal, and instructed him to advocate it. He procured the passage of a bill through the house, leaving it to the people to decide this question among themselves. It was opposed by the Danville people, because they knew that a majority of the county were against them. They were unwilling that a majority should govern and are determined that the rights of the majority shall not be respected. Then let the friends of removal rally around Mr. Snyder, and say to him, 'well done, thou faithful servant,' by giving him their votes and ratifying the course he pursued in the Legislature in compliance with their instructions, and our word for it, the Danville and Berwick gentry will have a hard task next winter to procure a division, or prevent a removal.—They know it well, therefore they will not stop at any thing that intrigue and misrepresentation can effect to defeat him.

BE ASSESSED.

The law requires that every man should be Assessed, at least TEN DAYS before the Election to entitle him to a vote. See to it, and have your names entered on the Assessors books in time.

We were presented the past week with a Tomato, by Mr. E. Armstrong, weighing two pounds, and measuring eighteen inches in circumference. Beat this who can.

CONGRESS

Adjourned on Wednesday last after a session of about nine months,

The division convention was held in this place on Monday last, and after a good deal of cutting and carving of delegates, they passed a resolution placing in nomination for Assembly, Richard Fruit, of Madison, so that, if he was elected; he might assist Senator Headley in cutting and carving up the county to his "heart's best." The people of the county now have two candidates for the Legislature before them. Daniel Snyder pledged by his acts, and his word to oppose division, and Richard Fruit, pledged by his connection if not by his word, to sustain division. Choose ye between them, and thus give your vote for or against division.

THE TARIFF BILL.

Has passed both houses of Congress and has been signed by the President. Both of our Senators voted for it.

We are glad to learn that our old friend Col C M Strang, of Schuylkill county, has been nominated for re-election to the Legislature. There can be no doubt of his election.

THE LATE TREATY.

It appears that the late Treaty was objectionable, and justly so, we conceive, because it did not settle all the questions now agitated by the two countries. It is rumored that a sort of apology is made for the Caroline massacre, and we observe that England yields the right of search. Still the other questions remain unsettled. This was a just cause of opposition to the Treaty.

Reward of Merit.—Queen Victoria has sent six gold medals, bearing her portrait, to be presented to the commanders of several U. S. vessels, in acknowledgement of the services rendered by them in saving the lives of British seamen.

ELECTIONS.

ALABAMA.—Forty-two out of forty-nine counties in the State have been heard from. The Mobile Register says that the Democratic majority in the Legislature on joint ballot will be from 40 to 45.

NORTH CAROLINA.—The Raleigh Register of the 19th inst. has complete returns from all the counties in the State, as to the result of the election of members of the Assembly. The Democrats have a majority of 24 on joint ballot. The returns for Governor are not yet complete.

KENTUCKY.—All the counties in the State except two are heard from; The lower House of the Legislature will be composed of 58 Whigs, and 40 Democrats. The Whigs will have about 30 majority on joint ballot.

INDIANA ELECTION.—The Indiana State Journal, of the 16th inst. published the names of every Senator and Representative elected in the State; but says that the official returns from all the counties have not yet been received. The aggregate result follows:

	Dem.	W.
Senate (including members holding over from last year)	21	29
House of Representatives	59	43
	78	71

Democratic majority, 7. There is 'a tie' in De Kalb and Steuben—which counties elect one member to the House of Representatives.

We will publish the official returns when received, for future reference.

IOWA ELECTION.—The last Gazette from Burlington, Iowa, comes out in flying colors, at the result of the election in that Territory. In Dues Moines County, the Democrats have elected three Representatives, one member of the Council, Sheriff, Treasurer, Judge of Probate, &c. The House of Representatives it is supposed will stand 14 Dem. to 11. Whigs, and a majority of one Dem. in the Council.

The damage at Washington by the late flood is estimated at \$15,000 or \$20,000.

Wheat is arriving briskly at Zanesville, and sells at 50 cents per bushel.

The House on Thursday passed a joint resolution, declaring that no member shall be paid for the time he may be absent, unless from sickness. Of course it cannot become a law unless the Senate agree to it.

The Danville Democrat states that on Monday of last week, the horse attached to the dearborn of Mr. Lindner, took fright in Washingtonville, and upset the vehicle, in which were Mr. Lindner, his wife and child, his mother-in-law, and Mrs. Wagoner of Turbutville. The man and his wife had their legs broken, and the child's skull was severely fractured.

A DEFALCATION.

A letter from New Orleans, published in the New York Union, states that the deficiency of Simson O'Callaghan, the first teller of the Atehafalaya Bank, is \$294,000 that sum being the amount of issues delivered to him by the Cashier which he had not entered in the ledger.

Remember THE WATCHWORD, Removal AND No Division.

Important from Mexico.—Tempest in Teaport—John L. Dorsey, Esq., bearer of despatches from Mexico to our Government; arrived at Savannah last week having left Vera Cruz on the 17th ult.

The despatches are of a very important character in relation to our difficulties with Mexico. Great excitement prevailed towards the government of the United States. A violent and inflammatory proclamation was issued the day before Mr. D.'s departure, calling upon the citizens to unite and resist the aggressions of the U. States, denouncing our citizens as thieves, scoundrels, &c.

The whole of the late Texan prisoners were at Vera Cruz, waiting for a vessel to convey them to Galveston.

The Mexican army amounts to 50,000 effective men, and was constantly on the increase; upwards of 20,000 had been ordered to the invasion of Texas. The Mexican navy also had been increased. The government has purchased two war steamers in England.

Mr. Webster's letter in reply to Mr. Bocanegra had not arrived. Mr. Bocanegra has resigned his seat in the cabinet, and was succeeded by Mr. Alaman. There were other hostile indications towards this country.

Important from Texas.—The New Orleans Picayune has received Galveston papers to the 6th inst., which give the particulars of a projected campaign across the Rio Grande, authorized by the executive. The services of thirteen hundred men are to be received—they are to elect their own officers—and have permission to levy contributions upon the Mexican towns for their support.

The Picayune says; after the above was in type, we met a gentleman who had received a letter from Galveston, informing him—on the authority of Col. Cook—that every merchant vessel in the port of Vera Cruz, some fifteen or twenty, had been pressed to convey Mexican troops to the number of 7000 to Yucatan—as was said, but it is surmised their destination is the city of Galveston. If this is so, and we cannot doubt it, a serious 'flare up' may be soon looked for.

Indictment for High Treason.—The grand jury at Newport, R. I. found bill, of indictments for high treason, against Thomas W. Dorr, Dutee J. Pearce, Joseph Joslin, Daniel Brown, Seth Luther, Nathaniel N. Carpenter, John Pain and George Frisell. They were arraigned on Friday, and trial will commence this week.

A SHOCKING DEATH.

A young man, named William Shoemaker, of Fruitstown, Columbia county, was, as we learn from the Danville Democrat, killed on the 18th inst. in the following shocking manner. He went to the stable, after dinner for the purpose of harnessing the horses: One of them being of an unruly kind, it is supposed he had some difficulty in bridling him, whereby his foot became fastened to one of the traces. The horse then ran out of the stable dragging the unfortunate young man after him at full speed for above 600 yards before he was caught, over a pile of logs posts, &c. fracturing his skull, and lacerating his face in a dreadful manner, so much so that he never spoke afterwards, and expired in in about one hour. His father and brother were witnesses to the scene.

INCENDIARISM.

Two Bridges Burnt.—We learn that two bridges over the Schuylkill, just above Laurel Hill, were destroyed by fire between 12 and 1 o'clock on Friday morning. The first belonged to the Reading Railroad Company, while the other, just below, was; we believe a County Bridge, recently negotiated for by a private company, but generally used by the public. The fire was first discovered by a woman in the toll-house of the Old Bridge, and the alarm had scarcely been given before the other caught. It is believed that the first bridge was set on fire and that turpentine and tar were employed. Some of the boatmen are suspected, and a reward of \$1000 has been offered by the Company for the offenders. The watchman on the Railroad Bridge made an effort to stop the progress of the flames, as did many of the citizens who hastened to the spot. Indeed, a number of persons from Germantown hurried to the scene. The fire produced a great light, and presented a splendid appearance. The Company state that the injury sustained is to the extent of \$12,000, and that the detention of trade will be but temporary.

There has been a great religious revival in Cecil County, Md.

The treaty adjusting our difficulties with Great Britain has been ratified in the Senate by a decisive vote.

IMPORTANT WORK
NOW IN COURSE OF PUBLICATION

A DICTIONARY OF
ARTS, MANUFACTURES AND MINES.

Containing a clear exposition of the Principles and Practice,

BY ANDREW URE, M. D., F. R. S. & C

ILLUSTRATED with

1241 ENGRAVINGS,

This is, unquestionably the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of community. The following are the most important objects which the learned author endeavors to accomplish:

1st. To instruct the manufacturer, metallurgist, and Tradesman, in the principles of their respective processes, so as to render them, in reality, the masters of their business, and to emancipate them from a state of bondage to such as are too commonly governed by blind prejudice and a vicious routine.

2dly. To afford Merchants, Brokers, Drysalers, Druggists, and Officers of the Revenue, characteristic descriptions of the commodities which pass through their hands.

3dly. By exhibiting some of the finest developments of Chemistry and Physics, to lay open an excellent practical school to students of these kindred sciences.

4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of industry, to select, judiciously, among plausible claimants.

5thly. To enable gentlemen of the law to become well acquainted with the nature of those patent schemes which are so apt to give rise to litigation.

6thly. To present to Legislators, such a clear exposition of the staple manufactures, as may dissuade them from enacting laws which obstruct industry, or cherish one branch of it to the injury of many others.

And lastly, to give the general reader, intent chiefly on Intellectual Cultivation, views of many the noblest achievements of science, in affecting those grand transformations of matter to which Great Britain and the United States owe their paramount wealth, rank and power, among the nations of the earth.

The latest statistics of every important object of manufacture are given from the best, and, usually, from official authority, at the end of each article.

The work will be printed from the 2d London Edition, which sells for \$11 a copy. It will be put on good paper, in new braver type, and will make about 1400 8vo. pages. It will be issued in twenty-one semi-monthly numbers, (in covers,) at 25 cents each, payable on delivery.

To any person sending us \$5 at one time in advance, we will forward the numbers by mail, post paid, as soon as they come from the press.

To suitable Agents, this affords a rare opportunity as we can put the work to them on terms extraordinarily favorable. In every manufacturing town, and every village throughout the United States and Canada, subscribers may be obtained with the greatest facility. Address, post paid, D. Appleton & Co. 200 Broadway, New York.

To every editor who gives this advertisement entire 12 insertions, we will forward to order, one copy of the whole work, providing the papers containing this notice be sent to the New York Watchman New York.
