

lected by the democrats, but is taking a conservative in principle. It is more than probable, therefore, that the next Senate will stand: 20 demo. 12 whigs; 1 con.

Then follows a list of counties in which are elected 47 democrats and 23 whigs.

The counties not embraced in this list, were represented in the last session by 20 democrats 10 whigs. Allowing something for reverses, therefore, we have no doubt of a democratic majority on joint ballot of from twenty to twenty five! Glory enough for this year.

The Philadelphia Saturday Chronicle United States and Saturday Evening Post, three valuable miscellaneous weekly papers have been united; and will hereafter be published under the title of "United States Saturday Post and Chronicle."—As the circulation of these three papers is something like 100,000, the proprietors will be enabled to present one of the most valuable papers in the Union.

The election now being over we shall now have more leisure to attend to our paper, and we shall endeavor to make it as interesting to the general reader as any other paper in the county. Should our friends give us the requisite encouragement we intend in a short time to increase its size, and give it a new dress.

The election in Maryland has terminated favorably for the democratic party. The house of delegates consists of 46 democrats and 35 whigs, and the senate 8 democrats and 13 whigs, giving a majority of 6 democrats on joint ballot. This will ensure the election of a democrat as United States Senator at the next session of the legislature in the place of J. L. Kerr, (whig) whose time expires in March next.

**How to make Money.**—The Picayune thus instructs its readers, and people generally:—Let the business of every body else alone, and attend to your own. Don't buy what you don't want. Use every hour to advantage, and study to make even leisure hours useful. Think twice before you throw away a dollar, remember you will have another to make for it. Find recreation in looking after your business; and so your business will not be neglected in looking after recreation. Buy low, sell high, and take care of the profits. Look over your books regularly, and if you can find an error of a cent, trace it out. Should a stroke of misfortune come upon you in trade, retrench, work harder, but never 'fly the track.' Confront difficulties with unflinching perseverance, and they disappear at last. Though you should even fail in the struggle, you will be honored; but, shrink from the track, however, you need not say fail. Pay debts promptly, and so exact your dues. Keep your word. Take the paper.—Advertiser.

**Duelling.**—Public opinion appears to be strengthening itself again the mode of settling difficulties. WESS has been reduced to the level of LILLY, by the Grand Jury, who have found bills of indictment against one for beating a man to death with the fist, and the other for attempting to kill his antagonist with a pistol. Argument against duelling is unavailing. The most efficacious method of dealing is to point the shaft of satire, to enforce the laws.—Honor supports itself on public opinion, and is keenly sensitive to ropes and ridicule. The affair at Rochester was a hit, and so appears the following, as described in Capitoline: Two young men, at Columbia, in this State, determined to settle a dispute about some fair lady, by an appeal to arms. A challenge was given and accepted; the parties met with pistols, took aim, fired at the same instant, and one fell, bathed in blood, poured from a bottle of pokeberry juice by his waggish second.—Trade Register.

**THE CROTON AQUEDUCT.**  
The New York Tribune gives the length of the Aqueduct as 41 miles; capacity of the Distributing Reservoir 21,000,000 gallons; capacity of the Receiving Reservoir 150,000,000 gallons; available capacity of the Croton Lake Reservoir 500,000,000 gallons. Discharge in 24 hours 24,000,000 gallons; width of the Aqueduct tube 7 feet 5 inches; depth 6 feet 6 inches; descent per mile 13 1/2 inches.

Nancy Owens, of Canonsville, Delaware co. N. Y. received \$900 at the recent Circuit Court in that county, of Dr. S. A. Cottrell, for a breach of promise.

Judge Sherman, of New York, has decided that the captain of a steamboat is liable, as a common carrier, for the lost baggage of passengers, notwithstanding he had ordered the hands not to receive baggage, and even posted up a note on the boat that 'all baggage was at the risk of the owner.' This is important to know.

Abraham Denny, an Oneida Chief, has been sentenced by the Oneida county, N. Y. General Sessions, to four years imprisonment in the State prison, for manslaughter. The deceased, Solomon Tucker, jr. a boatman, died at Utica of wounds received in an affray on board of a boat at Albany; inflicted by a man by the name of Butterfield—the defendant preventing aid being given, and aiding Butterfield.

A hungry jury at the late court in Halifax Va commenced a regular dance in their room above the court, to the tune of 'What did you come from.' The Sheriff was soon sent up by Judge Leigh, with orders to provide them a more suitable apartment in the jail, where they might continue their frolic during the night, if they thought proper.

According to the last census; the population of Moscow, Russia, amounted to 450,000 souls, 40,000 workmen were employed in the large manufactories, and 30,000 others in inferior branches of industry.—The value of the articles yearly manufactured in that city was estimated at 20,000,000 silver rubles.

A destructive fire broke out at Charleston, S. C. on the evening of the 25th ult.—A block of five stores was destroyed before the conflagration could be checked. The houses were insured for \$50,000. Most of the occupants, too, were insured, though not to the full amount of their losses.

On the 23d ult. a party of white people, who were travelling near the site of Fort Cross, on Law River, Florida, were shot at by some Indians, who waylaid them; a woman was killed and a man wounded; there were two women in company, one of whom escaped uninjured.

A most extraordinary water spout was seen in the Irish channel on the 25th of August, which came within a few yards of the brig Mersey, and which completely engulfed a small schooner, not a vestige of which could be afterwards discovered.

Boston and Buffalo will soon be linked together with iron. Fifteen miles of rail road remains to be finished to complete the connection of five hundred miles. This month, it is said, will see its accomplishment.

The editor of the Tuscaloosa (Ala.) Monitor mentions the receipt of a fine present of apples, of the third crop this season, from Capt. James H. Dearing, of that place.—That is the land to live in.

Ellworth, the pedestrian, completed his extraordinary undertaking of walking a thousand miles in a thousand consecutive hours, on Wednesday morning.

The largest ox ever known in the United States, is said to be that raised by P. N. Rust, at Syracuse. It weighs 4100 pounds.

Up to the 24th of September, there have arrived at the port of Quebec this season 42,358 emigrants, being 14,670 more than arrived there during the same period in 1841.

The St. Louis New Era says that the crops in that region were never more abundant; but the prices are greatly reduced.

**THE U. S. REVENUE.**  
The gross revenue for the United States, for the first six months of 1841 was, according to official statements, \$7,005,020, for the same period 1842. \$8,733,824, being an increase of \$1,728,804. The whole revenue for the year 1841 is stated at \$10,140,635; and the revenue for the port of New York alone, for the first three quarters of 1842, is stated at \$9,911,387, which would show a great increase.

According to the last census, goods to the amount of \$114,000,000 were manufactured in the New England States.

Upwards of 12,000 barrels of flour were inspected in Baltimore last week.

**Next Senator from South Carolina.**—The Hon. George McDuffie is recommended by the Democratic party for the Senate in place of Mr. Preston, whose term of service expires on the 4th of March next.—He will be elected, there being no opposition.—Phila. Ledger.

The king of Sandwich Islands has joined the Temperance Society.

We notice the shipment of 1000 barrels of Flour at Louisville, for Boston, via Pittsburgh.

Mr. Thomas Blanchard, of Massachusetts has invented a machine for turning shoe lasts of all sizes.

**Curious.**—We have seen a 'June Apple' which is a part of a third crop borne this year by a tree in the vicinity of Petersburg. We have also in our possession a pear, which is a part of a second crop borne by a tree in the garden of a citizen of Petersburg.—Petersburg Int.

**Rhode Island.**—This story is told by a printer now living in Cleveland, Ohio, who says that in 1836, he saw in Providence a procession of free suffrage men, headed by forty Revolutionary soldiers, limping and hobbling along who had never been allowed to vote since the revolution! They had pledged their lives, their fortunes, and their sacred honor in the cause of freedom, and had fought manfully the battles of their country, but they were found too poor when their patriotic services ended, to vote with the landed aristocracy of Rhode Island.—Zanesville Aurora.

**Curious.**—A conkshell was recently found when boring of pure water in Market Square, Norfolk, Va, at the depth of seventy two feet below the surface of the earth. It was of a large size, and the enamel on the inside perfect, differing somewhat from those of the present day to being very curiously surmounted with ridges or waves curling round the shell. It is to be seen at the office of the Herald.

**A Child burnt to Death.**—On Wednesday morning, Mrs. Elizabeth Floyd, of 77 Rivington street, sent her young daughter Maria, about three years of age, up stairs into the chamber where a night lamp had been left burning. A few minutes after she heard the screams of the child, and on going to her found that her clothes were in flames from head to foot. She procured a blanket and put out the fire, but the little sufferer was so severely burnt that she died about 3 o'clock; P. M. from the injuries received, notwithstanding the aid of two medical men had been procured.

**GEN. CASS.**  
The Boston Post contains an extract from a letter to the editor dated Paris, Sept. 17. It states the following:  
"The settlement of our difficulties with England has taken from the government the motives which induced the President to advise Gen. Cass to remain in France, and he gladly embraces the occasion to return to his country and his friends. He will leave Paris for America, by the way of Liverpool and Boston, as soon as he can get formal permission."
