

It should never have been the site for the location of the county buildings of this county, aside from its approximation to Northumberland county.

The manner in which all the public highways lead, is an argument which should go very far to prove, to every seeker after correct information on this long agitated subject, that from the direction they take from the circumference toward the centre, they loudly remonstrate against Danville as a suitable and proper place for the location of the county buildings.

And the very boundary lines of the county show, that nine tenths of the county are present inconveniently situated for a fair participation in the transactions necessary to be transacted at the county town of a county.

Thus, then, every circumstance connected with this long and perplexing subject should forever be put to rest, by the lawful act of the legislature, in granting the long sought object of the wishes of a majority of the inhabitants of the county, a removal of the county seat from Danville to some more central position. And here let me add one word, which may serve as a hint to both friends and foes of the removal. I have taken up my pen in favor of the removal and while health and strength and life remains, it shall be kept up until a removal shall be effected. The cause is just, right and honest, and I believe in justice, honesty and uprightness, and also believe, that were these principles more strictly adhered to, that we should scarcely need a court house and jail in the state. Then while there is a press that will circulate the productions of my pen, the public shall have them, and as the author is unknown, so let him remain. Seek not to draw from the humble abode that which will avail you nothing.— If the hasty productions of my pen are a means of pleasure, gratification or profit, use them as such. I am at all times amply repaid for all seeming toil, if I can but see the cause of justice and honesty prosper in the land.

Rohrburg, Nov. 3, 1842.

It seems to be a fact that Joe Smith has actually been arrested, or has surrendered himself into custody. The Springfield (Illinois) Journal, however, suspects that his surrender was not made until he was tolerably well assured of a speedy release by habeas corpus or some other trickery.— The same paper contains a formal renunciation of Mormonism, signed by ten late members of the Mormon church, who declare that they have been most scandalously imposed upon in matters and thing of a divine character.

On Thursday week, while Mr. Winchester House was working on the steeple of the new church at Springfield, Ill. he was stunned by lightning and fell to the ground, some 72 feet, and died in a few minutes.

George K. Budd, Esq. of St. Louis, Mo. has issued a circular, in which he estimates the aggregate production of wheat in the U. States in the year 1842, at 110,269,000 bushels, or 20 percent more than in 1841.

We have already mentioned the recent robbery of Mr. E. Russel, near the junction of the Towanda Creek and the Erie canal. New York of about \$4,000.— The landlord of the hotel at which he stopped has been arrested, and all the money but \$10 found in his possession.

The number of castles of which there are known to be existing remains, is in England 461; Wales 107, Scotland 152, Ireland 120, total 843.

The iron war steamer for the lakes is in rapid progress at Pittsburg. Her frame work is nearly all up, and a good deal of her sheathing on her. Every thing is of iron plates of which her sheathing is composed are 7 8ths of an inch in thickness.

Bishop Hughes declares that he did not allude to Odd Fellows or Free Mason Societies in his denunciation of secret combinations. He thinks, and very properly, that a man can be a good Catholic & a good Odd Fellow at the same time.

Great Forgeries.—Forgeries by a milkman of Greenwich, Conn, have been brought to light in New York, amounting to the sum of 15 or 20,000 dollars. Thirty three forged notes have already been discovered that he had discounted by the brokers. He is among the missing.

Congress.—It will re-assemble\* in four weeks from Monday next, on the first Monday of December, and continue in session till the 3d of March. What will it do?

John C. Spencer, Secretary of War, has published a long letter in New York, 'defining his position.'—He not only goes the entire figure for Captain Tyler, but he abuses the Whigs and Henry Clay like a pick pocket.

A Spanish paper speaks of a recent hail storm in that country, and says that some of the hailstones weighed eight pounds.

Mrs. Sifer, wife of William Sifer, a farmer, of Wilkins township, Pennsylvania, lately brought forth three children, two boys and a daughter, at one birth. This lady has a right to be considered after this rather more than a Sifer (cypher.)

The Declaration of Texan Independence was signed on the 2nd of March 1836, by 56 persons, of whom 50 were natives of the United States—one Yucatan, one of England, and of Ireland, one of Scotland, and two of Bexar.

Extensive Fire at Richmond.—On Sunday morning last, 13 buildings destroyed.

The citizens of Springfield, Mo., were somewhat elated the other day, because of the discovery of a silver mine in the western part of Dade county, extending some ten or fifteen miles in length.—It turned out however, to be a copper mine, which is said to be extensive.

Importance of one vote.—The democratic candidate for Prothonotary of Jefferson county, was defeated at the recent election by one vote.

Wisconsin Election.—Eight democrats and 5 whigs are elected to the Council, in this territory; and 13 democrats and the same number of whigs to the Assembly.

Wheat was selling at Zanesville, Ohio, a few days since, at forty cents per bushel.

The Brooklyn Eagle says.—'We have, in this county, a young man, now in his 18th year, who weighs 245 pounds, and stands six feet in his stockings.'

The editor of the Bath Enquirer, has seen a squash which weighs one hundred and three pounds—measures six feet six inches in circumference. It was raised in the town of Litchfield, in Maine.

A stone weighing half a ton, and composed of flint and basalt, recently fell at Harrowgate, England. It was warm when it first reached the earth.

Pennsylvania's share of the Proceeds of the Public Lands.—We understand, that his Excellency, Governor PORTER, has received official information from the Treasury Department at Washington, that the accounting officers have adjusted the accounts of the several states and territories, under the act of Congress entitled: 'An act to appropriate the proceeds of the sales of the public lands, and to grant pre-emption rights,' approved, September 4, 1841. The amount found due the state of Pennsylvania, we learn, is \$60,313, which will be paid upon application: Mr. MANN, the State Treasurer, is the authorized agent to receive it.

No returns have been received of the election held in the State of New York, on Tuesday last.

The Weather.—On Wednesday last, we were greeted with a snow storm which continued for several hours. The snow mostly melted as it fell.

About 550,000 tons of coal have been shipped from the various outlets of the Schuylkill Coal Region. Of this near 35,000 is from Pinegrove.

Arkansas.—General Cross, the present able democratic member of Congress from Arkansas, has been re-elected by a very large majority. Both branches of the legislature are also decidedly democratic.

Over 230,000 tons of Coal have been shipped this season from the Lehigh Region.

WILLIAM S. JAYNE and PERRIN ROSS, Esqrs, to be Associate Judges of the court of common pleas in and for the county of Wyoming, constituted by the last legislature out of part of Luzerne.

The legislatures of Vermont, Missouri and Tennessee, have passed resolutions in favor of a repeal of the Bankrupt Law. So that persons who desire to go through "that mill," must be about it, for its early repeal may be looked upon as certain.
