

REMOCRATIC NATIONAL CONVENTION.

This Convention assembled at Baltimore on Monday last, May 17, at 12 o'clock, and was called to order by the Hon. R. M. Saunders, of N. C., when the Hon. H. B. Wright, Esq. of Pennsylvania, was chosen temporary chairman. Mr. Saunders then offered a resolution to adopt the rules and regulations of the conventions of 1832 and 1835, as the rules of this convention. These rules, requiring a vote of two-thirds for the choice of the Presidential candidate, met with strong opposition, and quite a spirited debate ensued, but before any debate was taken upon it, the resolution was postponed for the present. A committee of twenty-six was appointed, one from each State, to examine the credentials and report the number and names of delegates from their respective States in attendance. The convention then took a recess until 4 o'clock.

At four o'clock, the Convention assembled in pursuance of adjournment, when the committee on Credentials reported a list of the delegates present. A committee was then appointed to nominate officers to preside over the convention, who reported the following:—

President—H. B. WRIGHT, of Pennsylvania.

Vice Presidents—S. Emory, Maine; H. Hubbard, New Hampshire; H. H. Childs, Massachusetts; H. B. Hunt, Vermont; O. Bolton, Rhode Island; R. J. Ingersoll, Connecticut; S. Young, New York; J. E. Edsell, N. Jersey; J. L. Durson, Pennsylvania; W. Frick, Maryland; J. N. Sutton, Delaware; W. H. Roan, Virginia; R. M. Saunders, N. Carolina; J. H. Howard, Georgia; B. G. Shields, Alabama; P. O. Ellis, Mississippi; T. M. Williams, Louisiana; C. Johnson, Tennessee; L. Boyd, Kentucky; Wm Fulton, Arkansas; N. Schoonmaker, Ohio; E. A. Brown, Indiana; J. B. Snow, Illinois; J. Coffan, Missouri; R. S. Wilson, Michigan.

Secretaries—W. F. Ritchie, Virginia; T. B. Mitchell, New York; G. A. Vroom, New Jersey; C. A. Bradford, Mississippi; H. H. Carroll, New Hampshire; W. L. Morgan, Ohio.

On motion the Convention then adjourned to meet next day at 9 o'clock.

At 9 o'clock on Tuesday morning the Convention met pursuant to adjournment. The question upon the rule requiring a vote of two-thirds to make a nomination, again came up before the Convention, and was discussed until passed twelve o'clock, when it was adopted.

We have reports from gentlemen direct from Philadelphia, that the Convention adjourned several times on Tuesday afternoon, for a Presidential candidate, without coming to any decision, and that the last balloting was between Van Buren-Johnson and Cass.

The Democratic Tyler Convention met at Calvert Hall, and was largely attended. Judge White, of Conn., was chosen President, with 26 V. Presidents—one from each State; among whom was David Lynch, Esq., of Pa. Considerable debate then arose as to the propriety of proceeding to nominate a candidate for the Presidency before the choice of the Democratic National Convention should be known. It was however, decided to proceed at once, and Hon. John Tyler was chosen by acclamation, their candidate for the Presidency, there being but two dissenting voices.—After the delivery of several speeches, with music from a band in attendance, the Convention adjourned until nine the next morning, previously appointing a committee to recommend a candidate for the Vice Presidency, to be run on the same ticket with Mr. Tyler. Great enthusiasm prevailed, and the speeches were frequently interrupted with loud and repeated cheering.

The Buffalo Advertiser says, a detachment of farmers, bound for Illinois, had arrived there via the canal, from Scuykill county, Pa. somewhere among the coal regions, in an ark built for the occasion.—They navigated their boat all the way by water, but there took the steamer Rochester for Chicago.

An English farmer has given the following as the result of an experiment to ascertain the weight and number of grains of a Winchester bushel of each of the under mentioned sorts of grain:—Wheat 62 lbs., 550,000 grains; Barley 52 lbs., 520,000 grains; Oats, 32 lbs., 1,200,000 grains; Poplar peas, 64 lbs., 110,000 grains; Horse beans, 64 lbs., 27,000 grains.

It is reported that the Rev. Dr. Nettleton has left in his will, property amounting in value to \$25,000 to the Theological Institute of Connecticut.

The venerable George Goodwin, the oldest printer in the United States, at the time of his decease, says the Hartford Times of May 13, and we believe the oldest person in the town, died this morning at the advanced age of 88. He was for about 50 years editor of the Hartford Courant. Mr. Goodwin commanded the respect of the community to a happy degree, and leaves not an individual upon earth who could be called his enemy.

The Hon. John M. Niles a few days since was qualified and took his seat as a Senator of the United States. The committee appointed for the purpose of enquiring into his physical ability to discharge the duties of the station, reported in his favor, which was unanimously adopted.

A Brussels paper mentions that a plan is in contemplation in the Commune of Haran for constructing an iron church. The structure is to be of vast dimensions, and in the Greek original style of architecture.—Columns, capitals, orgives, all the architectural ornaments, together with the whole of the internal parts of the church, are to be made of iron.

The St. Louis Gazette says, 'The Missouri and its tributaries, and indeed all the streams are full. The American bottom, opposite the city, is submerged and impassible. The boat at the new ferry has ceased her trips. Illinois town, opposite the city, is deluged. The water is higher than it was in 1836, and it is impossible to say when it will cease rising. A few feet more will bring it to the threshold of the ware houses on the landing. It will not rise so rapidly now, however, on this side as before it was over its banks. The most disastrous results are apprehended to attend and succeed this inundation. The Illinois shore opposite the mouth of the Missouri is falling in at a fearful rate. Additional rise from the upper Mississippi is expected.'

We have had several complaints from Fishing creek township of the irregularity of the receipt of our papers. Last week in particular, our papers did not reach Orangeville. Why this was so, we cannot tell, as they were regularly mailed every Friday, and forwarded from the Post-office here, and are not changed from one bag to another, except at Berwick. If there is any carelessness in the Clerks in that office, we would think the Post Master to see that it is not continued, as it is very unpleasant for our subscribers, as well as ourselves, to have their papers by over a week on the road, with no other excuse but the negligence of Clerks. This is the second time within a few weeks that the same thing has occurred. We hope this will be the last.

Interesting of a Lost Child.—We learn that a little boy, the child of Washington Hart, near the Broad ford, in Smythe county, Va., aged two years last February, wandered from home on the 27th of last month and was not found for five days. Diligent search was made by large numbers of people, sometimes reaching, we learn, near 200. The child was at length found in the head of a hollow running from Walker's Mountain, and about one mile from home. It had sought a shelter under the side of a log where from appearances it must have been the whole time—it had a bed of leaves, near it was a spring, from the log to the spring a path was beaten, where it had gone for water, which was the only sustenance this child could have had in all this time. The child knew its parents and exhibited no signs of fear, and we learn is doing well.—How strangely has this child been preserved and kept in life? But for the supply of water it must have perished.—Wylthville Republican of the 8th inst.

At Canfield, Trumbull county, Ohio there was a severe frost on the night of the 21st of May; corn and potatoes were killed in the ground; most if not all the fruit was killed; grape vines looked as if they were scorched by fire. It is hoped the wheat escaped, as but little of it had eared out.

Morse's Magnetic Telegraph has been completed between Washington and Baltimore, and intelligence of the proceedings of the National Convention transmitted to Washington almost as soon as they took place, a distance of forty miles. Baltimore papers now contain the proceedings of Congress up to hour of going to press. This is annihilating distance.

Sudden Death.—On Tuesday last, an infant daughter of Dr. George H. Brandtner, in Pottsville, came to its death very suddenly. The mother left her babe asleep in the cradle, up stairs, whilst engaged below in domestic affairs—and, after a short time had elapsed, returned to look after it, when she found a cat sitting directly upon its breast, and on taking up the child found that it was lifeless.

Reported Outbreak in Canada.—Another Revolution.—From flying reports and rumors by passengers from Canada, it seems probable that another serious outbreak has occurred in that country between the people and the government. The first rumor of the fact which we find in the New York Sun which gives reports, from passengers, of riots and bloodshed on the Lachine canal. The disturbances are reported by those passengers as having occurred between the laborers and the authorities. The report by the way of Pittsburg represents that the outbreak was between the patriots and the government, and the cause arises from the old feeling of opposition to the system of government in that country. We give these reports as we receive them.

The following is from the Sun:—The facts, as near as we can gather them are, that the laborers who were recently discharged for their interference at the Montreal election of a member of Parliament, assembled in great numbers on Wednesday or Thursday, and commenced the work of destruction and bloodshed by destroying the works, attacking the contractors, and beating the overseers. The military were called out, and marched to the scene of carnage and bloodshed. As the companies approached the rioters, symptoms of disaffection were manifested in the ranks, but concealed from the officers. The spirit of revolt gradually spread among the army; and being drawn up before the rioters, on receiving orders to fire, the soldiers grounded their arms! declaring their unwillingness to fire. The almost consternation prevailed among Her Majesty's officers of the higher grades; while the subordinates united with the revolutionists, and ordered the temporary seizure of all who would not join in the revolution.

Such are the facts, as near as we have been able to collect them from gentlemen of respectability, who had just arrived from the frontier. We confess the story is rather improbable.

The following we clip from the Pittsburg Chronicle of Saturday:

Rumor of a Patriot Outbreak in Canada.—We heard a report last night, founded upon information said to have been received by a gentleman in this city, who has a son residing in Toronto, U. C. that there had been a fresh outbreak at Niagara U. C., between the patriots and the civil authorities. The Patriots had been making some movements which the civil authorities did not like, and the troops were called out, and the Patriots dispersed for the time, only it is thought for the purpose of organizing to make resistance. We give the above as a rumor, having no certain information.

The subjoined is from the Pittsburg Age:

A memorandum on the waybill, received in the handwriting of the stage agent at Erie, gives the following report:—The Patriots have risen in Canada, and have possession of Toronto; some forty of whom were killed in the first outbreak. These are the reports, and coming from so many different quarters, there is probably something in them, though no two agree as to the place where the disturbances occurred. The papers of Saturday from Buffalo, which is nearer the scene of the reported outbreak than Erie, say nothing about them. If there has not already been a revolution in Canada, the indications are that it will not be many years before there is one.—Philadelphia Ledger.

Population of the Mississippi Valley.—We see it stated in the Louisville 'Statistical Register,' that in 1840 the population living on the waters of the Mississippi, and the Lakes, and Gulf of Mexico, (within the present limits of the United States,) exceeded the population of the Atlantic slope by 766,485 persons; the excess being nearly equal to the population of Kentucky, and greater than that of Massachusetts.

The Legislature of Connecticut has reenacted the registration law of that State, repealed by the last previous Legislature.—They have also repealed the law preventing students in colleges and academies from voting at public elections.

Large Toll.—The largest amount of toll ever paid by an Erie canal boat at Albany, on a single clearance, was paid on Saturday by the iron boat New Era: The amount was \$432 16. The weight of her cargo was 130,000 lbs.

Land Sales and the Proceeds.—The sales of the public lands, during the last calendar year, amounted to 1,439,674 acres, and produced more than \$2,000,000, exceeding the proceeds of sales for the previous year by more than \$600,000.

A Heavy Haul.—400,000 white fish were recently caught at one haul in New Haven harbor. This feat was accomplished by joining three seines together. The fish sell for fifty cents per 1000.

Fine Fruit.—Dr. Bayne, of Washington exhibited to the Horticultural Society, in that city, on Tuesday, two jars of strawberries measuring five inches in circumference, and weighing each two hundred grains.—Thirty two of them filled a quart, and their flavor and beauty were equal to their size.

The Mayor of the City of Philadelphia has offered a reward of one thousand dollars for the arrest and conviction of the person or persons who fired St. Augustine's Church in said city during the late riots.

No further confirmation of the reports of the insurrection in Canada has been received.

The Cincinnati Chronicle says that there have been shipped from that port to New Orleans, since the first of January last, three hundred and sixty thousand dozen of eggs.

The whole coinage of the different mints in the United States during the past year, amounts to within a small fraction of \$12,000,000, and exceeds more than one half that of any former year.

'How long,' exclaimed a tradesman, as he applied the lash to an incorrigibly bad apprentice, 'how long will you continue to serve the devil?' 'Not more than three months, sir—my indentures will be out then.'

AN ACT

To Authorize the Removal of the Seat of Justice in the County of Columbia, and for other purposes.
WHEREAS, a large majority of the taxable inhabitants of the County of Columbia have, by their memorial, set forth to the General Assembly of this Commonwealth, the great hardships and inconvenience they suffer in consequence of the seat of Justice for said county being located at Danville, which they state to be situated on the verge of the county, and praying the same may be removed to the town of Bloomburg. For remedy whereof,
Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That at any time within three years from the passage of this act, the County of Columbia, to wit, the town of Bloomburg, in the county of Columbia, or to be erected, at THREE OWN PROPER EXPENSES, in the town of Bloomburg, suitable buildings, of brick or stone, of not less size and dimensions than the county buildings now at Danville, for a Court House, prison, and sufficient offices for the keeping of the public records, and the direction of the county Commissioners, who are authorized to receive a conveyance for such lot or lots of ground, for the use of such county buildings, not exceeding one acre, in fee simple, one of all incumbrances, for the use of the County of Columbia. The said buildings to be erected on such lot or lots of ground thus conveyed. And the said county Commissioners are hereby authorized to sell at public auction, or otherwise, all the right, title and interest which the said county may have in the real estate situate in the town of Danville, and to execute a conveyance to the purchaser or purchasers, and the MONEY ARISING FROM THE SALE TO BE PAID INTO THE COUNTY TREASURY FOR COUNTY PURPOSES.

Sec. 2. That as soon as the public buildings are completed according to the provisions of the first section of this act, the Commissioners aforesaid shall file a report of the same in the Court of Common Pleas of said county, and thereupon the commissioners and sheriff of said county, shall cause the prisoners, if any there confined in the old prison to be safely removed to the new, and the public records then remaining in the public buildings so aforesaid built and prepared for the reception thereof, and from thenceforth the seat of justice in and for the county of Columbia shall cease to be at Danville, and the same shall be removed and fixed at the town of Bloomburg, in the said county, and the public offices heretofore kept, and the courts of justice heretofore held at Danville, in and for said county of Columbia, shall be kept and held at Bloomburg, in the building erected for their accommodation as aforesaid.

Sec. 3. It shall be lawful for the citizens of Bloomburg to obtain subscriptions from any person or persons willing to subscribe any money or materials for the erection of such public buildings, as are provided for in the first section of this act, and in default of the payment of the same, the county commissioners are hereby empowered to cause suits to be brought in the name of the county to enforce the collection of the same, and when collected to be applied towards defraying the expenses of such buildings.

Sec. 4. So much of the existing laws of this Commonwealth as are altered by this act be and the same are hereby repealed.
