MELANCHOLY OCCURRENCE.

The Gensburg Sentinel says that the wife of Mr. David Owner, of Menallan township, met with her death last week in a distressing manner. She was laboring under a slight alienation of mind for a short time past, and on Friday week she placed wood in the oven, fired it, and got in be hind it, with the view of boring herse f to death? She remained there until her body was borned to a crisp, when she came out and precipitated herself into a well about escaped by clambering up the sides of the well and calling for assistance to the family who were all in the field at the time. She was so much injured, however, that she died on Tuesday following.

VERY SINGULAR PHENOMENON.

A friend, who has just returned from the ville, the driver pointed to a large hole in a field, which he said was the greatest curios ty in the world. The passengers went to he spot, and found a round hole about sev nty feet in diameter, with the earth on all ides apparently solid, and overgrown with grass. There was water at the bottom, Musgrove E-q. Mr. James Denan, to at the top of a ridge of earth, upon which, ant. at the distance of twenty rods, stood the leserted dwelling of the owner of the planation. The driver stated that about three years ago, in the dusk of the evening, the oak which stood by its side in an open field, had both disappeared! On going to the spot, this hole appeared, but nothing was to be seen of the trees, nor has the top of these ever been reached-though a ounding line had been sent down three undred feet. The planter deemed it un afe to remain so near a neighbor to such a atastrophe, lest that should befal himself and his family which befel the pine and the oak; and so he removed to another house a mile distant; yet, nothing of the kind has happened since, and the wonder still re mains unaccounted for .- Saturday Couri
