

sense of the Club upon the different motions that shall be proposed.

Art 4. It shall be the duty of the Vice President to assist the President; and in case of his absence to preside over the Club as though duly elected and empowered with the authority of the President.

Art 5 It shall be the duty of the Corresponding Secretary to carry on the correspondence which the Club shall need.

Art 6 It shall be the duty of the Recording Secretary to record the transactions of the Club.

Art 7 It shall be the duty of the Treasurer to receive the income and pay the expenses of the club from said revenue, to keep a true and correct account of the same, and to deliver the same to the Club when ever called upon.

Art 8 The revenue to meet the expenses of the Club shall be raised by collections from time to time as the Club shall direct.

BERWICK POLE RAISING.

Remember next Thursday is the day of the Berwick Pole Raising. There will undoubtedly be a large gathering of the Democracy of Columbia and Luzerne Turn out, and let all attend who can.

PREPARING FOR DEFEAT.

The New York Republic, a violent Clay paper, cautions its friends in that State against receiving the Whig vote for Governor in Pennsylvania, as a fair earnest of the Presidential vote! The public may rest perfectly assured of this fact, that 'OLD SHUNK' will sweep the State by over 20,000—and POLK and DALLAS too!

Returning the Compliment.

At a dinner at Congress Hall, Saratoga, where Mr. de Elganiere, the Portuguese Minister, was present, all the gentlemen ordered Maderia wine, in compliment to the minister for his exertions in procuring the reduction of the duty on that peculiar brand. He enjoyed the compliment and ordered a bottle of Newark cider in return.

An Experiment.

Byrant Cobb, of North Alabama, proposes to give up slave labor, and substitute the labor of Germans. He invites them to settle about him, proposing to furnish farming implements, and let them farm on long leases.

Emancipated.

Twenty one slaves, belonging to the late Joseph Pysie, of Newbern, N. C. have been emancipated by their master's will, and are now being conveyed to Pennsylvania.

A Windfall.

Frederick G. Stark, Esq. of Piscataquog village, N. H. purchased some time since a piece of swampy land in that vicinity, for a small consideration, which was thought of but little value. The Manchester Memorial states that he has since discovered that it is covered with peat to the depth of from three to six feet, and probably contains one thousand cords to the acre, which he values at about \$2 per cord.

Egg Hatching.

The machine with long name (eccelesobion) for hatching eggs is at work in Boston. Last week a young peacock was ushered into the world at the rooms, and several other eggs are now in the machine, in process of incubation. There are also terrapin, canary bird, pidgeon, geese, duck, and any quantity of hen's eggs, undergoing the same process. Visitors at any hour can see the 'little biddies' picking their way through the shell.

The Sea Serpent has made his appearance again at the East. He has grown a hundred feet long since his last appearance. He promises to be an extensive monster.

Excitement among the Mormons.

'Joe Smith risen from the dead.'—A Mormon has arrived in St. Louis, who reports that Joe Smith has risen from the dead, and has been seen at Carthage and in Nauvoo, mounted on a white horse, and with a drawn sword in his hand. He says that as Joe is thus restored to life, every thing will go on prosperously with the Mormons.

No Lack of Candidates.

The voters of the Anderson S. C. District have at this time, 43 candidates before them for their suffrages, viz: 2 for Congress, 16 for Legislature, 16 for Tax Collector & for Clerk, and 5 for Sheriff. A stranger would conclude that they were rather an office-seeking people.

A Relic.

Miss Catherine Sedgwick has an antique ring, a relic of Napoleon, which was given to Gen. Devreux by Madame Buonaparte, as a memento of the ambitious conqueror, his particular friend. Cut on a cornelian stone is the head of an armed knight, and upon lifting the stone, a blue satin cover is discovered, upon which is a very minute lock of Napoleon's hair. The ring is a perfect bijou.

A Singular Case of Insanity.

The Portsmouth (New Hampshire) Journal of Saturday last says:

'The selectmen of this town were recently called upon to visit Mr. Thomas Gammon, a fisherman, of about 50 years of age, who has within a few weeks been suffering under insanity, and had become so wild as to require other care than that of his sister, a few years older, with whom he has lived in the most parsimonious manner for twenty or thirty years. It was found advisable for her comfort and safety to remove him at once to the almshouse. Inquiry was then made of his sister whether he had any money. Yes, was the reply, and that I fear has been the cause of his insanity. She led the inquirers to the cellar, which had probably not been entered by any but Mr. Gammon or sister for many years; and a little digging exhibited a box, which on being emptied was found to contain twelve hundred silver dollars, which had become black as iron from the humidity to which they had been exposed. In another part of the cellar a pot was taken up, containing three hundred dollars of the same complexion. She stated that these were the savings of his industry of about thirty years; and that of late he has been much troubled because they had been injured, as he thought, by becoming black, & this was probably the cause of his insanity. The money was deposited for safety on interest in one of the banks—and the unfortunate man has been sent to the Asylum at Concord.'

Storm at Hagerstown.

The Hagerstown News states that a great storm of rain and hail visited that place on Wednesday evening last, which is described as follows:

'The water descended in torrents for more than an hour, and during a portion of the time, the hail danced about right merrily, some of the stones being nearly three inches in circumference.— The wind which accompanied the storm was tremendous, and it swept, and whirled, and twisted and twined through the town with the 'largest liberity.' Signs, swings, boxes, and barrels were hurled and knocked about as if they had no owners, while the lofty poles of the politicians were bent to an angle of forty five degrees. A portion of the roofing of the African Bethel Church was carried away, while the covering of various other buildings was materially injured. The residents of West Franklin street were the principal sufferers. The water swept down the street 'like half a river'—the gardens were three or four feet under water—cellars were inundated, and upon the first floor of some of the houses the water attained a depth of 12 inches. Some of the merchants, we understand, lost a considerable quantity of sugar and other merchandise, which was stored in cellars. If the storm had occurred during the night the destruction of furniture and carpeting upon the first floor of the houses would have been considerable.'

Imposing Funeral Ceremonies.

In Washington city, the several lodges of the brotherhood of Odd Fellows belonging to the District of Columbia, marched in funeral procession, on Sunday, after the remains of their departed brother, Past Grand Sire, James Gettys. No less than ten lodges of the fraternity formed a part of the procession, which probably numbered not less than five hundred members in full regalia. There were also about sixty members of the order from Baltimore, who attended the funeral. The founder of the order of Odd Fellowship in the U. States, Thomas Wilsey, Esq., of Baltimore, also attended the funeral.

A CURIOUS CASE.

A gentleman of Salem, Mass. was suddenly seized with paralysis of the left arm, a few weeks ago. He went to Ipswich for recreation and exercise, and while there, becoming much fatigued, he found a resting place upon the sandy beach. During his siesta, his hand became imbedded in the sand; very shortly a violent pricking and itching sensation commenced. Receiving encouragement from this unexpected return of action in the part, he excavated a place in which he placed his arm and covering it up soon fell into a quiet sleep, and so remained about an hour. On arising, he found to his surprise and delight, that he had entirely recovered the use of his arm, and he still has perfect use of the same. The question arises, was there any benefit from merely covering the limb with the sand, or was it merely an effort of nature, which happened at the time the hand became covered?'

AN ARTFUL IMPOSTOR.

Some citizens of Massachusetts are exposing the character of one Hull Horton, a pretended prophet, who also goes about in the garb of one of the Society of Friends, but whose object appears to be the gratification of criminal inclination. His conquests are chiefly among religious married women, persuading them to believe in a spiritual union or marriage, as the only kind of marriage approved of by God and recorded in Heaven, and that such marriage supersedes all earthly matrimonial forms. The sinner is 50 years old.

Best Time ever made on American Railroads.

The Express which came through to New York on Monday, from Boston, with the Acadia's passengers and mails, was run by the proprietors of the Long Island Railroad, in connection with the Massachusetts Road. The train left Boston at 6 o'clock in the afternoon, arriving at the Brooklyn South Ferry at 6 o'clock Monday morning. Owing to a defect in the signals, the engines and steamboats at the relay stations had to 'fire up' after the train arrived, thus causing a delay of an hour and a half at Norwich, and two hours at Greenport. An accident at Worcester delayed them one hour. The steamboat consumed two hours and a half in crossing the Ferry at Greenport, a distance of 32 miles. Deduct these delays and interruptions from the twelve hours through time, and we have the extraordinary result of five hours running time on the Long Island (96 miles) and Norwich and Boston (110 miles) Railroads, being at the rate of forty one miles an hour for the 206 miles. This is the best time ever made on American Railroads, although performed during the night, and exceeds the best of the English Roads.

SOMETHING NEW.

The Boston National Lancers had a family festival at Woburn, the other day, and prize medal was awarded to the member who exhibited the greatest number of children on the occasion. Of course he is also to teach each young idea how to shoot.

DREADFUL DEATH.

Mr. Edward T. Shurtis of Clinton township, Hunterdon county, N. J., met a most dreadful death on Friday, by accidentally falling into a burning lime kiln. He was completely imbedded five or six feet deep in burning lime—the top of the kiln falling in after him. He was a young man, about 27 years of age, and highly respected.

NEUTRAL.

The wife of Edward Yates, of Edgar town, (says the New Bedford Register,) has given birth two fine boys, one of which she named James K. Polk, and the other Henry Clay.

A Remarkable Man.

A few days since, deceased in this metropolis, a humble but industrious native of Ireland, Patrick Faulkner. There was no self in this man. While living, his views were expansive, and he administered to the wants of many. To his two brothers in Ireland he recently sent each one thousand dollars; to his sister five hundred dollars. To the sisters of charity in this city, he bequeathed three hundred dollars, beside several other legacies in smaller sums; all of which was earned by following the occupation of jobbing with a one-horse wagon.—*Boston Transcript.*

The Greatest Bobbery on Record.

The astounding news has been received of the robbery of the house of our Lady of Loreto, Italy. Paris papers state that the treasures there deposited, the accumulation of centuries, and almost past the calculations of arithmetic in value, have been taken off by the keeper, to whom they were entrusted, and who suddenly embarked for Trieste in a steamer.

Chair Manufactury.

The subscriber having established a NEW CHAIR MANUFACTORY on Main street, near the residence of L. H. Mans, he is now prepared to furnish Chairs of every description, on as good terms as they can be purchased elsewhere in the county.

WOOD TURNING,
Such as Bed Posts, Waggon Hubs,
Rose Blocks, &c.
SIGN, ORNAMENTAL & HOUSE
PAINTING.

—Also—
HOUSE PAPERING.

This letter branch, from his experience, he believes he can do a little better than any other person in this section.

POPULAR PLANK will be taken in payment at the highest market price.

SAMUEL HAGENBUCH
Bloomburg, July 4, 1844. 21lf
