

der. Col. Tate has, perseverance, enter prize, impudence, and a touch of cleverness withal, that is perfectly edifying in these degenerate days of venom and selfishness, and so it is quite probable that he will swim.

"Old Mother Luzerne" has children enough in embryo now-a-days, to satisfy any moderate amount of maternal longing. All kinds of projects for all kinds of divisions of the county, are afloat, in Cambondale, in Huntington, in Hazle, in Lackawanna, in Sugarloaf and elsewhere.

The Lackawanna project affords a merry field of speculation to the curious, though its bloom may fade before it has ripened into maturity, and become like Captain Tyler, a fixed constitutional fact, abstractly & per se considered. But enough of this trash for the present, when I get into a good humor once more, I may continue my gossip from this.

"Hallowed land of Campbell's song?" for the time being I subscribe myself yours in the free and easy bonds of a most romantic friendship.

RAILROAD TO CANADA.

The Legislature of Maine lately chartered a company to build a railroad between Portland and Montreal. A conference between the Canadian Board of Trade and the Portland Company has resulted in the final selection of that route, provided the Provincial Parliament and the Queen in council approve. Boston wanted the road to run through Massachusetts.

LONG TIME TO WAIT.

There are eight liquor dealers in the Salem (Mass) jail for refusing to pay their fines, and awaiting the decision of the U. S. Court on the Constitutionality of the license law under which they are fined. The decision is postponed till next winter, so that they have some time to remain where they are.

Cotton Factory out West.—One of the best and most substantial cotton factories in the United States recently been erected in Cincinnati.—It has nine thousand three hundred and twelve spindles, and one hundred rooms. It will employ three hundred persons, and make about two millions of yards of sheeting per annum.

Impostors.—The Boston Transcript says that the streets of that city have lately been infested with a number of idlers who go about dressed as women, asking for broken victuals.

Mail Burnt.—A mail for the West, which left the Cincinnati Post Office a few days since, was seriously burnt. The twine caught fire in sealing one of the packages and not being discovered, the clerk placed it in the bag and the bag was placed in the stage. But before the stage proceeded a great distance, the passengers discovered the fire and gave the alarm—the bag was overhauled, and though nothing serious was burnt there were nevertheless, many letters badly injured.

UNPRECEDENTED SUCCESS.

Although Sherman's Medicated Lozenges have now been some five years before the public, their reputation for curing the diseases for which they are recommended has extended from Maine to Georgia, and from the Atlantic Ocean to the Rocky Mountains. The Rev. Mr. Streeter, of Boston, avers that, having been long troubled with a violent asthma and cough, he tried the Doctor's Cough Lozenges, and found them to give him instant relief. Rev. Darius Anthony, of the Oneida Conference, attributes his recovery from the grave to Sherman's Cough Lozenges. Rev. Mr. Dunbar, of New York, Rev. Mr. De Forest, of the Western part of the State, Rev. Mr. Eastmond, and a great multitude of persons, have given in their testimonies concerning the success of this wonderful Cough Medicine. And the Remedy for Worms is equally good. Sherman's Worm Lozenges are far before every preparation which has ever been discovered for destroying and bringing away Worms and his Camphor Lozenges, so universally resorted to for headaches and nervous affections, are the most convenient article in the world to carry in the pocket, so that they may be at hand in case of sudden attacks of faintness, palpitation, or depression of spirits. Sherman's Poor Man's Plaster should not be forgotten, for it has cured more weak backs and cases of rheumatism and given greater relief in affections of the chest than any other preparation of the kind in the world.

MORE TROUBLE AT NAUVOO.

The St. Louis New Era of the 14th ult. mentions some more excitement arising out of the arrest at Nauvo of the constable of Hancock county, who is now held in custody by the authorities of that place. A writ was issued for him—the Legion was paraded, and his jailors have expressed their determination to hold on to him at all hazards. The news of the arrest created quite a stir among the people of Warsaw. He is charged with being concerned in the murder of the Smiths.

New York was visited by a thunder shower on Sunday. The Sun says the country is entirely clear of snow; the frost is out of the ground, and every thing wears the appearance of spring. The prospect of an early opening of the Hudson river is truly encouraging.

A Bold Rogue.—The St. Louis New Era, says that a man named William Glasgow Moore was arrested a short time since in Arkansas for stealing a horse, which he had sold to man living in Washington county, Mo. Moore first stole the horse from a deputy-marshal McCallough, of St. Louis in running him off, he sold and stole him twice before getting into Washington county there he sold the horse a third time, and stole him for the fourth time, he was followed by a party and arrested near Batesville, Arkansas, with the horse in his possession on which he had speculated so extensively

Ice.—The ice cutters at Fresh Pond Boston, are busily engaged in harvesting the crop estimated at over 100,000 tons, each block of ice being fourteen inches square.

The Paris Presse gives the following description of the manner in which the Censorship is conducted:—Every morning a police officer attends at the Post office of Munich to receive all newspapers which arrive there, to carry them to the office of the Censors, when they contain nothing objectionable, they are forwarded to their address but if they treat of one of the thousand subjects which are forbidden to be discussed in Bavaria, the subscriber loses his journal.

YOUNG MAN FROZEN TO DEATH.

A young man, named Frederick Walworth, a carpet-weaver by trade, very industrious and of good habits, was out gunning near Jersey City on the 11th inst., when his gun was accidentally discharged, and the contents of it entered his thigh near the kneecap. The wound might have been healed if attended to at the time, but being some distance from any house, he was unable to help himself along and is supposed to have fainted from loss of blood and frozen to death. This is an awful warning to those youth who are in the habit of using guns incautiously. He has left a mother and many kind friends to mourn his untimely end.

THE NEWSPAPER LAW.

Subscribers who do not give express notice to the contrary, are considered wishing to continue their subscription. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all that is due be paid. If subscribers neglect or refuse to take papers from the office to which they are directed, they are held responsible till they have settled their bill, and order their papers discontinued. If subscribers remove to other places without informing the publisher, and their paper is sent to the former direction they are held responsible.

The Courts have decided that refusing to take a paper or periodical from the office, or removing, and leaving it uncollected for is 'prima facie' evidence of fraud!

Who is it for?—The Berks and Schuylkill Journal says,—"There is a letter in the Reading post Office from Philadelphia, addressed to the ugliest girl in Reading, Who will call for it."

The editor of the Alabama Journal has been presented with a novel vegetable to the Cabbage kind, raised from seed sent from Belgium by the Hon. H. W. Hillard. This vegetable is about the size of a small hen's egg, & is a perfect Cabbage, firm and white; it is said to be an excellent dish, and superior to any of the same family of plants. The seeds were sown in May and transplanted in August, as other Cabbage plants are, each plant producing from thirty to forty of these beautiful little Cabbage heads. Our Pennsylvania farmers must get hold of this article!

A floating Theatre.—At the foot of Spring street, on the North river, a large steamboat is at present undergoing transformation into a theatre—a floating theatre—with galleries, boxes, pews, scenes and machinery as well with commodious cabins for the dressing rooms of the artists. This floating drama is to be ready in the early summer to sail up the river, and amuse the people of the interior whose residence is upon the banks of the Hudson and so up the line of the canal and perhaps to the grand lakes themselves. The concern is to proceed with a printing press and composers for the printing of bills of the play.—N. Y. Express

ROMANCE SPOILED.

The Courier des Etas Unis spoils the romantic story of the Mirror respecting the young Spaniard, Aldama, who killed himself in New York a few days ago. It seems that he had followed a course of dissipation and squandered in one year some fifteen or twenty thousand dollars.

WAR IN CHEROKEE NATION.

The country of the Cherokee Nation civil war is threatened with regret that is the result of the long existing animosity of the two parties into which the Cherokee is divided. The immediate cause of the outbreak appears to be the murder of Lewis Rogers, a son of one of the Chiefs, on his return the 28th ult. from attending the United States Commission at Fort Gibson. He was found in a dying state, and declared before he expired that he fell under the bowie knives of a gang of the Ross party. Of the 16,000 who compose the nation, a large majority are in favor of Ross, but the minority have organized and declared him an usurper, who has robbed the nation of half a million of dollars.

It has been decided in the York Supreme Court, that a boarding house keeper is not responsible for articles belonging to boarders, stolen from the house, except they be especially left in the care of the keeper.

WORMS KILLS THOUSANDS.
CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, pain about the lips, flushed cheeks, picking at the nose, wasting away, hoarseness in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes of various appetite, are among the symptoms of worms. Many are doctored for months, for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. D. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges; he is now as fat as an Alderman. Th. Hon. B. B. Barsby has saved the life of one of his children by them. The sale of over 3,000,000 of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest; the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard Rogers, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. Mr. Handcock, Wm. H. Atwood, Esq. of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and Palpitation, relieved or from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms in travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lozenges of spirits. Mr. Koeh, of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of seasickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon rheumatism, lumbago, pain or weakness in the side, back, breast or any part of the body. Mr. H. G. Daggars, 30 Ann street; Henry R. Goulding; 35 1/2 Chatham street; Moses J. Henriques Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1/2 cents. Caution is necessary in seeing that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would wrile with you life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street.—For sale by John R. Moyer—Bloomsburg; Wm. L. Walker & Co—Berwick; Low & Thompson—Lime Ridge; E. & J. Lozatus—Orangeville; M. G. LADIES AND GENTLEMEN'S MAGAZINE FOR 1845.

GRAHAM'S MAGAZINE has long enjoyed the enviable reputation of being the best periodical in the U. S. both in the quality and number of its embellishments, and in the size of its literary matter. It is the cheapest as well as the best of its kind. The publisher has given about 50 pages more original matter than any of his competitors more original steel engravings, in addition to fashion plates and colored flowers. The Publishers are apparent, which has made an outlay of some Thousands Dollars greater than others, and could embellish the costliest Annual. The publisher is however satisfied that nothing but real excellence can maintain the high position his periodical has attained in the United States.

The publisher does not hesitate to say that he has a large position with Graham's magazine for giving to prosecute the most liberal and most judicious matter of ridicule, and variety of work issued, bears with it the most liberal and successful competition, improves the quality for good works, that nothing of a humbug character will be tolerated.

Every number of Graham's Magazine is issued at a cost of nearly \$4000—the plates alone consisting nearly half the sum most of the plates are from Original American Paintings, executed expressly for the proprietor, for engravings for the magazine. Among the pictures pointed for the volume for 1845, are two by Sully, the greatest artist, several by Leutze, Chapman, Inman, Conner, Rothermel, Thomson, and others of the best artists of America. The cost of getting up embellishments in this style may be estimated when we state that some of these pictures cost \$200 apiece, and will cost us some of them three times that sum to have them engraved and worked off for the edition of Graham's. But no cost shall be spared to keep our proud position at the head of the Periodicals of the world.

GRAHAM'S ELEGANT ENAMELISH MEMENTS.

The most splendid engravings of all sorts lend their charm to the pages of Graham's magazine. Everything, in the way of novelty and beauty that has ever been invited is laid under contribution. Nothing that capital and taste can supply is omitted. First, as the most elegant and appropriate, as well as the most popular embellishment, we place Sartain's Brilliant Mezzotint Engraving.

We were the first to introduce this beautiful style of work, as a regular embellishment of the popular monthlies. Its wide spread reputation thro' the means of our amplified, called forth a host of imitators, but up to this time nothing has been produced to rival the glorious pictures given in Graham's, 'The Shepherd's Love,' and 'The Coquette.' These, with a host of others, done for us by Mr. Sartain, stand unreplicated and alone at the head of American engraving. We have several of these imitable plates under way, and shall give one in the January number.

TO POSTMASTERS AND OTHERS

The high merit of Graham's magazine considered the publisher flatters himself that the following liberal terms will induce thousands to subscribe.

TO CLUBS.

The following proposals are under 2 copies for \$5; 5 for \$10; 8 for \$15; 11 for \$20.

To the Postmaster, or other persons forming a club, the Publisher will forward a Novel for every subscriber sent, so that by varying the books, a complete library may be obtained by any person in a short time.

Single Copies, three dollars per annum in advance. And to the person sending the money, a copy of 'Ringwood the Rover,' Herbet's poetic Novel and also a copy of 'The Gems of Art and Beauty,' a beautiful work for a lady's Center Table, containing thirteen splendid Steel and Mezzotint Engravings, will be forwarded gratis. Address, GEORGE R. GRAHAM, No. 89 Chestnut Street Philadelphia.

Drandret's Pills. PICTURE OF HEALTH.

HEALTH is cherished in an individual by the absence of all pain, swelling, or selection in any part of his body, by the free and regular exercise of his functions without any exception.—They consist in having a good appetite at meal times, an easy digestion, free evacuations, without lassitude or costiveness at least once in every twenty-four hours, and without heatiness, or lurning at the passage, the free issue of the water, without any fever or burning, and without a reddish sediment which is always a sign of a present or approaching pain, quiet sleep without agitation or troublesome dreams; no taste of bile or other bad taste in the mouth upon rising in the morning; no sourness or disagreeable rising of the stomach; a clean tongue; a sweet breath; no itching, pimples or spots on the skin; no piles; no burning heat upon any part of the body; no excessive thirst when exposed to labor or other known cause; no interruption to any natural evacuation, nor pain at their periodical return.

Where the state of the system does not harmonize with the above picture of health, it is of the greatest importance that no time be lost in sending for a doctor, or in the use of such remedies, too often the result of speculation instead of this course is a dose of BRANDRETH'S PILLS be taken, which will not deceive, but will at once restore health to the organ or part it requires it.

All who wish to preserve their health, all who are determined to defend their life against the encroachments of disease which might send them prematurely to the grave, will, without hesitation, have recourse to the Brandret's Pills, when the state of the system does not harmonize with the above picture of health.

Those who live in a country where contagions or other diseases prevail, should often think of this true picture of health, and observe himself with particular attention, in order to act accordingly. The wise and rightly directed will follow this advice the unwise are left to their own destruction.
