

### SENSIBLE SYMPATHY.

We find the following in Pitsburg Daily American:

A study old farmer from Jefferson township called at our office yesterday for some papers with accounts of the fire remarked to us that his township had taken the lead—and had taken pride in taking such lead, in getting up conventions and processions—several of such; he said, of late years. I myself never attended any of them, but I am going home now to see if I can get up a convention and procession too, in my township; and this one I will attend, and God willing, I will come into town with it. We will have neither flags nor banners; nor musters; he, but bread and meat; and clothing, and far lighter and gladder hearts than any who huzzad in 1840 or '44. See if we don't.

The Legislature of Michigan has lately had under consideration several petitions praying that the laws of the State may be so 'simplified' as to come 'within the knowledge of every person,' and that every man may be admitted to the bar.

The committee to whom it was referred, reported favorably; and hailed with undigued delight such a harbinger of an approaching millennium.

The editors of the N. Y. Evening Post estimate the population of that city at the present time as follows:

New York city,	400,000
Brooklyn,	60,000
Williamsburg, Jersey city & Hooken,	60,000
<b>Total</b>	<b>472,000</b>

There were erected in New York during the last year, 1210 buildings. Many of these cost from \$20,000 to \$40,000—and a few of them as much as \$70,000.

### MORSE'S TELEGRAPH.

The New York correspondent of the Philadelphia Ledger, dated Thursday, says—Amos Kendall, Esq. yesterday completed arrangements with capitalists here for the establishment of a communication, by Morse's Electric magnetic Telegraph, between Washington and this city. The estimated cost through is \$250 per mile.

### SALE OF ARABIAN HORSES.

The two Arabian horses, received as present to Mr. Tyler, by the Consul of the United States at Sanzib; from the Imam of Mougar, were sold, pursuant to an act of Congress, on Tuesday the 15th inst. They are light grey; mottled. One seven years old, brought \$450, and was purchased by a gentleman from Louisiana, and other, eight years old, brought \$190 and was purchased by Dr. John Baldwin.

### PENNSYLVANIA JUSTICE.

R. E. Wright, Esq., of Allentown, proposes to publish early this spring, a supplement to the Pennsylvania Justice, containing a practical digest of the Acts of Assembly and Decisions of the Supreme Court of Pennsylvania, relating to the office and duties of aldermen and Justices of the peace with all necessary forms and entries with a copious index.

The work will be sent by mail to all who order it at 50 cents a copy but no order will be attended to unless the cash accompany it.

### SHOOTING A SLAVE.

The Baltimore American says:—We learn upon the authority of a letter from Charles county Md. received by a gentleman of this city that a young man named Mathews killed one of the slaves upon his father's farm by shooting him. The letter states that young Mathews had been left in charge of the farm; that he gave an order to the servant which was disobeyed; when he proceeded to the house obtained a gun and returning shot the servant. He immediately the letter continues fled to his father's residence where he still remains unno-lessted.

The Col States Steamer Princeton, now at Philadelphia, has received on board her big gun the Oregon, and a supply of hollow shot weighing about one hundred and sixty pounds each.

A large amount of money has been forwarded to Pitsburg, from different places, in aid of the sufferers by the late fire at that place.

In calling a jury in the Superior Court of New York a few days since but one jurymen appeared, and the counsel rather than wait until the others were caught, tried the cause before him, and he decided in favor of the plaintiff.

### INDIAN TROUBLES.

The Cherokee Advocate, of March 20th, gives a long account of outrages which it says have been committed within the Cherokee territory by soldiers from Fort Gibson. It charges them with burning a house, from which the inmates barely escaped, with brutal assaults on men and women; and in short with being a plague or a terror to the Indian population. Colonel Mason, the commandant of the fort, is presented as taking prompt and proper measures to detect and punish the offenders.

### BREACH OF PROMISE.

At the Prince George's County last week Mrs. Manning a widow lady sued Mr. John Parker for a breach of promise laying her damages at \$10,000. The jury brought in a verdict of 'not guilty' and the lady moved for a new trial. Six eminent counsel are engaged in the case.

### A NEW BUSINESS.

A man was arrested in Philadelphia week before last, and committed to prison, charged with selling dog meat for mutton in the market. His 'chops' had been celebrated all over the city, for their delicacy and sweetness and he had quite a 'run' of custom—circumstances going to prove that the vulgar prejudices against dog meat, besides being highly reflective upon the character of those 'sagacious animals,' is altogether unfounded.

### INTERESTING ITEMS.

A Western editor, under this head informs, his readers that the office devil has got the measles—and that his press is to be sold by the Sheriff, and that his wife has presented him with twins. Misfortunes never come single.

### NOBLE.

Joseph Reed, one of the ferryman between Hudson and Athens, was rowing in his yawl at the time the Swallow struck the rock. As soon as he appreciated the nature of the disaster, he used all his efforts to reach the place and succeeded in saving the lives of 5 persons who were floating about on boards and fragments of the wreck. By several of them he was offered a reward for his untrepidity, which he refused, and said—'Although I am a poor man, I did not exert myself to save your lives for the sake of money!'

### IRON MANUFACTURE.

The iron interest never looked more prosperous than at this moment. The demand for the article in the construction of railroads and other public improvements, bids fair to exceed that of all previous time. We rejoice at this, not alone because our State is largely interested in iron and extensively engaged in its manufacture, but because the works of improvement projected which will require its use, indicate a growing prosperity of the country and the rapid development of the nation's resources. Many of the old lines, but imperfectly completed during the reign of wild speculation, eight or ten years ago, are attracting attention & will generally, ere two years pass over, be put in full operation—while others which were then built, and have been since in active use, will require renewing. The growing demands in Europe for iron from the extension of railroads there, will cause a large home demand and advance the price, which, with the improvements in the manufacture here, must make the business large and profitable.—Dollar Newspaper.

### IMPORTANT DECISION.

A case was decided in the Court of Common Pleas recently before Judges King, Jones, and Parsons, which is considerably important to an agricultural community. The suit was instituted to prevent the defendant from committing waste by removing the manure from the premises of the plaintiff, of which premises the defendant was the tenant, and from which he was about to remove, his tenancy having expired. Judge Parsons delivered the opinion of the Court, and decided that the tenant could not remove manure from the land, where the place is rented for the purpose of agriculture—that it is a part of the freehold, and the attempt to remove it on the part of the tenant is waste.

Sealing wax is now made so as to ignite by friction, which does away with the trouble of procuring a lamp to assist in sealing letters.

### A NEW STEP IN HORTICULTURE.

Cherries are produced in France with out stones in the following manner:—Early in the spring, before the sap is in full flow, a young bearing tree is divided in 2 down to the branching off of the roots, the pith carefully removed with a wooden spatula the parts again united, the air being excluded by an application of potter's clay the whole length of the opening, and bound together by woollen cord. The sap soon reunites the served parts, and in 2 years the tree will produce cherries of the best kind and having in their center instead of the usual kernel, a thin soft pellicle.

Iowa, one of the stars recently added to our Union, refuses to shine in company with the rest of the constellation. In other words, she refuses to enter the Union, a majority of her people having on the 7th inst. rejected the constitution and boundaries proposed by Congress. A compromise, satisfactory to all parties, will probably be adopted by the Territorial Legislature next month. The cause of the refusal is a difficulty in fixing the boundaries of her sphere. ### AN EXTENSIVE WINDFALL.

Sometime within a year, Mr. Amos Stetson deceased, in Roxbury, Mass. leaving a property of about half a million of dollars. He died a bachelor and without any will. Having no near relatives, his property is now in process of distribution among numerous distant kindred. Quite a number of persons, more or less remotely connected with the deceased, in Belcher town, Amherst, Shutesbury, and other places in this county, are receiving shares of this world's goods accumulated by their departed relative in sums varying from 2 to 4000 dollars. Two persons in Belcher town, in moderate pecuniary circumstances, presented their checks at the Northampton Bank, a few days since, for about \$300 each. It is stated that not less than \$50,000 of this estate will be distributed in Belcher town, and probably \$30,000 in Amherst. A few persons, also, in the western part of the county, are lucky recipients of this large estate. We understand that Mr. Simeon Cowels, of Goshen, has received \$4000.—Such a distribution of an estate is very rare.

### NO ACCOUNTING FOR TASTES.

Alexandria letters mention that much candle has been occasioned in Cairo, by the expressed desire of a young English lady to be received into the bosom of Islamism, in order to wed a young Egyptian who had captivated her. As the young lady is a minor, the British consul sent her back to England to prevent the alliance.

Captain Joseph Parker, son of South Trenton, who fought under Washington at the battle of Monmouth, and composed one of the scout stationed on the Monmouth beach, died on 9th inst.

### FACTS FOR THE PEOPLE.

Which it would be well to remember, viz.—that Sherman's Cough Lozenges have raised the Rev. Darius Anthony from the verge of the grave, when he was given over by his physicians and surrounding friends—that they have cured Jonathan Howarth, the celebrated temperance lecturer when all other means failed—that the Rev. De Forest, Rev. Sebastian Streeter, Rev. Mr. Dunbar, Rev. Mr. Hancock, Hon. Mr. Archer, of Virginia, and James W. Hale Esq. have experienced more relief from them than from any other remedy they had ever used. That Sherman's Worm Lozenges have been instrumental in bringing away more worms, and saving more children from an untimely grave, than any other worm remedy ever known, and are recommended and prescribed by the first physicians in the land—that the Camphor Lozenges prepared by Dr. Sherman, is a sure cure for Headache, Palpitation, Nervous Affection, and all the diseases arising from free living, and that Sherman's Poor Man's Plaster stands unrivalled as a strengthening plaster, curing the worst cases of Rheumatism, Pain and Weakness in the back, side, chest or extremities, in a short space of time, and restoring to perfect health. And last, not least—that Dr. Sherman is not a quack, but a regular physician who understands the preparation of all his medicines, and warrants them to be the most pleasant, safest and best medicines in the world.

### WORMS KILLS THOUSANDS.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, yawning, weakness in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes of voracious appetite, are among the symptoms of worms. Many are destroyed for months, for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. D. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges. He is now as fat as an Alderman. Th. Hon. B. B. Boardley has saved the life of one of his children by them. The sale of over 3,000,000 boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them!

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest; the Rev. Mr. Streeter, Jonathan Howarth, Esq. and that worthy old hero, Leonard Rogers, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. Mr. Hancock, Wm. H. Atwood, Esq. of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and Palpitation, relieved or from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms in travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Knott, of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadbuck, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon rheumatism, lumbago, pain or weakness in the side, back, breast or any part of the body. Mr. H. G. Dagers, 30 Ann street; Henry R. Goulding; 35 1/2 Chatham street; Moses J. Henriques Esq. and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1/2 cents. Caution is necessary so see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trade with your life for a shilling.
