

A WIND FALL.—DISCOVERY OF ANCIENT TREASURE.—The Macon (Geo.) Messenger gives an account of the discovery of hidden treasure to the amount of forty-five thousand dollars in Tatavol county, in that State. The discoverer, on blowing up the root of a tree, discovered three dollars, and on digging deeper succeeded in exhuming the above large amount. The money was found on the land of Mrs. Gray, a widow in needy circumstances.

The Special Mission to England.—The Washington Union positively contradicts the rumor that Mr. Calhoun was about to be appointed on a special Mission to England.

Letter from General Jackson.—M. J. C. Rives publishes in the Union the following extracts from a letter received from General Jackson, confirming the report of the approaching dissolution of the old patriots.

HERMITAGE, May 3, 1845.
"My dear Mr. Blair;
This is the third effort I make to acknowledge the receipt of your kind and much esteemed favor of the 19th ultimo. I read in every word of it your sincere friendship and regard—I esteem it a legacy beyond price.

We are all cheered at the Hermitage with the hope of seeing our kind friend Mrs. Blair, with you and family, at the Hermitage. Relieved, as you now are, from the incessant labor of editor of the Globe, a journey with Mrs. Blair as far as the Hermitage would renew your health, and be of great benefit to you. What pleasure this would give us all, and our dear little Rachel in ecstasy that she will see her dear friend Mrs. Blair. It would be a great treat to have one hour's chat before I go hence."

Here follow several sentences concerning his papers, concluding with these words:—"I wish them handed over to you whom I will them for the defence of my reputation. There are many private papers that ought to go into no other hands than a confidential friend's."

"Our friend Col. Polk will now * * * * * to meet the braggadocio and bluster of Peel and Russel, put forth at this time to alarm, the timid and spur up the American traitors. My dear friend, I am exhausted, and must close. I am a blubber of water from the toes to the crown of my head, and every line I write must pause for breath. May the choicest blessing of Heaven be bestowed on you and every branch of your family, is the united prayer of the inmates of the Hermitage."

This letter occupies a little more than two pages of letter paper. The handwriting is as good as he ever wrote—no sign of tremor, and not a word scratched out, or interlined.

A NEW AWL SHAFT.
Messrs J. B. Smith, of Worcester, Mass have patented and are making a new awl shaft, which promises to be of great utility to shoemakers, and others using awls. The shaft is made of leather, as solid and compact as wood, but, unlike wood, perfectly secure from splitting. The awls are changed at pleasure, and when inserted are entirely firm, and strongly set.

The Cincinnati papers are rejoicing over the prospect of a speedy communication with Lake Erie, by means of the railroads from that city to Sandusky.—The additional stock of \$500,000 required has all been taken.

A man has been fined \$29 and cost for setting his dog upon a person in Boston. Another has been fined \$50 for encouraging his fight. A few such examples here would do good.

Mr. Healy, the young American artist, who came home in the Hibernia, has been commissioned by Louis Philippe to take the likenesses of General Jackson, John Quincy Adams, Daniel Webster, and Henry Clay.

Iron Ore, says the Sunday Gazette, has been found in immense quantities in the Shamokin Coal region. This region contains a greater amount of the best anthracite than probably any other region in Pennsylvania, and another valuable mineral being now found with it, will add greatly to the importance of the district. There is of the black band variety.

The first three weeks of May have been very dry, and the wheat crops upon the uplands in this vicinity have suffered considerable in consequence, but the past week has turned the tables, by giving us several refreshing showers, which have already changed the appearance of nature, and clothed vegetation with a superb mantle of green.

Five hundred men are engaged in the business connected with the working of the stone quarries at Quincy, Mass. The quarries are twelve in number, the largest amount of stone got out from any one quarry was 20,000 tons a year. One quarry is worked by and for the laborers themselves, who leased it on their own account.

MELANCHOLY CIRCUMSTANCE.
It becomes our duty to record a painful and most melancholy circumstance that occurred at Hughesville, in this County, on Tuesday last. As the Battalion, on parade at that place, was entering the field Mr. Elijah Sanders, a resident of Muncy Creek township, who had by some means got behind his company, attempted to get over the fence at or near the place where Mr. David McCarty, of this Borough, was stationed as a guard. Mr. McCarty in attempting to resist the forcible passage of Mr. Sanders placed his gun against the breast of Sanders with the intention of pushing him back, a tussle ensued, and the gun, which unfortunately contained a charge of powder went off and the contents entered the right side of Mr. Sanders' bowels. Dr. George Hill was immediately called to his assistance who carefully examined and dressed the wound, but without effect, as he survived but 14 hours when he expired, leaving a wife and two children to mourn their loss.

An inquest has since been held by the Coroner and a verdict that Mr. S. came to his death by the discharge of a gun in the hands of David McCarty. We may also state that Mr. McCarty has given himself up to the proper authorities and entered bail in the sum of \$2,000 for his appearance at Court.

As the affair will undergo a judicial investigation we do not think it in place to say much upon the subject, but so far as we were able to learn, and we took considerable pains to get at the particulars, we have no hesitation in giving it as our opinion that it was purely accidental and without the least intention on the part of Mr. McCarty.—Muncy Luminary.

A BEAUTIFUL THOUGHT.
Mrs. Child in one of her late pleasant fancies has this truly poetic sentiment: "Two souls that are sufficient to each other,—sentiments, affections, passions, thought, all blending in love's harmony,—are earth's most perfect medium of heaven. Through them the angels come and go continually, on missions of love to all the lower forms of creation. It is the halo of these heavenly visitors that veils the earth in such a golden glory and makes every little flower smile its blessings upon lovers."

The Pope of Rome is not the only person who makes war against Odd Fellows. Six of that fraternity have been excommunicated by the Baptist Church in Unionville, Washington co., on account of the supposed inconsistency of the tenets of their order with a religious profession.

LARGE TREE.
There is an apple tree in full growth on a farm at Spring Valley, near Hackensack, Bergen county, N. J. which measures twelve feet nine inches in circumference, and which produced 100 bushels of fruit in one year.

GOD BLESS THE DUKE OF ARGYLE! was once a common saying in Scotland, especially by those who had occasion to avail themselves of the use of certain posts he had caused to be erected at convenient distances as substitutes for fresh horses. We have no Duke in this country—all are nature's noblemen—but we have our liberal and benevolent individuals, who do as much for the good of their fellow beings as any of the titled aristocracy of the old country. Look around you and see the numbers that have been benefited, and even saved from an untimely grave by Dr. Sherman's Lozenges. He is the only educated and experienced Physician who has engaged in preparing medicines adapted to every class of disease. There are numerous ignorant pretenders in the field, but they cannot contend against his skill, knowledge, and experience. Formerly it took weeks to cure coughs and colds that his Lozenges will effect in a few hours, and headaches in so many minutes. This is truly a new era in medicine.

PROSPECTUS OF
THE UNITED STATES JOURNAL
By JESSÉ E. DOW & Co.

THE first number of our new paper will be issued this (first) day of May, with an entire new dress—new type, fine white paper, with other important alterations and improvements. The patriotic principles it will zealously and unflinchingly oppose each and every effort to establish a monarchic monarchy; and other mischievous corporations and consolidations of wealth, which subvert the rights of the people and undermine the pillars of the Republic; it will oppose an oppressive and anti-republican tariff system, the assumption of the State debts by the General Government, and all other Federal principles which have an inevitable tendency to destroy public prosperity as well as individual happiness. Against all such political delusions we shall wage unflinching, uncompromising war.

The Farmer and Mechanic who produce all the real capital of the nation, will find in our paper an unwavering champion of their inalienable rights; the long cherished principles of the editors are too well known to the public to require any pledge on this point. To the Miscellaneous Department particular attention will be devoted, the Ladies will always find in our columns a choice selection from the current literature of the day, as well as original contributions from the most talented writers of which our country can boast. A general summary of Foreign and Domestic news will be furnished; a regular price current and a correct list of the prices of stocks will also be given.

The conductors have already secured the aid and co-operation of a large number of the most distinguished literary and political writers of the day; arrangements will also be made, at the earliest period possible, to embellish our columns by the contributions of correspondents from abroad. With this brief and imperfect outline of our plan, we very respectfully submit our claims to an extensive patronage to the consideration of a generous public.
