

From Dicknell's Reporter.
A Change for the Better.

It cannot but be gratifying to every Philadelphian, to notice the many improvements that have taken place in the city and its suburbs within a short time. There are few of us who cannot remember the gloom and inactivity by which Philadelphia was characterized a year or two ago, immediately after the failure of the Bank of the United States, and the other many monetary disasters connected with the fall of that Institution. Indeed, for a time, it was quite difficult for our most energetic and enterprising citizens to muster courage adequate to the crisis. Stores and houses were to rent by hundreds, and at rates ruinously low to owners. A fearful panic prevailed. The clouds of misfortune seemed to hang heavily over us, and it was difficult to discover even a solitary ray of light in the future. Many millions were lost by our citizens in one way or another and the whole community suffered. But thanks to Providence—thanks to the steady, honest, persevering character of our community, the gloom and the panic have gone by. Philadelphia has fully recovered her vicissitudes, the spirit of enterprise has become back to her confidence is again felt by her capitalists, traders and business men generally, may be said to be prosperous. The signs of the times with regard to our city and vicinity, are certainly cheering. Property has risen in value, improvements are in progress in almost every quarter, cheerfulness has taken the place of despondency, many new buildings have been erected within the last year, eligible dwelling houses and we stores are in fair demand, and have much to be grateful for. We have among us a large amount of health. Our city is a beautiful one and is happily located; the coal and iron of our State, are resources, the importance of which can scarcely be over estimated, the canal and railroads that branch out in every direction, serve as admirable channels of trade and traffic; while for general health we may confidently compare with any city in the Union. We need a little more enterprise perhaps, a larger and more comprehensive policy on the part of our legislature, and other authorities, and somewhat more of boldness in our mounted men—

Which these Philadelphia could not but go ahead at a still more rapid pace. In truth, we do not make enough of our advantages. We require, perhaps, a few daring spirits to give a new impulse to enterprises of various kinds; but sooner or later, these men will start up and move forward from their present positions of comparative inactivity.—And then the results will not only surprise but gratify every true-hearted Philadelphian.

LANCASTER COUNTY.

We learn that the county of Lancaster has responded to the State Treasurer's call in reference to the advancement of that county's quota of the State tax, on or before the 1st of August next, by resolving to comply with it. The amount is about \$90,000 and the Banks of that county have volunteered to make any deficiency of collection that may be found to exist. There is every reason to believe that the quota for Philadelphia County, over three hundred thousand dollars, will also be raised in time to secure the allowance of the debture of five per cent. These two counties raise nearly one half of the semi-annual State interest, and with the amount to be realized from the ordinary sources of revenue will from the best data for estimates be sufficient to pay the interest as it falls due, without recourse to the drawing of checks.—Ledger.

The Clarion Democrat says:—"That the late hard frosts have destroyed nearly all the fruit, and many garden vegetables, and bitten the new blown foliage of the forest."

The Marquis De La Lalarque, companion of the Great Western. It is said he is on a visit to this continent in an official capacity, either as Minister to this country, Mexico or Texas, or to the three at the same time. It is supposed that he comes from France to watch the movements in Texas, Mexico and the United States, relative to annexation.

The pillory and the whipping post still form a part of the instruments of punishment in Delaware, Wm. M. Porter was fined and convicted at Castle, during last week for horse stealing. He was sentenced to receive thirty-nine lashes on the bare back and to remain in the pillory one hour, which punishment was inflicted upon him on Monday. He is to be sent to New Brunswick on the 3d of June, where he will again be tried for a similar offense.

A Magnetic Telegraph, is to be laid between Utica, (N. Y.) and Albany. The arrangements for laying wires have been made and the work is to be immediately commenced.

FASHION AND PEYTONA AGAIN.

It is said that another match is concluded between these celebrated racers, to come off at the end of June, over the Canton Course, near Baltimore, for \$20,000 aside, which is fairly to determine the champion ship.

The Force of Habit, was remarkably exemplified recently in Kentucky, on the occasion of a funeral. The bereaved wife and a few neighbors, sat waiting the arrival of the people, all solemnly idle. The widow, becoming very uneasy, after sitting idle a few minutes cried out, 'Betty! bring me my knitting, I may as well take a few stitches while the crowd is gathering.'

FIRES of an extensive kind seem to be calamities affecting all the principal cities. The dreadful conflagration which occurred at Quebec (Ca.) last week was attended by loss of life. Twelve bodies have been recovered. One painful incident was the destruction of the Hospital, to which as being considered entirely out of the reach of the conflagration, numbers of sick persons of all classes, were carried when the building became ignited by the flakes of fire carried from the distance by the wind; the unfortunate inmates, unable to help themselves perished miserably. The total loss has been variously estimated from \$1,600,000 to \$3,000,000.

In making some Excavations near the mouth of Mad river, (Ohio,) trees were dug up, which must have been buried there five hundred years or more. They have been covered over with sand by a change in the channel of the river.

ODD FELLOWS' CELEBRATION.

The Odd Fellows laid the corner stone of a new Hall in Louisville, Ky., on the 10th inst. A large concourse of the fraternity attended from different places in Kentucky, Indiana and Ohio. An oration was delivered on the occasion by the Rev. C. B. Parsons in one of the Methodist churches.

The population of St. Louis in 1830 was 6,252; in 1845, 35,930.

An Ingenious Invention is noticed in the N. Y. papers. It embodies, in the form of an ever-point pencil case, an accurate balance for the 5, 10 and 20 cent rates of postage, under the new law, the 1/4, 1/2 and two ounce weights, a pen-holder, ever-point pencil, toothpick ball sovereign, glass and magazine for leads, and several other appendages.

FATHER MATHEW, THE CHAPMAN OF TEMPERANCE.

He is a man of a most extraordinary character and all but banished the monster Alcohol from the land. He is soon expected to arrive in this country, where an ample field is offered for his labor of benevolence, and it is to be hoped that the same success will follow his steps. Dr. Sherman has laid the foundation for like revolution, and one that bids fair to be equally extensive. It is the system of administering medicine to the sick in such a manner as that the most noxious and disgusting medicine becomes pleasant and palatable. This is no important thing as many have no doubt derived from inability to take the ordinary preparations, from abstinence to them. No the afflicted can cure their coughs and pulmonary affections with little or no trouble, and consumptions, and those who are subject to attacks of spitting of blood may find a remedy for the evil. Worms, whether they will or no; and the little ones, once they get a taste of the worm destroyer are sure to cry for more. Headaches may be cured in from three to five minutes by a proper use of the Camphor Liqueur. Also, nervous affections, palpitations, &c. may all be relieved by the use of the same means. And the Poor Man's Plaster is truly a wonderful remedy for rheumatism, pain and weakness in the back, side and chest, and is undoubtedly the best Strengthening Plaster in the world. We consider all the preparations made by Dr. Sherman as invaluable—being a regular physician, and one so well skilled in the treatment of disease; and the public can rely upon his preparations, as he attends personally to the manufacture of them all, and there is not a possibility either that a mistake should be made, or that the sick will get a wrong medicine for the disease under which he may be suffering.

HISTORY OF WYOMING BY
CHARLES MINER.

SUBSCRIPTIONS are respectfully solicited for the forthcoming History of Wyoming. The work, now ready for Press, will make an Octavo volume of about six hundred pages, of which five hundred pages will embrace the main body of the narrative. The Appendix, besides a variety of curious and illustrative articles, will contain the "Hazards of Travelers," revised with numerous additions, personal anecdotes, incidents and sketches of character, making about a hundred pages. The author thinks proper to say, that no pains have been spared to obtain information upon every point connected with this subject. He has diligently hunted up every available source of information—such as unpublished papers, journals and other documents, and has been assisted in his researches by the most distinguished gentlemen of the State. The purpose of taking up subscriptions is to enable the author to judge what number of copies it would be proper to publish.

The Book will be neatly printed in octavo form, on excellent paper, with several illustrative plates, bound in cloth, in modern style, and delivered to subscribers at Two Dollars a copy.
No money to be paid until the Book is delivered.
Subscriptions received at this Office.

PROSPECTUS OF
THE UNITED STATES JOURNAL.

By Jesse E. Dow & Co.

THE first number of our new paper will be issued this (3rd) day of May, with an entire new dress—new type, fine white paper, with other important alterations and improvements. The paper will be devoted to a fearless exposition of Democratic principles; it will zealously and unflinchingly oppose every effort to establish a monarchial and aristocratic system, and will vigorously maintain the rights of the people and undermine the pillars of the Republic; it will oppose an oppressive and anti-republican tariff system, the assumption of the State debts by the General Government, and all other Federal principles which have an inevitable tendency to destroy public property as well as individual happiness. Against all such political delusions we shall wage unflinching, uncompromising war.

The Farmer and Mechanic who produce all the real capital of the nation, will find in our paper an unwearied champion of their inalienable rights; the long cherished principles of the editors are too well known to the public to require any pledge on this point. To the Miscellaneous Department particular attention will be devoted, the Ladies will always find in our columns a choice selection from the current literature of the day, as well as original contributions from the most talented writers of which our country can boast. A general summary of Foreign and Domestic news will be furnished; a regular price current and a correct list of the prices of stocks will also be given.

The conductors have already secured the aid and cooperation of a large number of the most distinguished literary and political writers of the day, arrangements will also be made, at the earliest possible moment, to embellish our columns by the contributions of correspondents from abroad. With this brief and imperfect outline of our plan, we very respectfully submit our claims to an extensive patronage to the consideration of a generous public.
