

SINGULAR ACCIDENT.

On the 20th ultimo, a horse upon which the wife of Nathaniel Buris, near Vincennes, Indiana, was riding, stepped upon a horse's nest. The insects immediately commenced stinging the horse, whereupon he reared, plunged until he threw Mrs. Buris, and then fell upon her crushing her instantly to death.

HORRID.

A little daughter of Mr. Thomas Sargent of Twelve Mile Prairie, was killed by falling into a threshing machine, while driving the horses for her father, one leg was torn off above the knee, the other foot was torn entirely off, and she was otherwise horribly mangled.

A WINDFALL.

It is said that the Hon. Levi Lincoln, formerly Governor of Massachusetts, a member of Congress, and Collector of the port of Boston, has recently received, by the will of the late Daniel Waldó, the sum of eighty thousand dollars.

WARLIKE.

Orders were received on Saturday requiring Capt. Dunnean, now at Fort Hamilton, a few miles below New York, to be in readiness at a moment's warning with his company of Flying Artillery to march for Texas. It will require two small vessels to transport this company with their horses. Their destination is the mouth of the Arkansas.

The Washington Union says:

'We understand that Major Donelson has in all human probability, completed his great task, and is anxious to return home. He has asked permission to leave Texas, and letters of recall have been sent to him. In fact, it is not easy to perceive the necessity of sending a new Charge to the United States, as President Jones proposes.'

TO CURE A COUGH.

The editor of the Baltimore Farmer says the best remedy he ever tried in his family for a cough or cold, is a decoction of the leaves of the pine tree, sweetened with loaf sugar, to be freely drunk warm when going to bed at night, and cold throughout the day.

The Baltimore Clipper states that Alexander H. South, Esq. of St. Michaels, Talbot county, Md., plucked a head of wheat from his field this season, which had 116 perfect grains in it, being the greatest number in a single head yet recorded, so far as we are aware. It was the Polish wheat.

A French chemist strongly deprecates the use of saltpetre in curing meat, and recommends sugar as equally efficacious. He attributes scurvy, ulcers, and other persons living on cured provisions are subject, entire to the chemical changes produced by saltpetre.

The residents of California say they have never known the wind to blow from the north east, within 30 miles of that coast.

George Washington Parke Custis, the only surviving son of Mrs. General Washington, is now on a visit to the Eastern States, for the purpose of personally inspecting the grounds which were the scenes of revolutionary conflict in that vicinity. He is a fine, hale old Virginia gentleman.

The Onachita Courier says a gentleman from Arkansas, who came down on the Belle on her last trip, exhibited the rattle of a rattle snake, which must have been at least forty years of age. It had 30 rattles, and a button, and was killed in Ouachita county, a few miles from Camden. This is the oldest snake of that species of which we have ever heard. Ouachita can 'make the socks' for big snakes, sure.

NEW MODE OF LIGHTING IN FRANCE.

The French papers state that the rumors of a very interesting and astonishing discovery begin to be circulated in Paris. It consists in furnishing the means of lighting, simultaneously, all the different high ways which cross France in all directions, by means of simple iron wires connected with electro magnetic machines. The utility of this discovery is immense, as it will render the roads as well lighted and safe as the most frequented streets of the capital. Several experiments have already been made on the road from Paris to a small town on the Havre road, which were crowned with entire success. Gas light is said to be nothing in comparison to that given by the above process.

The New Orleans Courier says:—'We have heard that General Taylor, who commands the American troops on the Nueces has determined to take possession of a small fort, constructed by the Mexicans on the eastern bank of the Rio Grande and to send the garrison to the other side of that river.'

The rumor that Mr. Buchanan, will go upon the Supreme Bench in December next now revived by the N. Y. Herald, is as false now as ever it was, and it is well known that he declined the place nearly a year ago. Mr. Buchanan will remain in the Cabinet and aid in the settlement of the Oregon question, according to the well known rights and the notorious wishes of the country.

IRON.

A most important discovery in the manufacture of iron has been made at Troy. The West side of Lake Champlain abounds in magnetic ore, from which the new iron is made in a reverberatory furnace, with only one heat. The result is a soft, malleable iron, capable of being drawn into the smallest wires. It is obtained by a process of deoxidizing the iron, for which process a patent has been secured by the inventor. The cheapness and facility with which iron can thus be produced, make it one of the first inventions of the age. How will the makers of iron in the old fashioned way be protected against this improvement?

MEXICO AND THE UNITED STATES.

Nothing can illustrate more forcibly, perhaps, the difference between the Anglo Saxon and the Spanish system of colonization and races, than a comparison between the growth and population of the countries named at the head of this paragraph.

In 1793 the population of Mexico was 5,270,000; in 1842 it was only 7,015,500. In 1753 the population of the United States was 1,051,000; in 1810 it was 7,239,900; in 1840 it was 17,670,000.

Both countries have broke away from Colonial bondage—both had to endure a wasting revolutionary war, and both are now independent. Yet with what difference of power, of happiness, and of freedom!

In Mexico it is believed there are fewer people who can read and write than there are in the United States who cannot. This single fact is full of significance.

PUSEYISM, MORMONISM, TYLERISM, and various other 'isms,' seem to agitate the community at the present time and to create many bitter feelings among the many disputants. It is acknowledged that they are very exciting subjects, and calculated to 'rouse up' every person who once drawn into the vortex of contention. If the combatants only knew how effective Sherman's Camphor Lozenges were in keeping down bad blood and restoring tranquility to those who were over excited, they would at once resort to them and thereby be enabled to maintain a proper degree of decency in their behavior, in doing which they would avoid bringing reproach upon the various causes which they endeavor to sustain, especially as it is much to be feared that such hot-headed conduct will only hasten the inevitable overthrow which is sure to overtake a bad cause. And not only will Dr. Sherman's Lozenges produce good effects in the above cases. His Cough Lozenges cure coughs, colds, consumption, asthmas, and all difficulty of breathing. His Worm Lozenges drive away and destroy worms of all sorts in children, and his Poor Man's Plaster will give such strength to a weak, that, if in any of the above controversies, any of the opponents should close with each other, those wearing the Plaster on the back will be sure to win the day—he cannot be thrown down.—But you must be sure to get the genuine—the counterfeit article will not answer the purpose, although they may look externally like the genuine Sherman's Poor Man's Plaster. Their spuriousness may be known by their not having Dr. Sherman's name and signature upon the back.

Dr. Jayne's FAMILY MEDICINES.

JAYNE'S HAIR TONIC. This Hair Tonic has produced beautiful New Hair in the heads of hundreds who had been bald for years. It also purifies the head from Dandruff—Cures diseases of the scalp—Preserves the hair from falling off or becoming permanently gray. JAYNE'S CARMINATIVE BAL-SAM.

IS a certain, safe and effectual remedy for Dysentery, Diarrhoea or looseness, cholera morbus, summer complaint, colic, griping pains; sour stomach; sick and nervous headache; heartburn, waterbrash; pain or sickness of the stomach; vomiting; spitting up of food after eating; and also where it passes through the body unchanged; want of appetite; weakness and inability to sleep; wind in the stomach and bowels; cramps; nervous tremors and wickings; muscle-aches; fainting, melancholy and weakness of spirits, fretting and crying of infants and for all bowel affections and nervous diseases.

Dr. JAYNE'S TONIC VERMIFUGE. Which is perfectly safe and so pleasant that children will not refuse to take it. It effectually destroys worms; neutralizes acidity or sourness of the stomach; increases appetite and acts as a general and permanent Tonic and is therefore exceedingly beneficial in intermittent and remittent fevers and indigestion; &c. and is a certain and permanent cure for the fever and ague.

DR. JAYNE'S SANATIVE PILLS. They may be taken at all times and in most diseases.—In Inflammatory, intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsia they are really an invaluable article, gradually changing the vitiated secretions of the stomach and liver, and producing healthy action in those important organs. They are very valuable in diseases of the Skin, and for what is commonly called 'Impurity of the blood;' also for Female Complaints, Costiveness &c., and in fact every disease where an aperient, Alterative, or Purgative Medicine may be required.

JAYNE'S EXPECTORANT. It always cures Asthma—two or three large doses will cure the Croup or Hoarseness of children, in from fifteen minutes to an hour's time. It immediately subdues the violence of Whooping Cough, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with Consumption, have been restored to perfect health, by it.

In fact, as a remedy in Pulmonary Diseases, no medicine has ever obtained a higher, or more deserved reputation.

The above Medicine are all for sale at the store of JOHN R. MOYER, Bloomsburg. 36
