REPORTED BY SCRIBLERIOUS,

Enter- Valentine and Charles;

V .- Good day neighbor C. I was jus ooking for you in order to have some con ersation and I am glad to find you here. We must settle upon some uniform line of REMOVAL TICKET. policy to pursue in relation to the election this fail, and then act together in every thing. To do this we must in the outse understand each other or we can do nothing o advantage.

> C - I agree with you exactly, and wil co-operate with you to the extent of my power to defeat our opponents. But what can we do The propects shead looks dark enough just now, and what is the use of struggling sgainst fate! It seems to me that the Seat of Justice will go up the river in spite of us, and we have nothing left to poset of except our Iron Works and our foreign voters, Thanks Heaven they can be moved, or I suppose these cursed up creekers would be at it.

V .- Not so fast, friend Charley! The darkest hour is just before daylight you know, and I have hopes that we can kick up a dust yet if we act with proper ingenuity and discretion.

C - Well, let's hear what you propose

to do V .- Why, just this. We can't defea the Removal Bill directly, that's certain But, as Sam Patch said, some things can be done as well as others, and what we can' do directly we may do in lirectly. Let us try to break up the Removal ticket in detail gy getting out Removal men as volunteers, & tory is more than half ours' & the removal ites will, if I cipher correctly, be a used up

C .- How do you make that out?

V .- If the public officers elected are of posed to the measure or merely luckewarn in their support of it, we can postpone and delay it, at all events. What will be the consequence? Why we will make then fight the battle ovor again next year when mers bit our sine than we have the foreign C .- That does seem encouraging.

V .- That is just the way we fixed then n 1836. They had almost got the Remov al, but we managed at the last election, tha we had any hope to do anything, to get them to fighting each other, and then we struck in and used them up sweetly and effectually. We will play the same game papers?
