tenor. William Trumen testifies:

While I was employed at bone crushing the men were in the habit of picking the bones and eading the marrow out of them. Some of the marrow I have s en the men eat was red, black, pur ple and all manner of colors. It smelt very badly, enough to knock me down. It made me quite ill, so that I could not + amach my victuals when I got home, it. I never eat any of the bones myself needay, the 19th day of November next, at 2 o'clock for a number of the Appendix a week; but nor did I eat any of the marrow. What P. M. they ate was not fit for a dog. Very it w dogs would eat it, I believe that the cause of the men eating the bad stuff as hunger."

These facts, concerning the management of the Audover Union Worknouse, led to enquiry. Mr. Mundy, one of the guardians made a personal revestigation and on ascertaining the facte, and even examining bones that and been hid away under the ash heap upon which dirty water and other fillt had been thrown, requested of the Board that the Foor Law Commissioner should he invited to make an inquiry into the case. They refused - some of them sayang it was a matter of taste, and if the men enjoyed the picking of the bones they should, not be prohibited from it? Through the exertions of Mr. Wakely, the Coroner an inquiry was instituted which established every thing charged sime of the witnesses even going bequiry was stopped, although other char ges of misconduct,still more outrageous.
