BALDNESS AND LOSS OF HAIR.

Is caused by want of healthy action in the which throw off the perspiration from the head. When these vessels are weak or diseased perspiration is thick and clammy, and adheres to the mouths of the pores, and clogs them up, and dries and forms scurf and dandruff. Less blood is then carried to the roots of the hair, and for want of which the hair has not sufficient nourishment, and consequently becomes dry and harsh, and begins insensibly to fall off, which continuing to increase, eventually produces baldness. Restore the capillary vessels of the head to their former healthy circulation, and fine silky new hair will make its appearance, which will increase in quantity and volume, until the hair becomes thick and healthy.

Jayne's Hair Tonic is the only preparation that has ever been known to produce new hair on bald heads, which it has done in innumerable instances, and will seldom fail if properly and perseveringly used.

The above Medicine are all for sale at the store of **JOHN R. MOYER,**

WORMS IN CHILDREN.

OF all diseases to which children are exposed none are so fatal to them as worms. Unfortunately children are seldom free from them, and as they initiate the symptoms of almost every other complaint they often produce alarming effects without being suspected. Worms are not only a cause of disease themselves but by their irritation aggravate all other diseases, wandering from one part of the body to the other, winding themselves up in large balls and obstructing the bowels and frequently by the throat, causing convulsions and too often death. The desired remedy will be found in Dr. Jayne's Tonic Vermifuge—which will very soon destroy the worms and invigorate the powers of digestion so as to prevent a return of them.
