Brandreth's Pills

READ and understand! The time will come when the medicine, Brandreth's Pills, will be appreciated as they ought and deserve; it will be understood that Dr. Brandreth has the strongest claims upon the public. It is true that every individual who makes a trial of the Brandreth Pills, concede them to be the best medicine they ever used. They are indeed a medicine about which there is no mistake. Their value in a climate so changeable as ours cannot be sufficiently appreciated.

A free perspiration is at once restored, thus they cure colds, and consumption is prevented. Those who have a redundancy of bile find them of the most essential service, and should there be a deficiency of that important fluid the Brandreth Pills have an equally beneficial effect. Often has this important medicine saved valuable lives in those regions where the dreadful yellow fever was prevailing. A few doses taken immediately upon the infection being received into the system, will be almost certain to prevent any material inconvenience. And at no stage of this dreadful epidemic is there so proper a medicine as the Brandreth Pills. Let this medicine be universally used in this very disease, and no loss of blood allowed, and few very few, would be its victims. So it is with other diseases. Assist nature with this all important medicine to remove morbid humors from the blood, and do not resort to bleeding or mercury, and we shall have a very great scarcity of persons afflicted with chronic maladies. The feathered tribe—the animal kingdom—over which we are the lords, are not afflicted with chronic maladies; neither should we be if it were not for our pride which occasions them. Follow nature. Use the medicine which harmonizes with her, which mildly but surely removes all the impurities of the blood, which strengthens the feeble and yet reduces those of too full habit to a healthy standard. Let me again say that every department of the manufacture of Brandreth Pills, personally superintended by me, and that every box with my name thereon upon it may be relied upon to have the beneficial effect described if used according to the directions accompanying.
