Behave Yoursel Before Folk.

Atn - Good morrow to your night cap. Behave yoursel' before folk,

Behave yoursel' before folk, And dinns be, see rode to me, And kiss me sae before folk.

I wadna gie me muckle pain. 'Gin we were seen and heard by nane, To tak' a kiss, or grant you ane, But gudesake! no before folk: Behave yoursel' before folk, Behave yoursel' before folk. What'een you do, when out o' view, Behave yoursel' before folk.

Consider, lad, how folk will crack, And what a great affair they'll mak," O' naething but a simple smack. That's gi'en or ta'en before folk; Behave yoursel' before folk, Behave yoursel' before folk, Occasion to come o'er folk.

It's no through hatred o' a kiss That I sae plainly tell you this, But, deed, I tak' it eair amiss; To be sae teazed before folk; Behave yoursel' before folk, Behave yoursel' before folk, When we're alane, ye may tak' ane, But scant o' one before folk.

I'm sure wie' you I've been as free, As any modest lass should be, And yet it doesna do to see, Sic freedom used before folk: Behave yoursel' before folk, Behave yoursel' before folk, I'll ne'er submit, again to it. So mind you that before folk.

Ye tell me that my face is fiar, It may be sae, I dinna care, But ne'er again gar't blush sae siar, As ye has done before folk: Behave yoursel' before folk. Behave yoursel' before folk, freaks. But aye be donce before folk.

Ye tell me that my lips are sweet. Bic tales. I doubt are a deceit, At any rate, its hardly meet, To prie their sweets before folk; Behave yonrsel' before folk. Behave yoursel' before folk, place, But surely no before folk

But 'Gin ye, really do insist. That I must suffer to be kiss'd. Gae get a license free the priest. And mak' me yours before folk: Behave yoursel' before folk, Behave yoursel' before folk, And when we're ane baith flesh an' Ye may tak 'teu before folk.

A NEW AGRICULTURAL WRIN- Cholera, Summer Complaint, Diarrhaya

A funny story is told of an old friend of ours-one who, sick and fired of his care and bustle of city life, has retired as the soying is. His land, albeit well ministered thy Carminative Balsam, and I conside fertile as some we have seen, and re- and purging most violently, with severe Tormin quires scientific culture and liberal ma and Ciamps in the upper and lower extremitie

So much by way of explanation. says, our friend, being on a short visit would map in two. There was also violent cholio this oity, attended an auction sale pains around the ubilical region attended with ver they were selling damaged sausages at patient had been unwell the day previous, with he time. There were some 8 or 10 ooseness of the bowels. That six hours before barels of them, and they were 'just go. sawhim he was seized with the complaint and had ng at 50 cents a barrel,' when the aucioneer, with all apparant seriousness, him a spoonful of thy Rulsam which in a few me was an idea for our farmer friend. Our friend got them-and how to get possible, was his first movement, for it the beneficial effects of the Carcinative Baleam is ges, to use a common expression, were getting no better fast,' and it was desirable to have them under ground as soon as possible.

He was about to plant a field of saveral acres of corn-the soil of the pine Nor gie the tongue, o' auld and young, woods species, and so here was just the place for this new experiment in agriculture, this new wrinkle in the science

of geoponics. One 'link' of sausage being deemed emply sufficient, that amount was placed in each hill accompanied by the usual number of kernels of corn and an occasional pumpkin-seed, and all were nicely covered over in the usual style,

Now, premising that several days have clapsed since the corn was planted the sequel of the story shall be told in a dialogue between our friend and one of hisneighbors:

planted your corn? Friend -Yes, several days since. Neighbor-Is it up yet?

Friend-Up! yes, and gone, the most

Neighbor-How is that? Friend-Well, you see I bought lot of damaged saurages in Orleans, the other day, the auctioneur saying they would make excellent manure, if nothing else. Well, when I planted my corn, I put a sausage in each hill. Some days afterwards, I went to the field to Nor heat my cheeks, wie you mad see how my corn was coming on, and a pretty piece of busines I have made f Soop, Copper Kettes, Steel, Bar Iron, of trying agricultural experiments.

Neighbor-Why, what is the matter?
